[57] **CLAIM**

The ornamental design for an exterior surface configuration of a rear light cover assembly for an automobile, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of an exterior surface configuration of a rear light cover assembly for an automobile according to my novel design;

FIG. 2 is a top view of an exterior surface configuration of a rear light cover assembly for an automobile according to my novel design;

FIG. 3 is a left side view of an exterior surface configuration of a rear light cover assembly for an automobile according to my novel design;

FIG. 4 is a right side view of an exterior surface configuration of a rear light cover assembly for an automobile according to my novel design;

FIG. 5 is a bottom view of an exterior surface configuration of a rear light cover assembly for an automobile according to my novel design; and,

FIG. 6 is a perspective view from the front left of an exterior surface configuration of a rear light cover assembly for an automobile according to my novel design.

The dash line showing depicts environment and is not part of the claimed design. The design envisioned will contain a second portion whose image is mirror symmetrical to this item. The embodiment shown is the left side portion.
