[57] CLAIM

The ornamental design for a automobile body, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a vehicle body showing our new design;

FIG. 2 is a rear perspective view thereof;

FIG. 3 is a left side view thereof, it being understood that the side opposite to that shown is a substantial mirror image thereof;

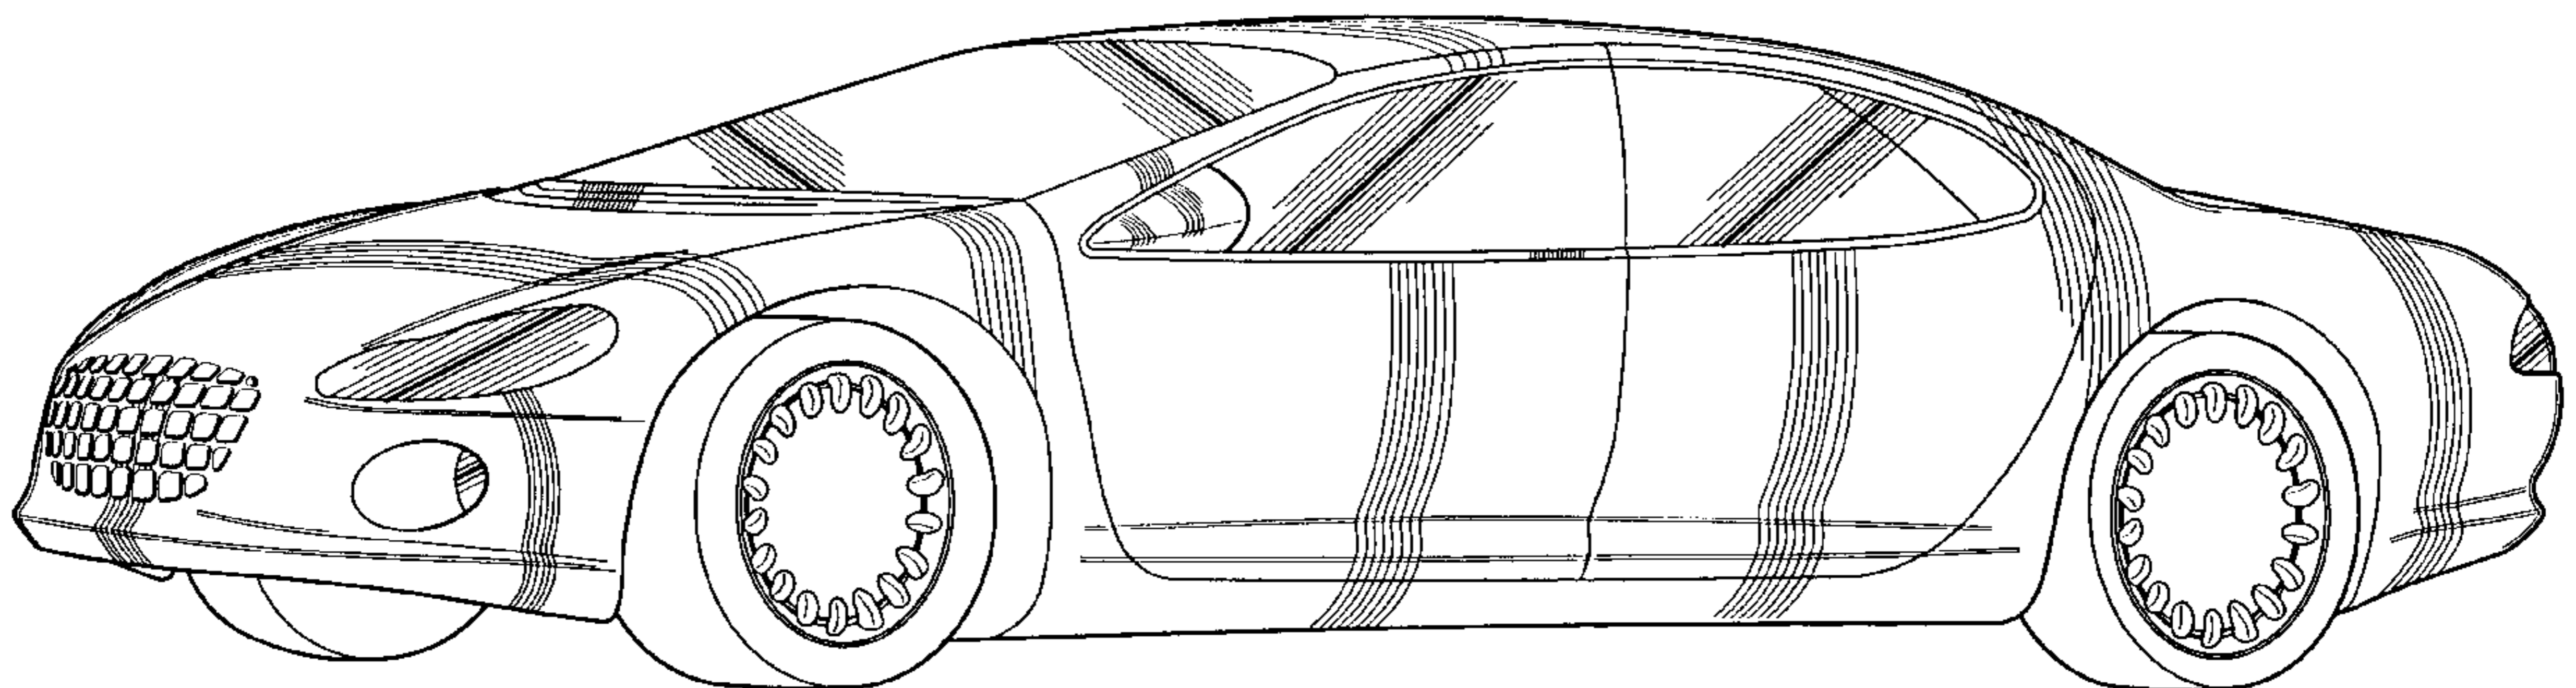

FIG. 4 is a front view thereof; and,

FIG. 5 is a rear view thereof.

It will be understood that the vehicle body is a substantially mirror image about a longitudinally extending center line. In this regard, the left side of the vehicle will be understood to embody completed details of the subject design, while the right side includes uncompleted details understood to be identical to similar details on the left side.

It will be understood that there is no claim being made to any particular color for the design of the present invention. It will be further understood that the hidden line showing of wheels and tires throughout the drawings is for illustrative purposes only and forms no part of the subject invention.
