[57] CLAIM

The ornamental design for a combined toy arm and detachable pod unit, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a combined toy arm and detachable pod unit showing our new design, with the pod unit shown in an open position;

FIG. 2 is a perspective view of the combined toy arm and detachable pod unit, with the pod unit removed for clarity of illustration;

FIG. 3 is top plan view of the combined toy arm and detachable pod unit, with the fingers in an alternate position and the pod unit in the closed position;

FIG. 4 is a right side elevational view thereof, the left side elevational view being substantially a mirror image with the difference being the positioning of the small protuberances;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a front elevational view thereof;

FIG. 7 is a rear elevational view thereof;

FIG. 8 is a top plan view of the combined toy arm and detachable pod unit, with the fingers in an alternate position and with the pod unit removed for clarity of illustration;

FIG. 9 is a top plan view of the combined toy arm and detachable pod unit, showing the pod unit separately and in the closed position for clarity of illustration;

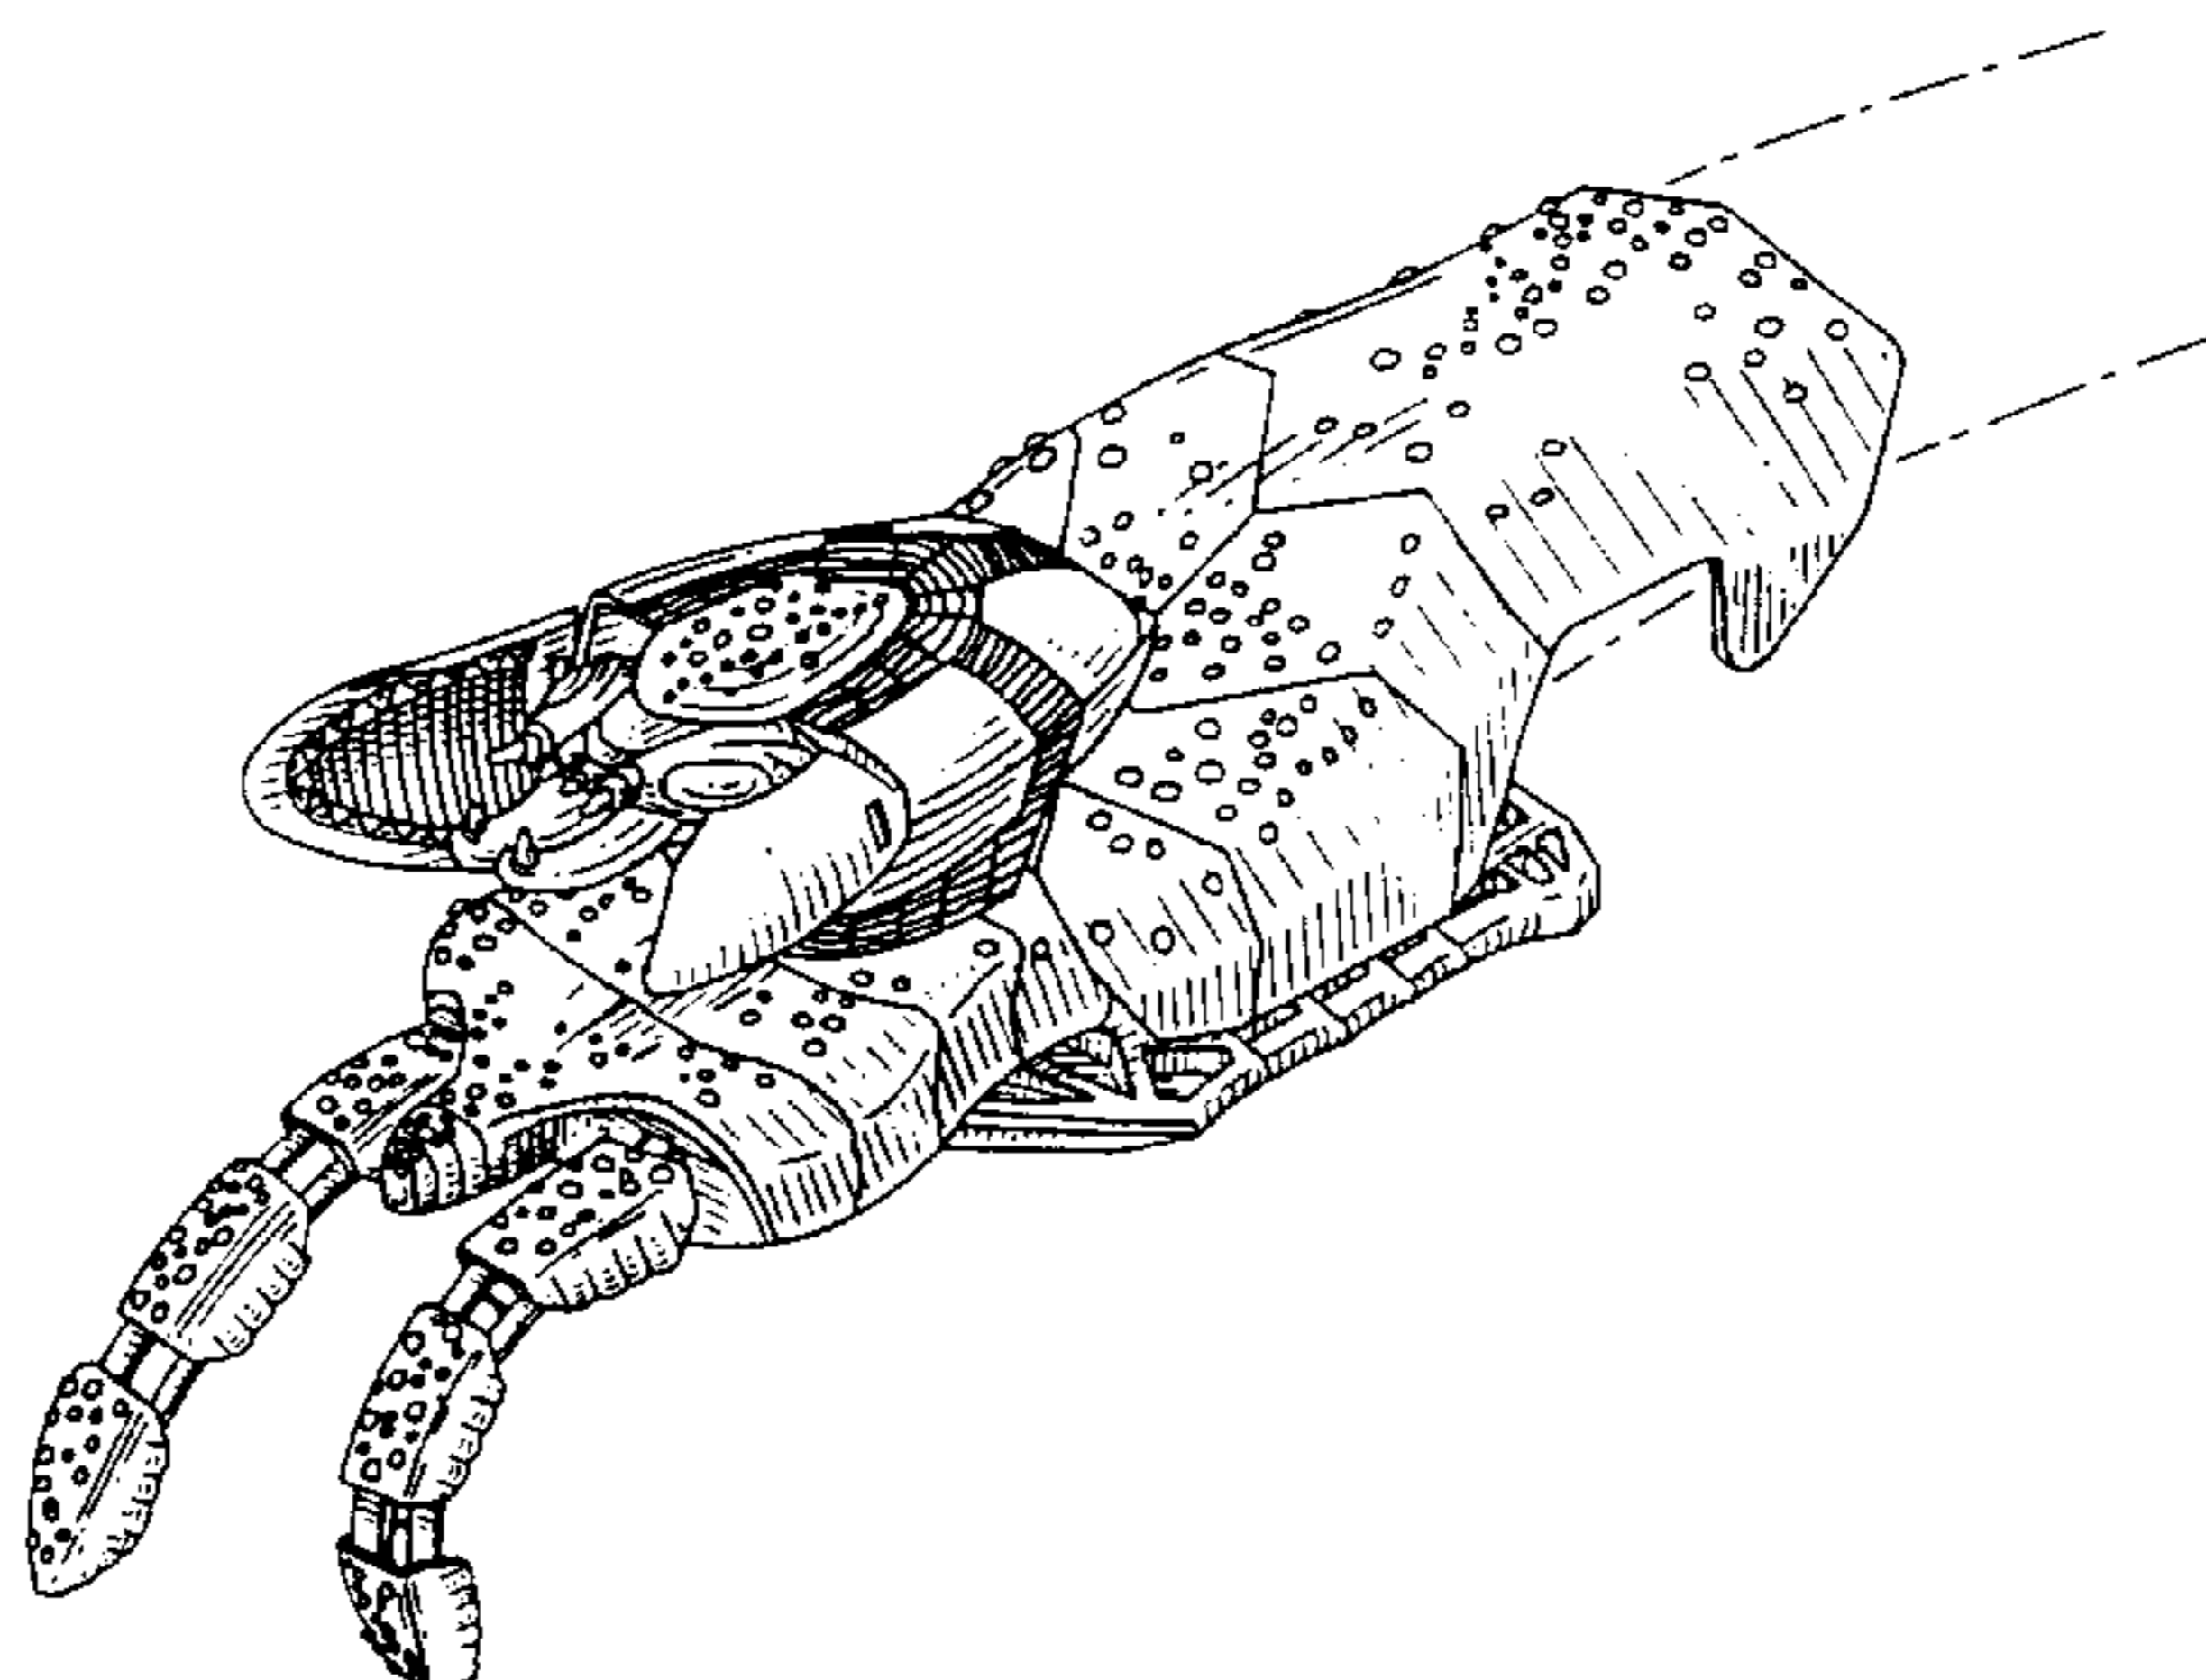

FIG. 10 is a left side elevational view thereof, the right side elevational view being substantially a mirror image with the difference being the positioning of the small protuberances;

FIG. 11 is a top plan view of the combined toy arm and detachable pod unit, showing the pod unit separately and in an open position for clarity of illustration; and,

FIG. 12 is a left side elevational view thereof, the right side elevational view being substantially a mirror image with the difference being the positioning of the small protuberances.

The broken line showing of an arm in FIGS. 1 and 2 is for illustrative purposes only and forms no part of the claimed design.
