[57] **CLAIM**

The ornamental design for a puppet, as shown and described.

DESCRIPTION

FIG. 1 is a full front view of the puppet according to our novel design;

FIG. 2 is an enlarged front view of an upper portion of the puppet illustrating a head of the puppet having its left eyeball displaced out of its eye socket and its jaw opened displaying its teeth according to our novel design;

FIG. 3 is a left-side view of the puppet according to our novel design;

FIG. 4 is a right-side view of the puppet according to our novel design;

FIG. 5 is a full front view of the puppet having its cranium opened to expose its brain according to our novel design;

FIG. 6 is an enlarged, rear view of the lower portion of the puppet, it being understood that the back of the head, which includes an open area for gripping the puppet, has been omitted from the view since it forms no part of the claimed design; and,

FIG. 7 is a front-right enlarged perspective view of an arm of the puppet detailing the extension of its hand and exposing a bone of its lower right arm according to our novel design.
