[57] **CLAIM**

The ornamental design for can opening center, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view as seen from the top, front, and right side of a first embodiment of the can opening center showing our new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a rear elevational view thereof;

FIG. 5 is a right side elevational view thereof;

FIG. 6 is a left side elevational view thereof;

FIG. 7 is a bottom plan view thereof;

FIG. 8 is a top plan view of a second embodiment of the can opening center showing our new design, differing from the first embodiment in that the scissors are shown in full;

FIG. 9 is a front elevational view thereof;

FIG. 10 is a rear elevational view thereof;

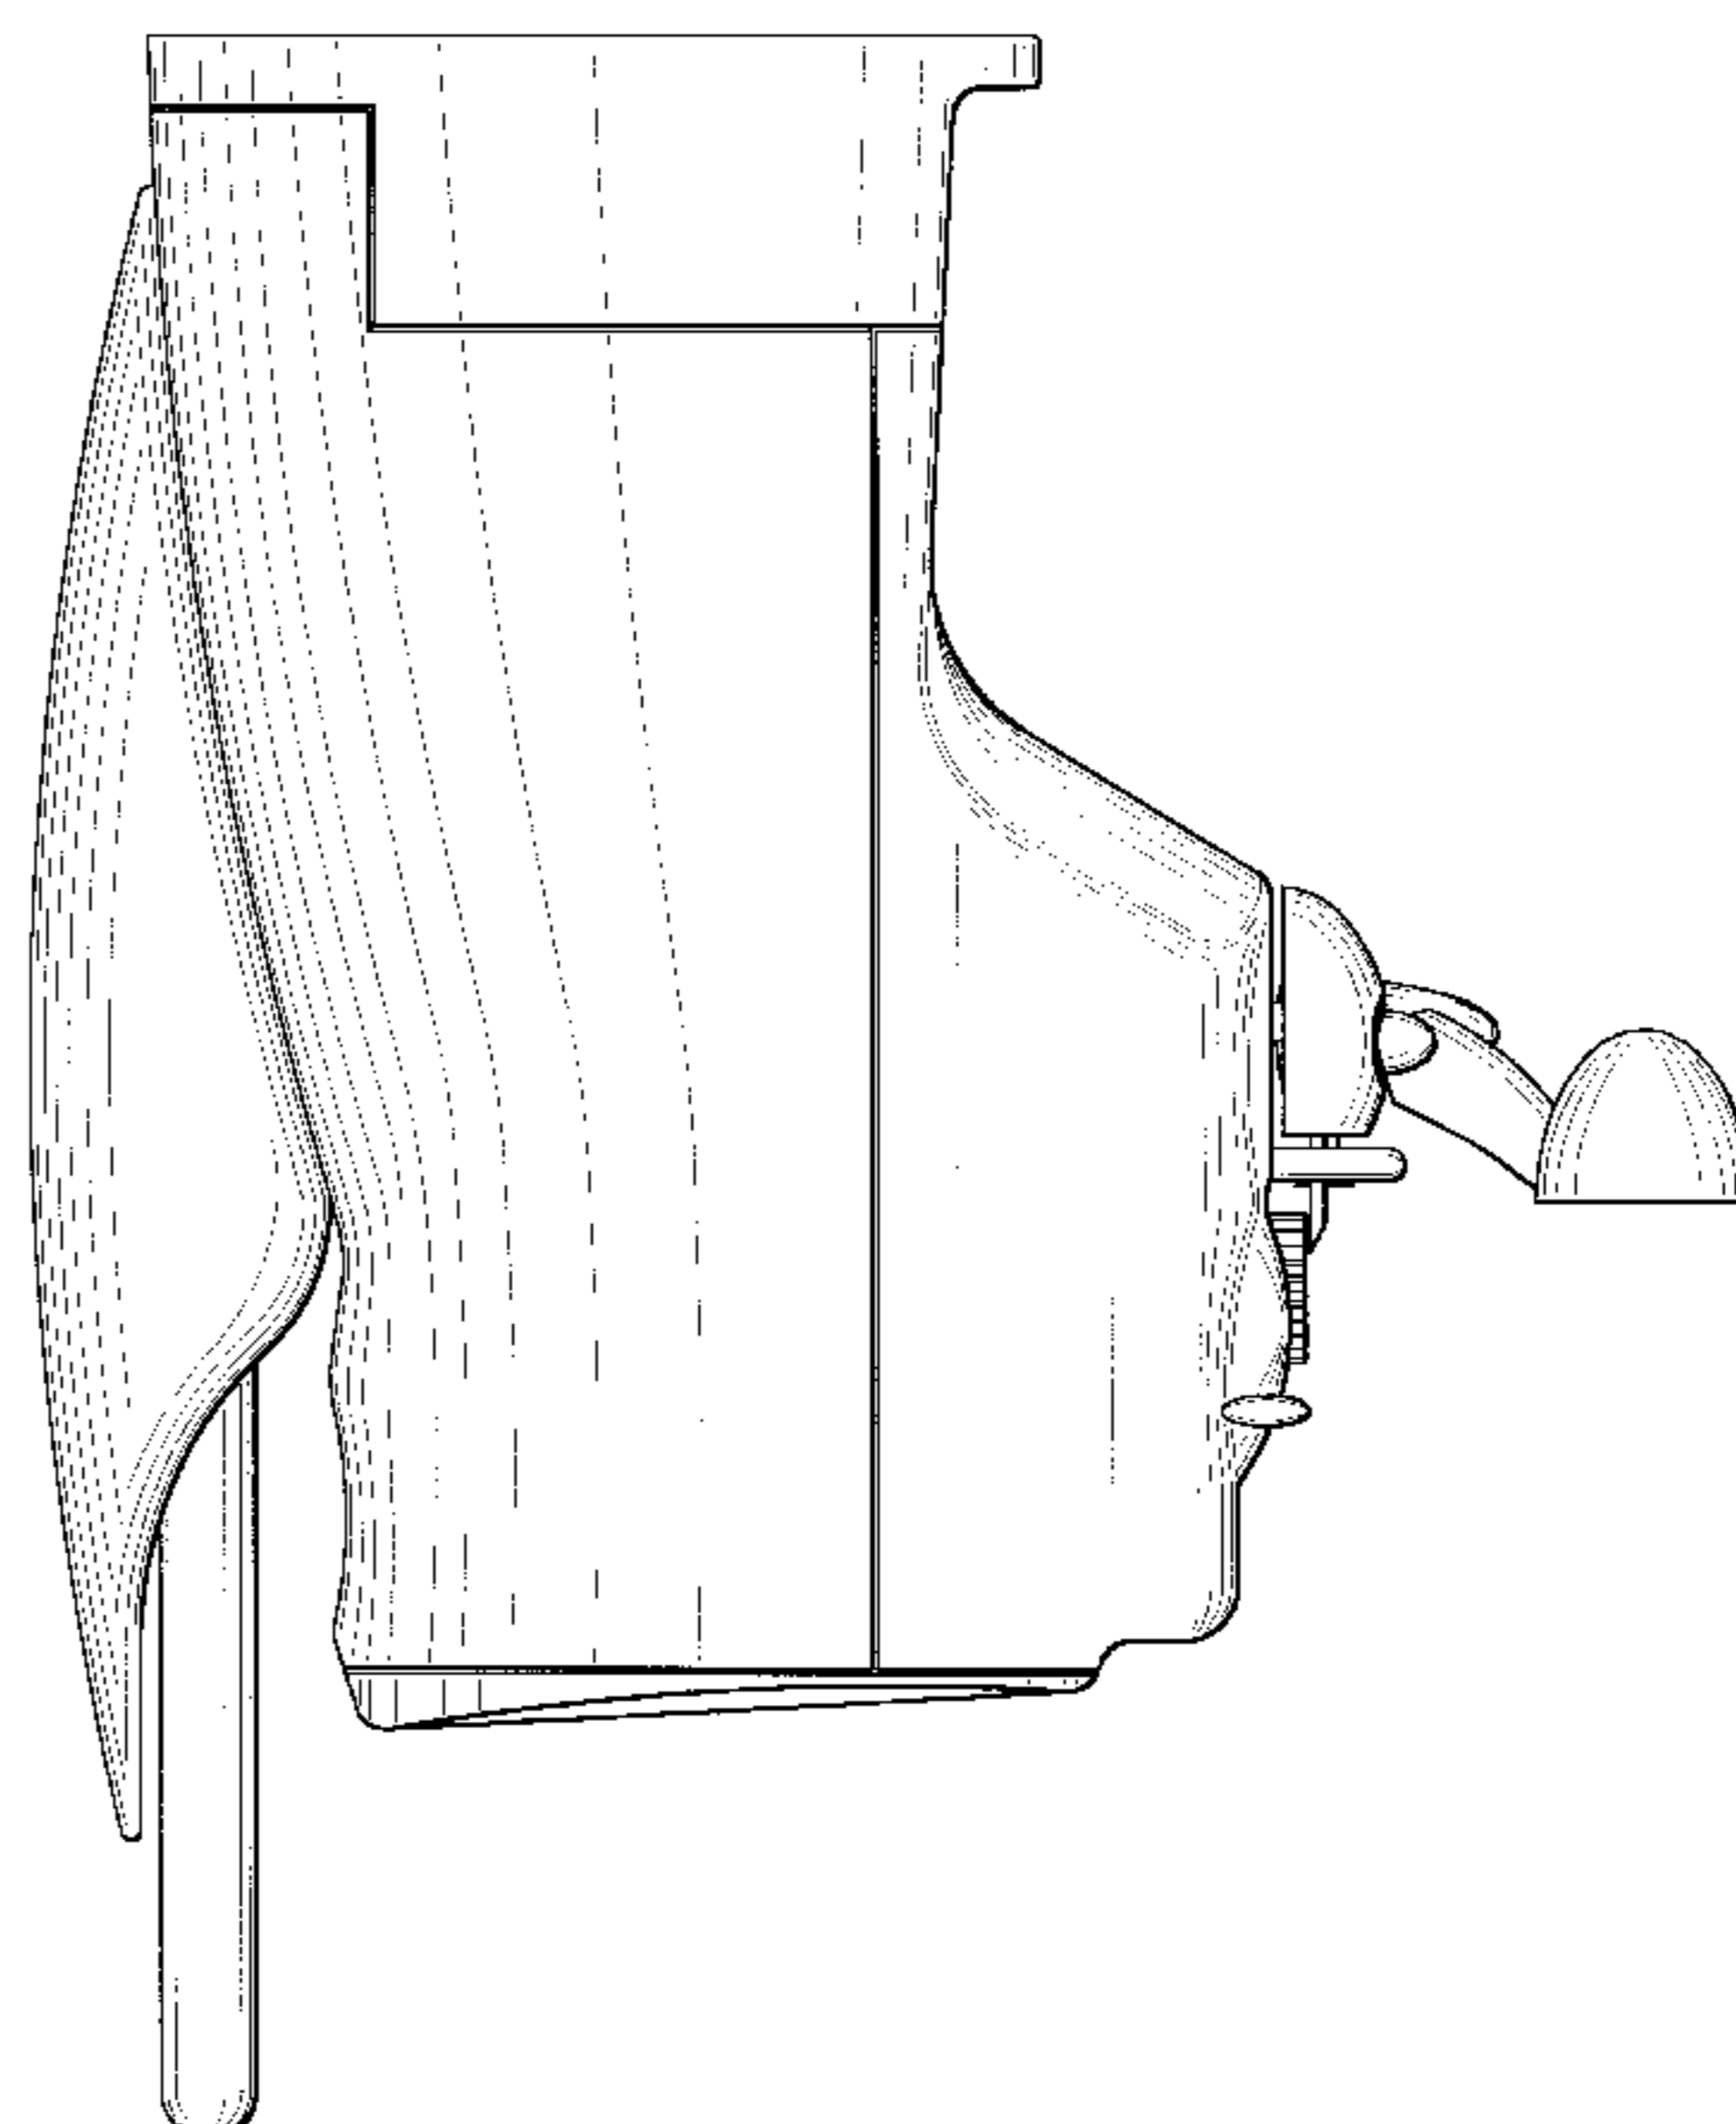

