[57] **CLAIM**

The ornamental design for a baby diaper changing station, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a baby diaper changing station with a platform in an opened position on a wall and incorporating the new design of the invention, shown in full lines, with the broken lines illustrating the environment of the design;

FIG. 2 is a front view thereof with the platform in an opened position;

FIG. 3 is a left side view thereof with the right side view being a mirror image of FIG. 3;

FIG. 4 is a rear view thereof with the platform in an opened position;

FIG. 5 is a top view thereof with the platform in an opened position;

FIG. 6 is a bottom view thereof with the platform in an opened position;

FIG. 7 is a perspective view thereof with the platform in a closed position;

FIG. 8 is a front view thereof with the platform in a closed position;

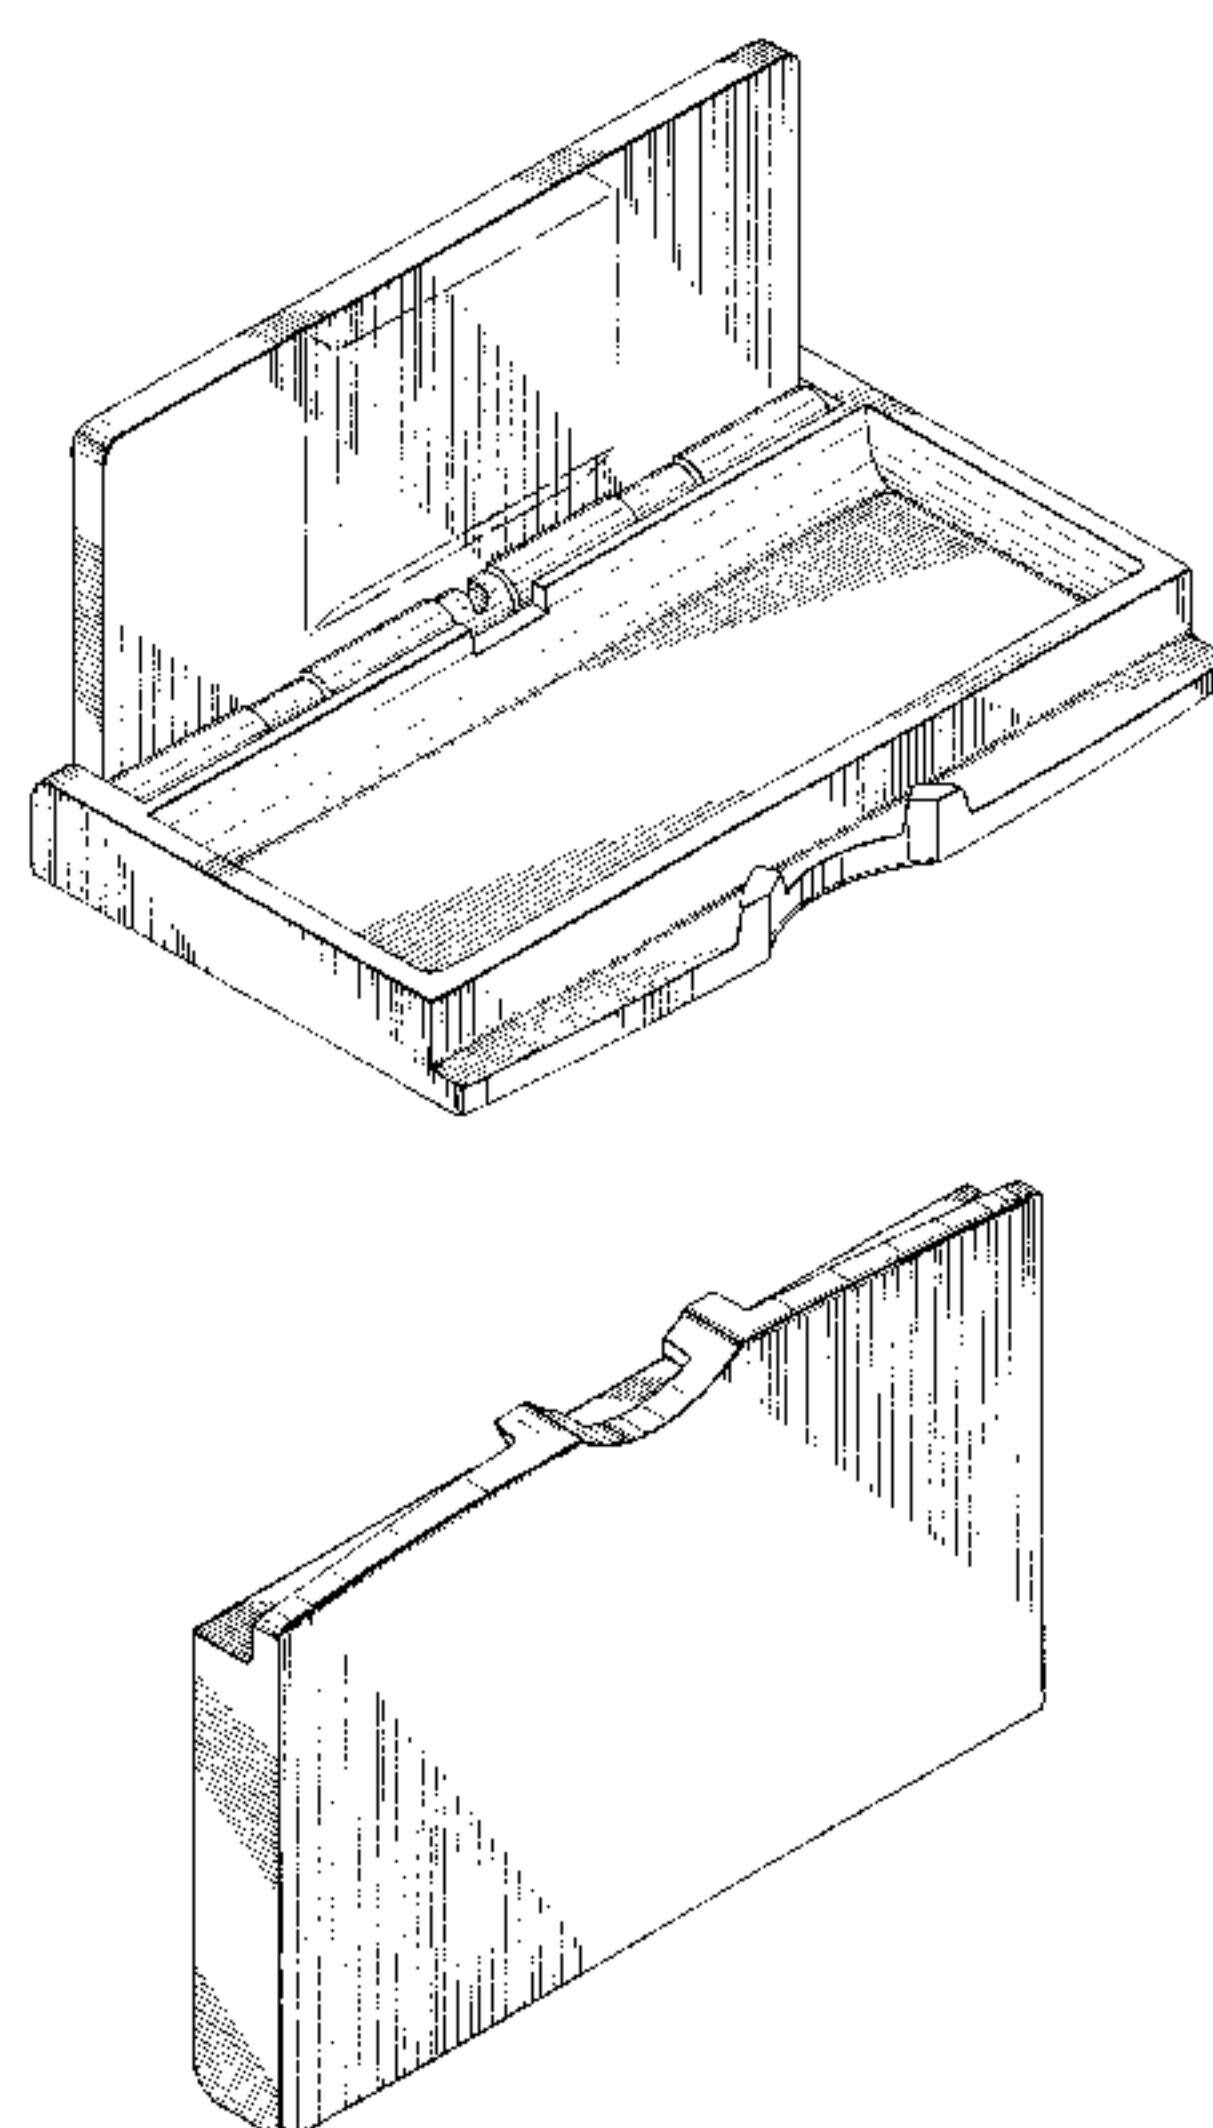

FIG. 9 is a left side view thereof with the platform in a closed position with the right side view being a mirror image of FIG. 9.

FIG. 10 is a top view thereof with the platform in a closed position;

FIG. 11 is a bottom view thereof with the platform in a closed position; and,

FIG. 12 is a rear view thereof with the platform in a closed position.
