[57] CLAIM

The ornamental design for a wearable computer, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a wearable computer according to an embodiment of the invention.

FIG. 2 is a front view of a wearable computer according to an embodiment of the invention.

FIG. 3 is a top plan view of a wearable computer according to an embodiment of the invention.

FIG. 4 is a left side view of a wearable computer according to an embodiment of the invention.

FIG. 5 is a right side view of a wearable computer according to an embodiment of the invention.

FIG. 6 is a bottom view of a wearable computer according to an embodiment of the invention.

FIG. 7 is a rear view of a wearable computer according to an embodiment of the invention.

FIG. 8 is a perspective view of a wearable computer according to a first alternative embodiment of the invention.

FIG. 9 is a front view of a wearable computer according to a first alternative embodiment of the invention.

FIG. 10 is a top plan view of a wearable computer according to a first alternative embodiment of the invention.

FIG. 11 is a left side view of a wearable computer according to a first alternative embodiment of the invention.

FIG. 12 is a right side view of a wearable computer according to a first alternative embodiment of the invention.

FIG. 13 is a bottom view of a wearable computer according to a first alternative embodiment of the invention.

FIG. 14 is a rear view of a wearable computer according to a first alternative embodiment of the invention.

FIG. 15 is a perspective view of a wearable computer according to a second alternative embodiment of the invention.

FIG. 16 is a front view of a wearable computer according to a second alternative embodiment of the invention.

FIG. 17 is a plan view of a wearable computer according to a second alternative embodiment of the invention.

FIG. 18 is a left side view of a wearable computer according to a second alternative embodiment of the invention.

FIG. 19 is a right side view of a wearable computer according to a second alternative embodiment of the invention.

FIG. 20 is a bottom view of a wearable computer according to a second alternative embodiment of the invention.

FIG. 21 is a rear view of a wearable computer according to a second alternative embodiment of the invention.

The broken line showing of environment in FIGS. 1 and 8 is for illustrative purposes only and forms no part of the claimed design.

The belt is shown broken away in FIGS. 16–21 for convenience of illustration.
