CLAIM

We claim the ornamental design for embossed tissue, as shown and described.

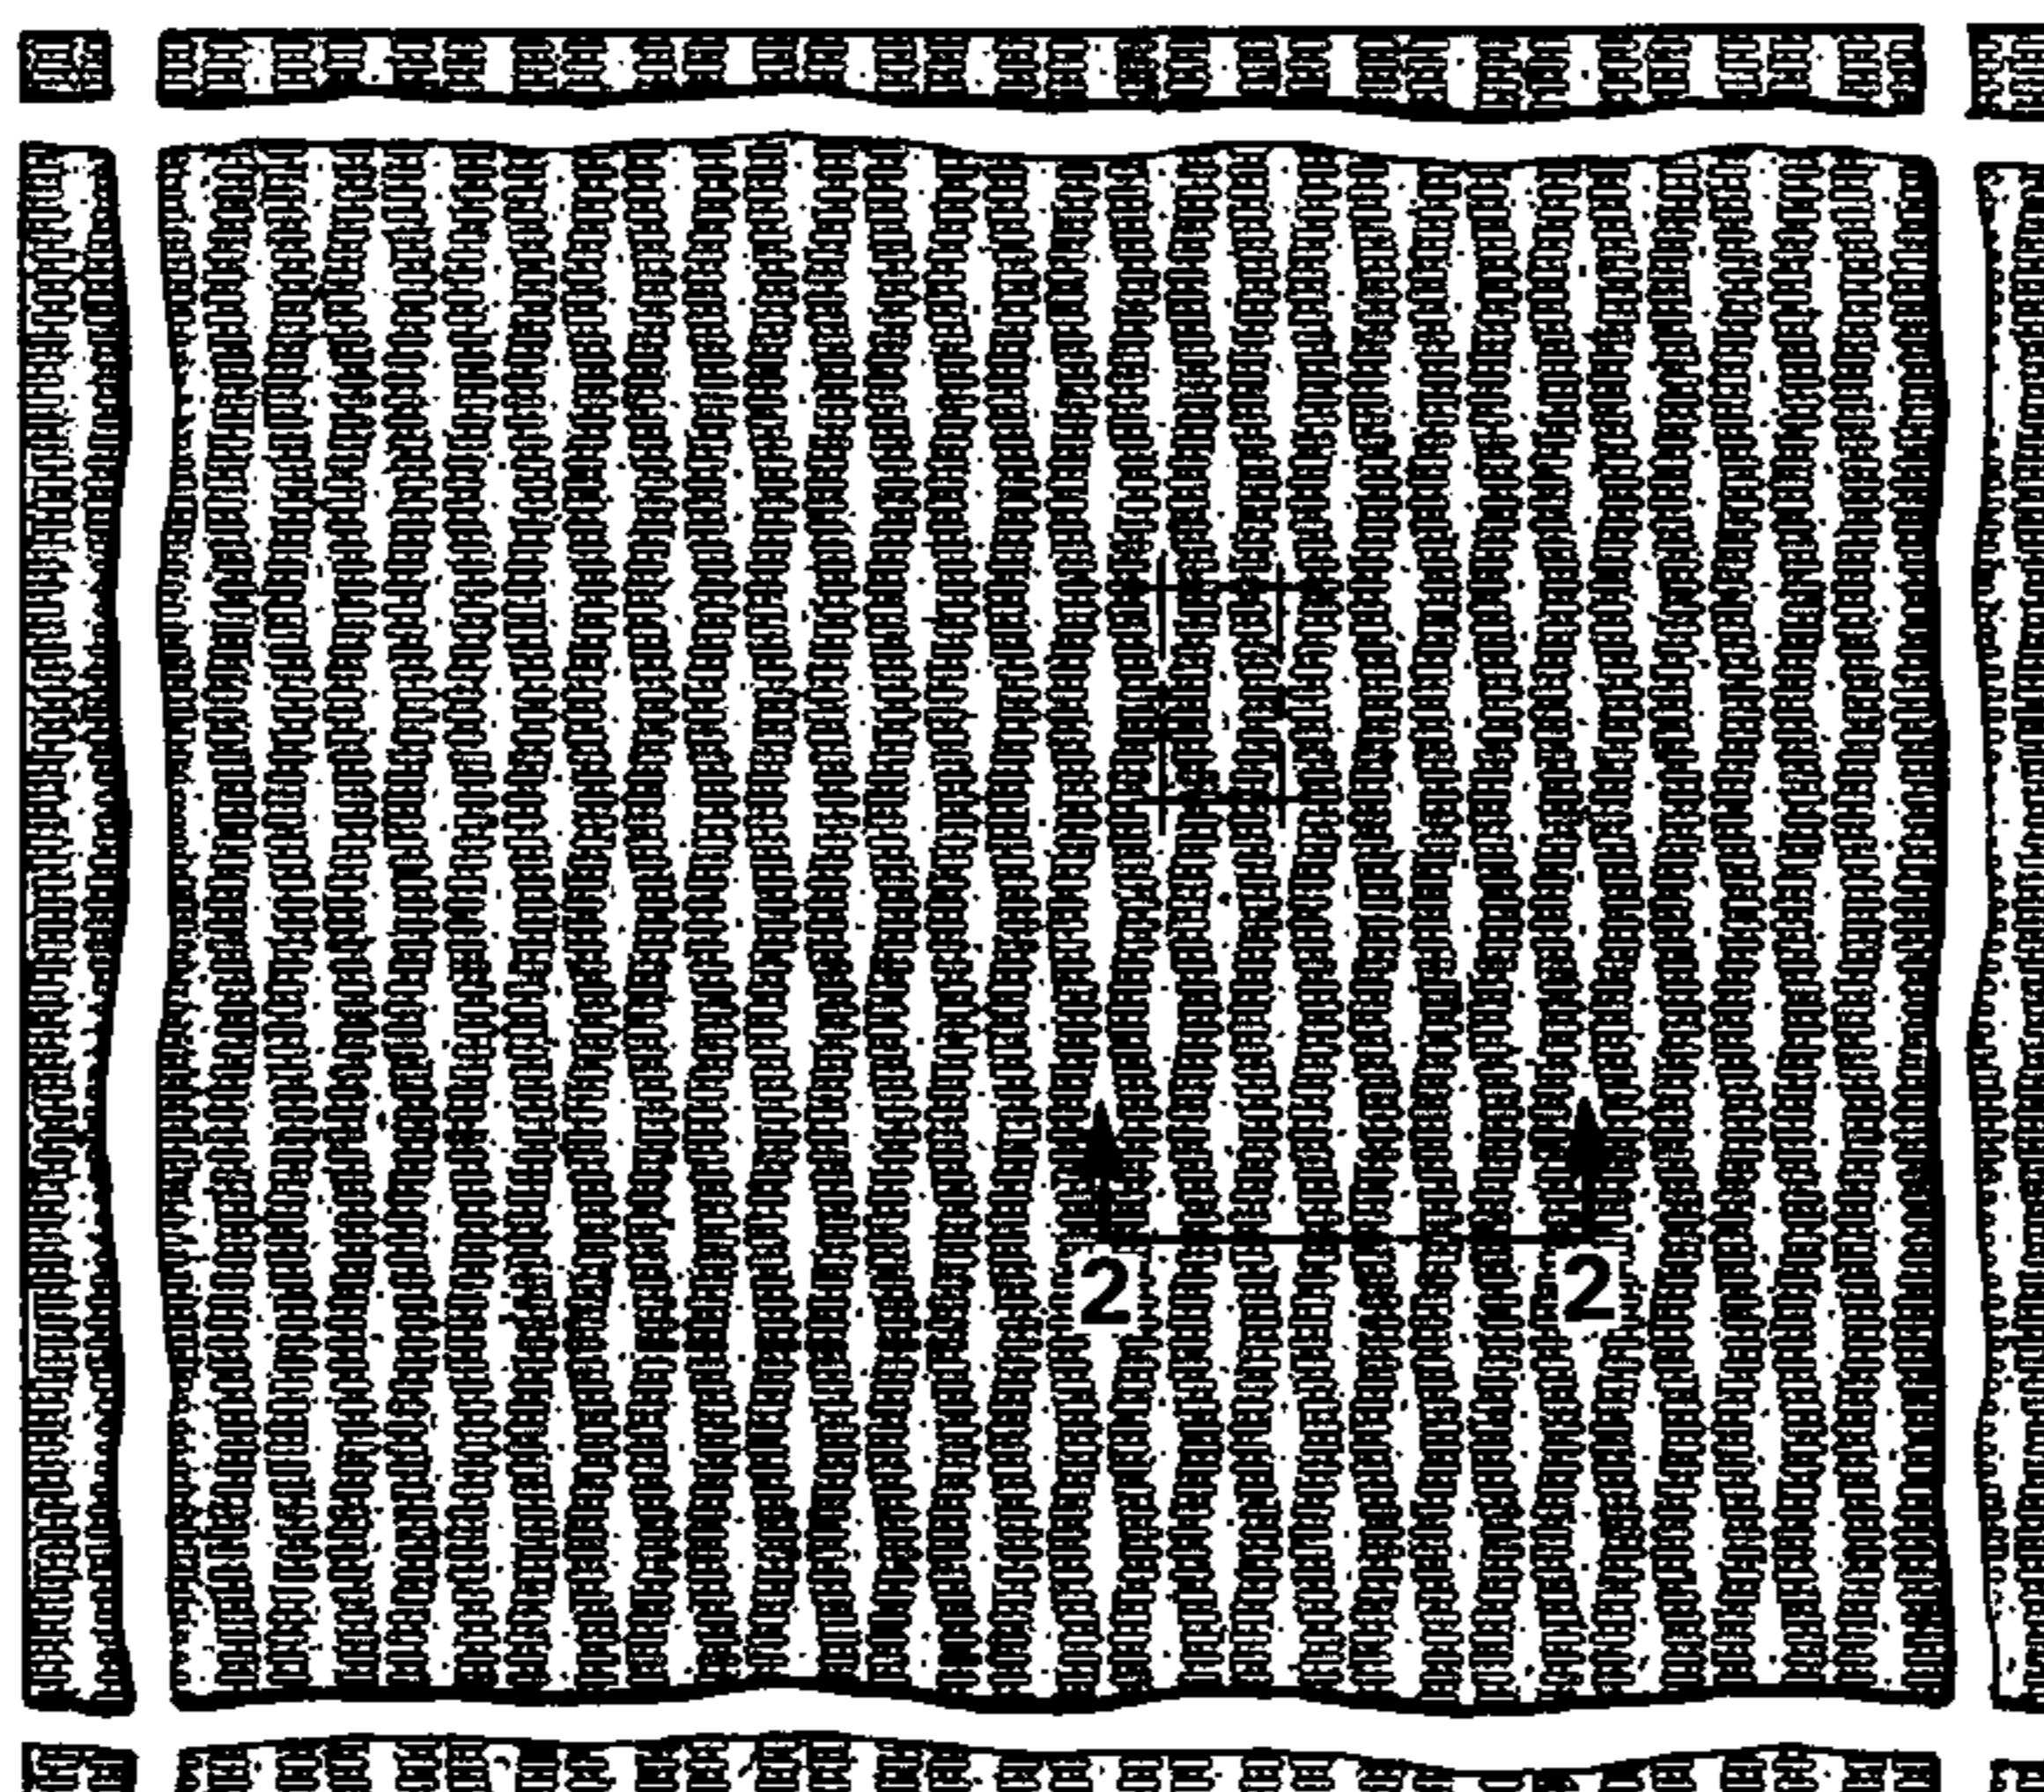

DESCRIPTION

FIG. 1 is a top plan view of an embossed tissue showing our new design. The bottom plan view forms no part of the claimed design; and,

FIG. 2 is an enlarged fragmentary cross-sectional view along lines 2—2 of FIG. 1.

In FIG. 1, the broken lines define one repeat unit of the claimed design, which repeats uniformly throughout the length and width of the tissue. The broken lines form no part of the claimed design. The tissue is shown broken away on all four sides to indicate indeterminate length and width.
