[57] **CLAIM**

We claim the ornamental design for embossed tissue, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of an embossed tissue showing our new design. The bottom plan view forms no part of the claimed design; and,

FIG. 2 is an enlarged fragmentary cross-sectional view along line 2—2 of FIG. 1.

In FIG. 1, the tissue is shown broken away on all four sides to indicate indeterminate length and width. The broken lines define one repeat unit of the claimed design, which repeats uniformly throughout the length and width of the tissue. The broken lines form no part of the claimed design.
