[57] **CLAIM**

The ornamental design for a push button for controlling a lift on a personnel carrying vehicle as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a push button for controlling a lift on a personnel carrying vehicle showing our new design, with the rear being flat and unornamented; FIG. 2 is a front elevational view of a second embodiment thereof;

FIG. 3 is a side elevational view thereof, with the opposite sides being a mirror image of FIG. 1 and 2;

FIG. 4 is an enlarged front elevational view of the surface ornamentation in FIG. 1; and,

FIG. 5 is an enlarged front elevational view of the surface ornamentation in FIG. 2.
