[57] **CLAIM**

The ornamental design for a bezelled light display for a light emitting diodes, as shown and described.

DESCRIPTION

FIG. 1 is a view in front elevation of one embodiment of my new design showing a bezelled light display for a light emitting diode, such display being in a display panel which, as such, forms no part of the design and is therefore indicated fragmentarily by broken lines;

FIG. 2 is a corresponding view drawn to a larger scale and showing the bezelled light display for a light emitting diodes in perspective;

FIG. 3 is a view in front elevation of another embodiment of my new design showing a bezelled light display for a light emitting diodes;

FIG. 4 is a corresponding view of the bezelled light display for a light emitting diodes of FIG. 3 but drawn to a larger scale and showing the bezelled light array in perspective; and,

FIG. 5 is a view in vertical section taken on line 5—5 of either FIG. 1 or FIG. 3 to better show the internal arrangement of design components.
