Primary Examiner—Janice E. Seeger

[57] **CLAIM**

The ornamental design for a cubic picture display system, as shown and described.

DESCRIPTION

FIG. 1 is an exploded, top perspective view of the cubic picture display system of this invention, showing a multi-cube receiving tray, with one cube thereof poised for positioning within said tray, and a cover to be received thereon; FIG. 2 is a front view of the assembled cubic picture display system according to this invention, where the rear and respective side views are identical; FIG. 3 is a bottom view thereof; and, FIG. 4 is a top view thereof.
