DESCRIPTION

FIG. 1 is a three-dimensional perspective view of the protective container in the opened position of the present invention;
FIG. 2 is a three-dimensional perspective view of the protective container in the closed position of the present invention;
FIG. 3 is a front view of the protective container of the present invention, the rear view being a mirror image thereof;
FIG. 4 is a side view of the protective container of the present invention, the opposite side view being a mirror image thereof;
FIG. 5 is a three-dimensional perspective view of the protective container in the opened position and showing a container therein; and,
FIG. 6 is a three-dimensional perspective view of the protective container in the closed position and showing a container therein.
The bottom of the protective container is flat and unornamented. The broken line showing of a container is for illustrative purposes only and forms no part of the claimed design.
