[57] CLAIM

The ornamental design for sunflower shaped water misting nozzle, as shown and described.

Date of Patent: ** **Sep. 21, 1999**

Des. 414,245

FIG. 1 is a top planar view depicting a horizontal type embodiment of a sunflower shaped water misting nozzle in accordance with this invention shown separately for ease of illustration.

DESCRIPTION

FIG. 2 is a bottom planar view of the embodiment of FIG. 1 taken near the top of the water carrying conduit leading into the bottom portion of the sunflower shaped water misting nozzle.

FIG. 3 is a side elevational view of the embodiment of FIGS. 1 and 2 showing a water misting nozzle extending slightly above a base portion of the sunflower shaped water misting nozzle.

FIG. 4 is a front elevational view depicting a vertical type embodiment of a sunflower shaped water misting nozzle in accordance with this invention shown separately for ease of illustration.

FIG. 5 is a rear elevational view of the embodiment of FIG. 4

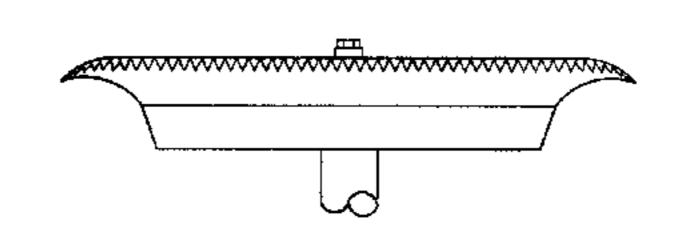

FIG. 6 is a side elevational view of the embodiment of FIGS. 4 and 5 showing a water misting nozzle extending slightly beyond a base portion of this sunflower shaped water misting nozzle.

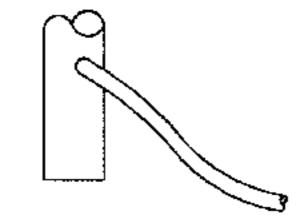

FIG. 7 is an exploded side elevational view of the embodiment disclosed in FIGS. 4–6, showing the configuration of the base portion; and,

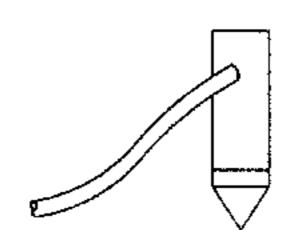

FIG. 8 is an exploded side elevational view of the embodiment disclosed in FIGS. 1–3, showing the configuration of the base portion.

In some figures the water carrying conduit is shown broken away to indicate indeterminate length.
