[57] **CLAIM**

The ornamental design for a forward facing warning light system, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a forward facing warning light system showing our new design;  
 FIG. 2 is a top view thereof;  
 FIG. 3 is a front elevational view thereof;  
 FIG. 4 is a side elevational view thereof, the forward facing warning light system appearing the same when viewed from the opposite side;  
 FIG. 5 is a rear elevational view thereof;  
 FIG. 6 is a perspective view of a modified form of the forward facing warning light system depicted in FIG. 1-5, the embodiment of FIG. 6 including an optional rearwardly facing light subassembly mounted on the top of the forward facing warning light system of FIG. 1-5;  
 FIG. 7 is a top view of the forward facing warning light system of FIG. 6;  
 FIG. 8 is a front elevational view of the forward facing warning light system of FIG. 6 and 7;  
 FIG. 9 is a side elevational view of the forward facing warning light system of FIG. 6-8, the design appearing the same when viewed from the opposite side; and  
 FIG. 10 is a rear elevational view of the forward facing warning light system of FIG. 6-9.  
 The appearance of our new design, as seen from the bottom, forms no part of the claimed design.
