[57] **CLAIM**

The ornamental design for a heavy duty brush assembly housing with an integral attachment leg, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view from the underside of the brush assembly housing showing my new design.

FIG. 2 is a perspective view from the top of the brush assembly housing showing my new design.

FIG. 3 is a bottom plan view.

FIG. 4 is a rear elevation.

FIG. 5 is a front elevation.

FIG. 6 is a side elevation taken from the right of FIG. 3.

FIG. 7 is a top plan view; and,

FIG. 8 is a side elevation taken from the right of FIG. 7.

Environmental structure is represented by broken lines in FIGS. 1 through 8 and is not claimed as part of my ornamental design.

The nature of the article is a brush assembly housing and the intended use is to receive and position a plurality of electrically conductive brushes in contact with a plurality of slip rings thereby forming a plurality of sliding contacts.
