[57] **CLAIM**

The ornamental design for a remote control tether, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of a remote control tether, showing my new design, with a remote shown in dashed lines, it being understood that the remote does not form part of the invention;

FIG. **2** is a side elevational view thereof;

FIG. **3** is a top plan view thereof, the bottom plan view being a mirror image thereof;

FIG. **4** is a left end elevational view thereof with respect to FIG. **3**; and,

FIG. **5** is a right end elevational view thereof with respect to FIG. **3**.

The cord is shown broken away in FIGS. **2** and **3** for ease of illustration. The complete cord length is shown in FIG. **1**.
