[57] **CLAIM**

The ornamental design for a spouted container, as described and shown.

DESCRIPTION

FIG. 1 is a top perspective view showing the spouted container of our new ornamental design, with the spout in a closed configuration;

FIG. 2 is a top perspective view of the spouted container, showing the spout in an open configuration;

FIG. 3 is a top plan view of the spouted container, with the spout in the closed configuration;

FIG. 4 is a bottom view thereof;

FIG. 5 is a right side elevation thereof;

FIG. 6 is a left side elevation thereof;

FIG. 7 is a front elevation thereof;

FIG. 8 is a rear elevation thereof;

FIG. 9 is a top plan view of an alternative embodiment of the spouted container, having a handle, showing the ornamental design thereof;

FIG. 10 is a fragmentary elevation of one side of the spouted container of the alternative embodiment of FIG. 9, the opposite side elevation being a substantially mirror image thereof;

FIG. 11 is a fragmentary front elevation thereof, the rear elevation thereof being a substantially mirror image of the front elevation.

FIG. 12 is a top plan view of the spouted container of the embodiment of FIG. 1, with the spout in an open configuration.

FIG. 13 is an elevation from one side of the spouted container of FIG. 12, with the spout in an open configuration, the elevation from the other side comprising substantially a mirror image thereof.

FIG. 14 is a front elevation of the spouted container of FIG. 12, with the spout in an open configuration;

FIG. 15 is a rear elevation of the spouted container of FIG. 12, with the spout in an open configuration.
