[57] CLAIM

The ornamental design for a set-top receiver for wireless computer network, as shown.

DESCRIPTION

FIG. 1 is a perspective view of a set-top receiver for a wireless computer network, showing our new design with the antenna extended;
FIG. 2 is a top plan view thereof with the antenna extended;
FIG. 3 is a top plan view thereof with the antenna down;
FIG. 4 is a left side elevational view thereof with the antenna down, the right side elevational view being substantially a mirror image, the difference being the presence of the button disclosed in FIGS. 1–3 and 5;
FIG. 5 is a right side elevational view thereof with the antenna extended, the left side elevational view being substantially a mirror image, the difference being the absence of the button;
FIG. 6 is a front elevational view with the antenna extended;
FIG. 7 is a rear elevational view with the antenna extended; and,
FIG. 8 is a bottom plan view thereof.
