[57] CLAIM

The ornamental design for an strapless, backless brassiere, as shown and described.

DESCRIPTION

FIG. 1 perspective view of the present invention depicted on a model and adhered thereon by tape (the model and tape being formed in phantom lines and forming no part of the design);
FIG. 2 is a front view of the present invention;
FIG. 3 is a top view of the present invention;
FIG. 4 is a bottom view of the present invention;
FIG. 5 is a back view of the present invention;
FIG. 6 is a left end view of the present invention; and,
FIG. 7 is a right cross section view of the present invention. The broken lines shown on the surface of the claimed design throughout the views are understood to represent stitching.
