[57] CLAIM

The ornamental design for a pattern for absorbent sheet material, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyright rights whatsoever.

FIG. 1 is a plan view of a first embodiment of a pattern for an absorbent sheet material of the invention; and, FIG. 2 is a plan view of a second embodiment of the pattern of the invention.

The broken lines, which form no part of the claimed design, depict a portion of the sheet material to which the pattern is applied, as well as the boundaries of one repeat unit of the claimed design. The pattern continues indeterminately in one or more directions.

The embodiments illustrated in the figures may be utilized individually or embossed on opposite sides of the same sheet material.