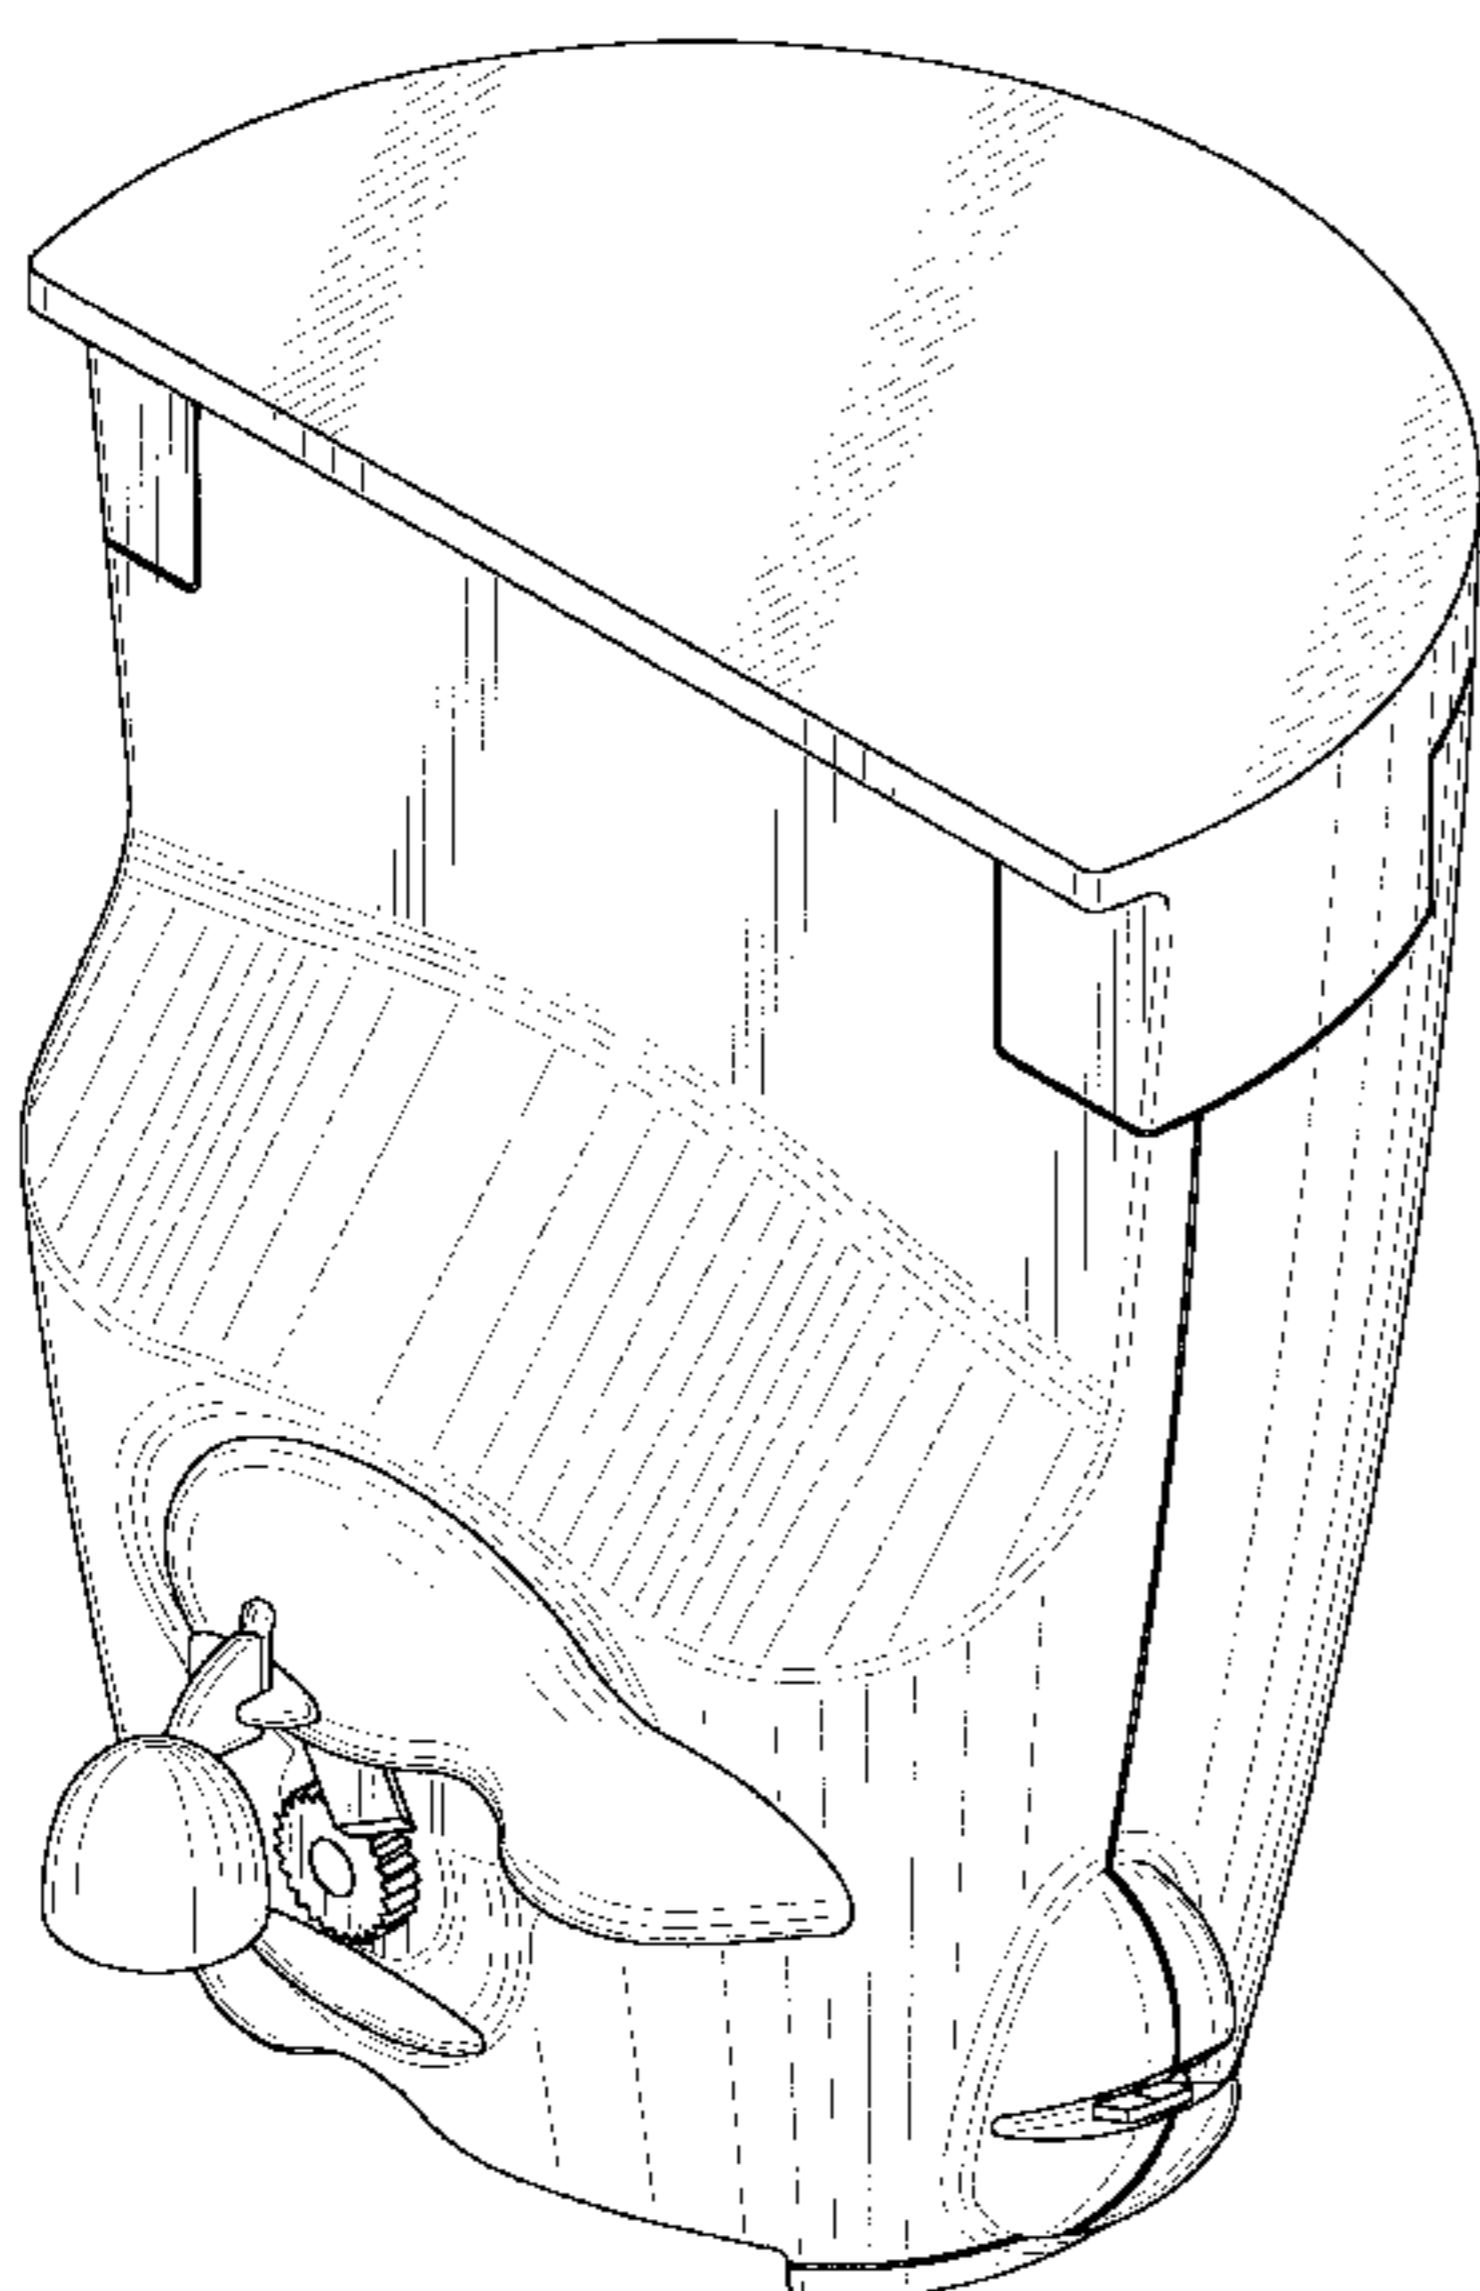

FIG. 11 is a right side elevational view thereof;

FIG. 12 is a left side elevational view thereof; and,

FIG. 13 is a bottom plan view thereof.

The broken lines in FIGS. 2 through 7 of the first embodiment of this design showing a pair of scissors are used for illustrative purposes only and form no part of the claimed design.
