

US00D417122S

# United States Patent [19] Jagger

[11] **Patent Number: Des. 417,122**

[45] **Date of Patent: \*\* Nov. 30, 1999**

[54] **HANDLE FOR UTENSILS**

[75] Inventor: **Vivienne Drummond Jagger**, Dalkeith, Australia

[73] Assignee: **Little People Limited**, Hong Kong, The Hong Kong Special Administrative Region of the People's Republic of China

[\*\*] Term: **14 Years**

[21] Appl. No.: **29/080,828**

[22] Filed: **Dec. 17, 1997**

### Related U.S. Application Data

[63] Continuation of application No. 08/573,031, Dec. 15, 1995, abandoned.

[57] **CLAIM**

The ornamental design for a handle for utensils, as shown and described.

#### DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member;

FIG. 2 is a perspective view of a first embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member;

FIG. 3 is a side view of a first embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member;

FIG. 4 is a side view of a first embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member;

FIG. 5 is a top view of a first embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member;

FIG. 6 is a top view of a first embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member;

FIG. 7 is a front view of a first embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member;

FIG. 8 is a front view of a first embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member;

FIG. 9 is a rear view of a first embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member;

FIG. 10 is a rear view of a first embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member;

FIG. 11 is a bottom view of a first embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member;

FIG. 12 is a bottom view of a first embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member;

FIG. 13 is a perspective view of a second embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member;

FIG. 14 is a perspective view of a second embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member;

FIG. 15 is a side view of a second embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member;

FIG. 16 is a side view of a second embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member;

FIG. 17 is a top view of a second embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member;

FIG. 18 is a top view of a second embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member;

FIG. 19 is a front view of a second embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member;

FIG. 20 is a front view of a second embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member;

FIG. 21 is a rear view of a second embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member;

FIG. 22 is a rear view of a second embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member;

FIG. 23 is a bottom view of a second embodiment of a handle according to the present invention shown in an environment of a fork-shaped food contacting member; and,

FIG. 24 is a bottom view of a second embodiment of a handle according to the present invention shown in an environment of a spoon-shaped food contacting member.

The broken line showings of fork tines or spoon bowls and shank portion in FIGS. 1-24 are for illustrative purposes only and forms no part of the claimed design.
