[57] **CLAIM**

The ornamental design for a raceway cover for a wall panel, as shown and described.

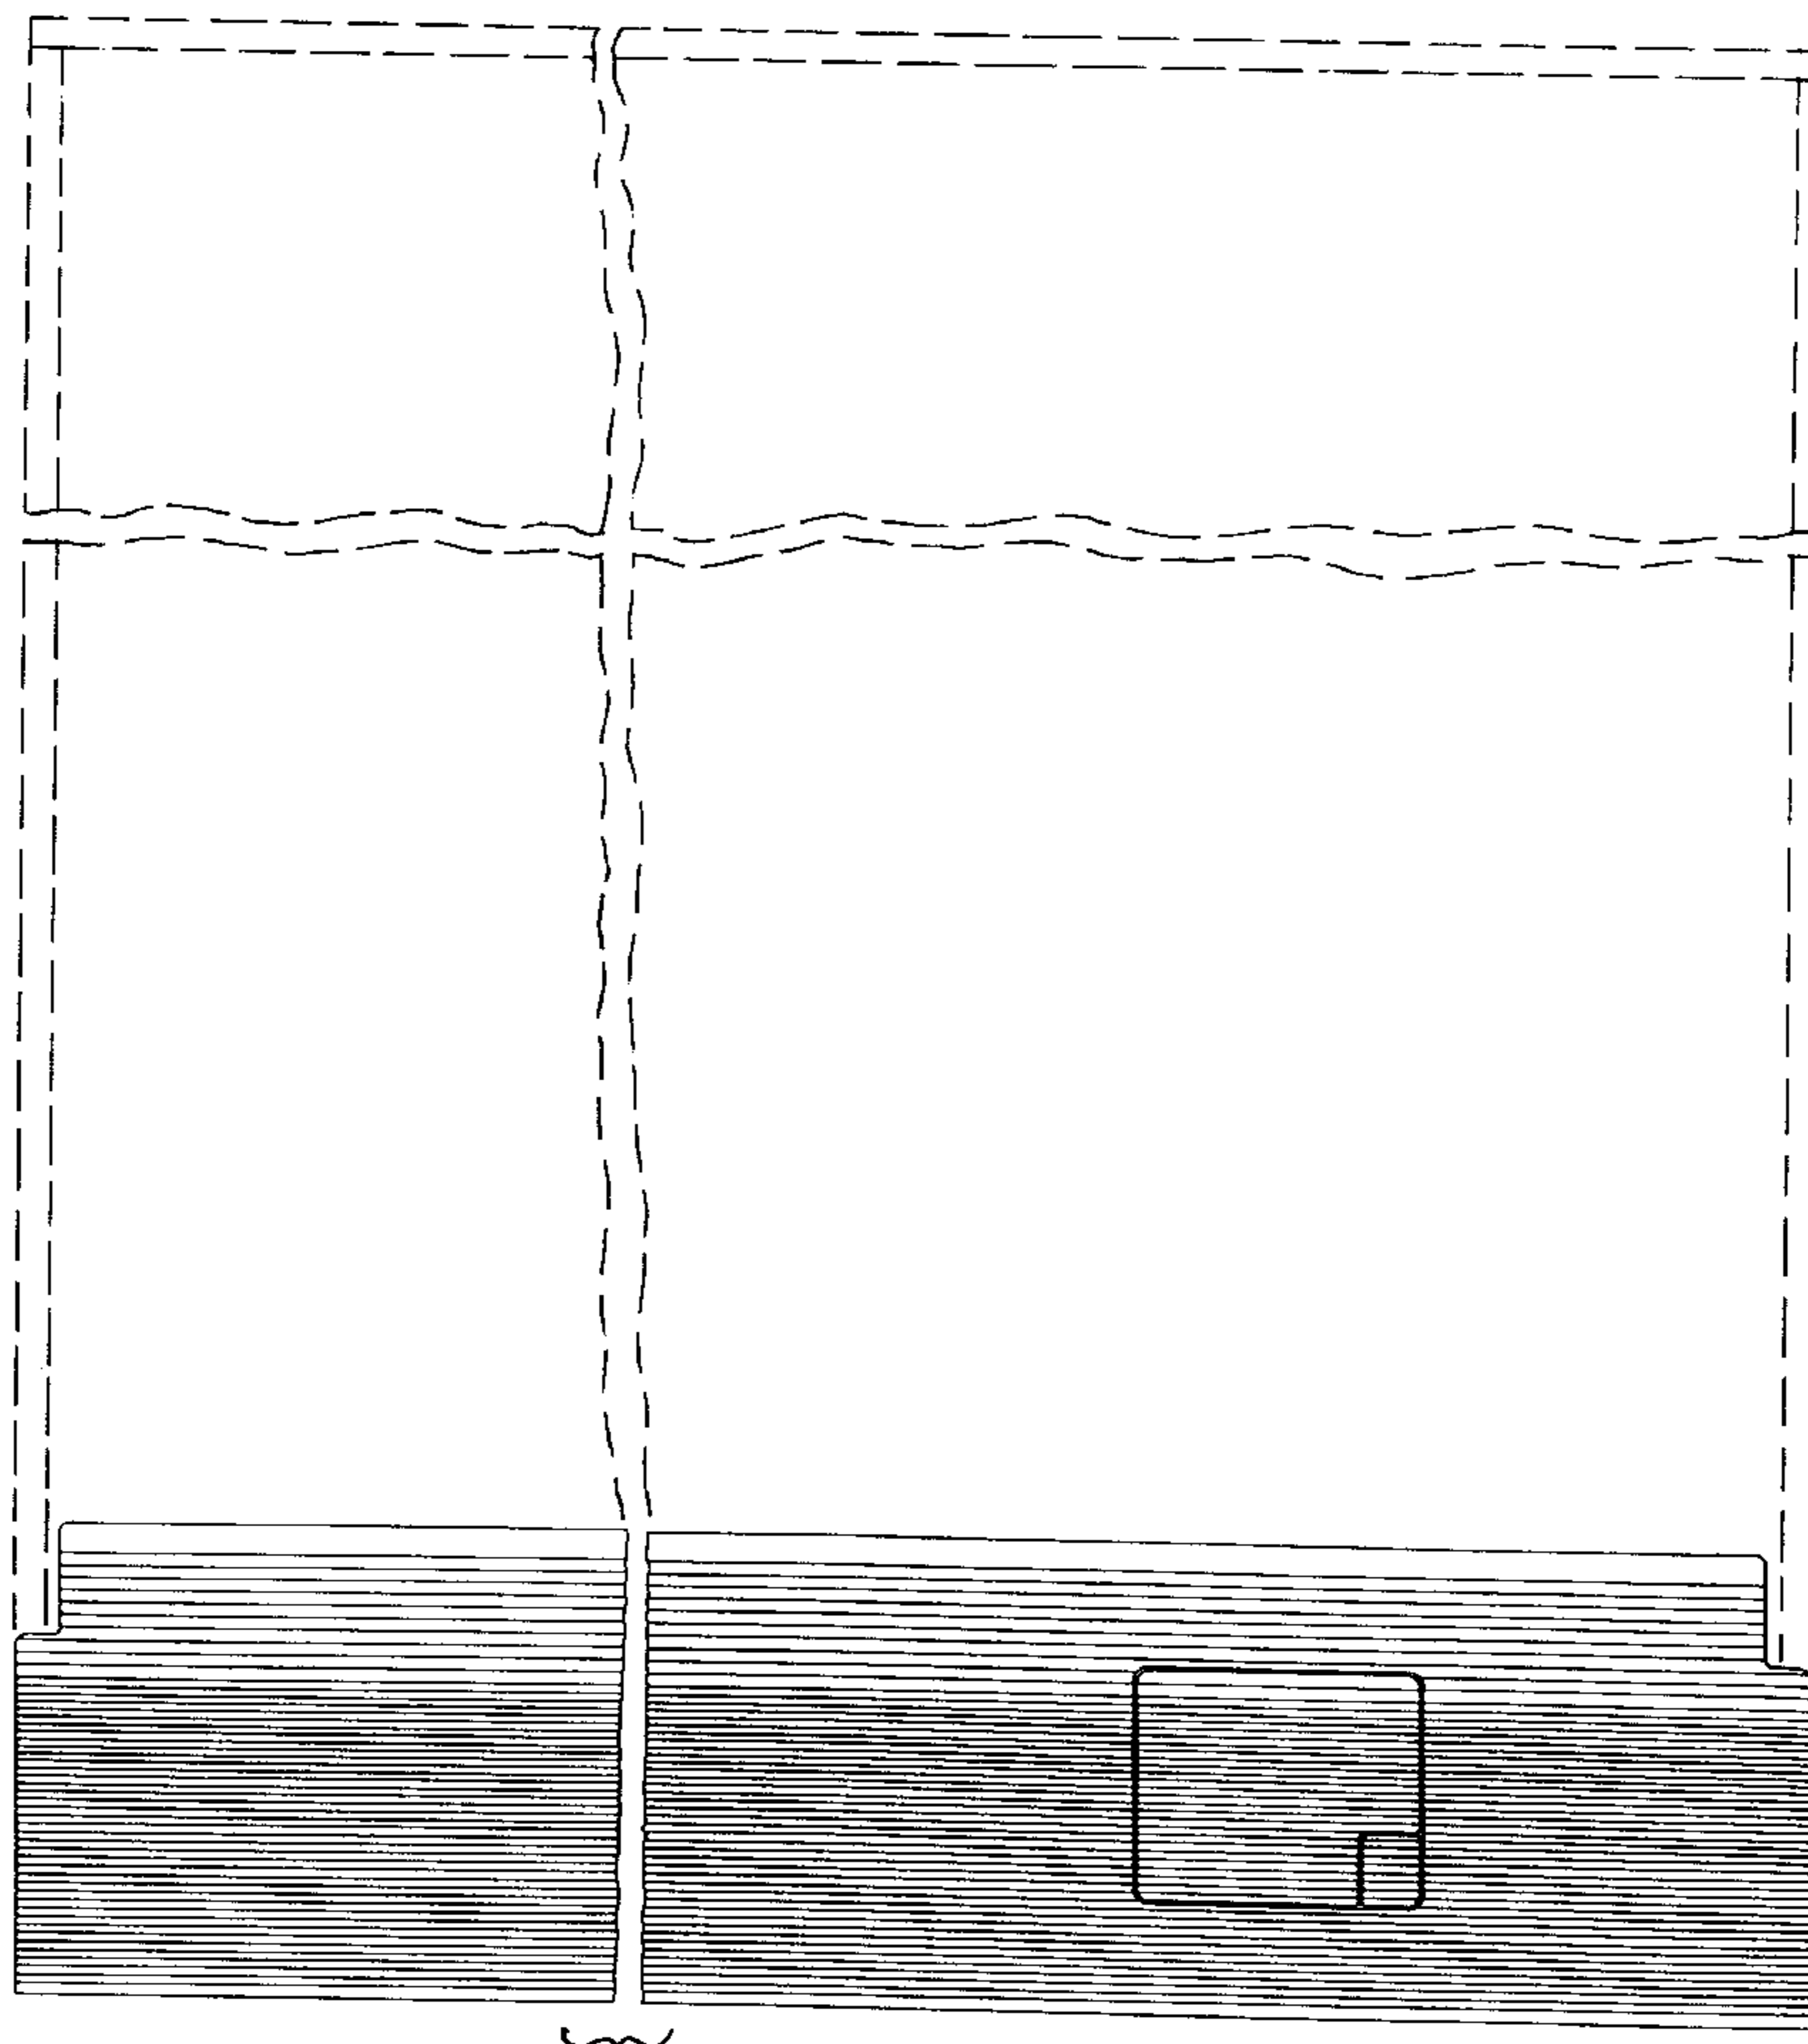

DESCRIPTION

FIG. 1 is a front elevational view of a raceway cover for a wall panel embodying the design of this invention; FIG. 2 is a side elevational view taken from the right side of FIG. 1, the left side elevational view being substantially a mirror image thereof; FIG. 3 is an enlarged fragmentary sectional view taken generally along line 3—3 of FIG. 1 to depict the front surface of the invention; FIG. 4 is a front elevational view corresponding to FIG. 1 but illustrating a second embodiment thereof; and, FIG. 5 illustrates the application of the invention to a wall panel.

The raceway cover for a wall panel of this invention is basically plain and nonornamental on the nonillustrated sides thereof, and when mounted on a wall panel the remaining sides, such as the back and bottom, are hidden from view.

The broken lines as appearing in FIG. 5 are solely for the purpose of illustrating environmental structure, and form no part of the inventive design.
