[57] **CLAIM**

The ornamental design for a combined sun visor and bandana, as shown and described.

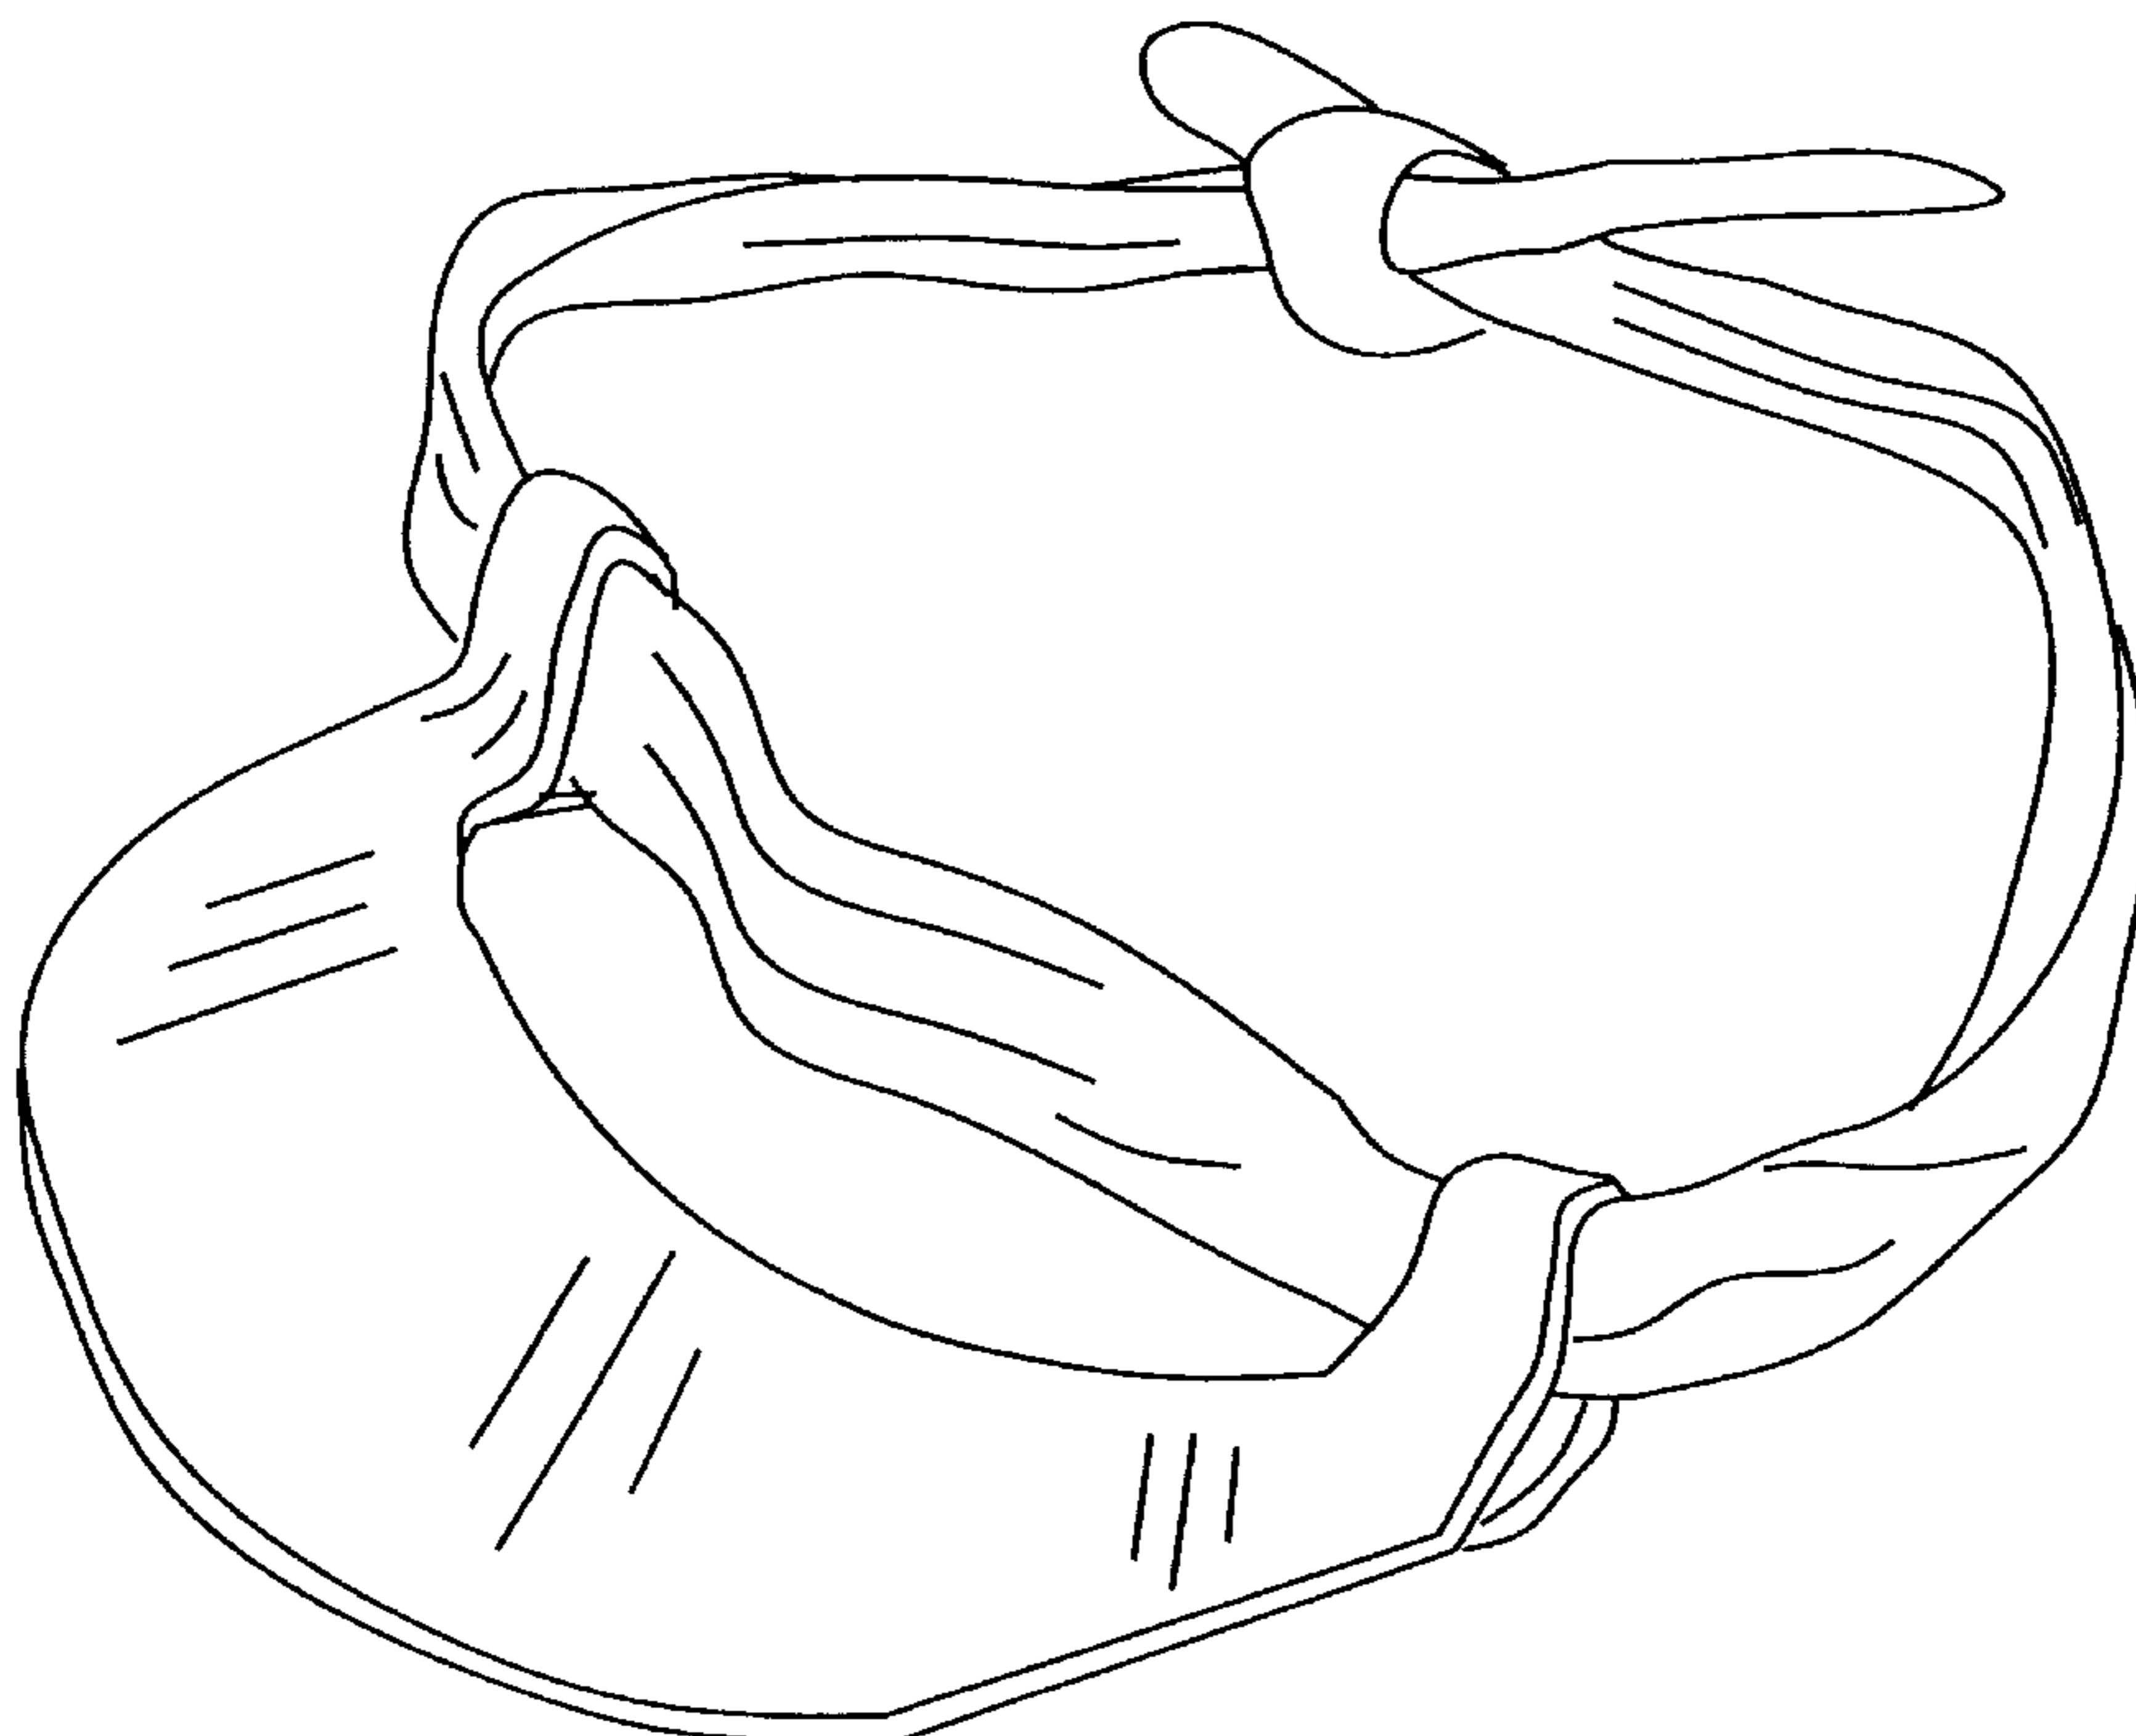

DESCRIPTION

FIG. 1 is a front perspective view of a combined sun visor and bandana showing my new design;

FIG. 2 is a front perspective view of the sun visor of FIG. 1, without the headband for purposes of illustration; FIG. 3 is a perspective view of the combined sun visor and bandana of FIG. 1, showing the bandana receiving elements of the visor, in the folded position; FIG. 4 is a top plan view of a second embodiment of a combined sun visor and bandana showing my new design, shown without the headband for purposes of illustration; FIG. 5 is a top perspective view of the combined sun visor and bandana of the instant invention; FIG. 6 is an end view of the combined sun visor and bandana of FIG. 5, when viewed from the brim end of the visor; FIG. 7 is an end view of the combined sun visor and bandana of FIG. 5, when viewed from the flap end of the visor; FIG. 8 is a plan view of the combined sun visor and bandana of FIG. 5, with a tied bandanna positioned on the visor; FIG. 9 is a plan view of the sun visor of FIG. 8, showing one bandana holding flap, in the folded over position. FIG. 10 is a top perspective view thereof; FIG. 11 is a front perspective view thereof; FIG. 12 is a rear perspective view of the sun visor of FIG. 10 showing the curvature of the brim; FIG. 13 is a side perspective view of the combined sun visor and brim of FIG. 1; FIG. 14 is a front perspective view of the combined sun visor and brim of FIG. 13; FIG. 15 is a side perspective view of the combined sun visor and brim of the second embodiment of FIG. 4; and, FIG. 16 is a front perspective view of the combined sun visor and brim of FIG. 15.

The design consists of a sun visor, and more particularly, to the combination of a sun visor and bandanna or other style of headband, and an attachment mechanism for releasably securing the bandanna to the visor.
