[57] CLAIM

The ornamental design for an embossed tissue, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of an embossed tissue showing our new design; the unit bounded by the inner dashed lines being repeated uniformly throughout the surface of the tissue, and the outer dashed lines indicating that the embossed tissue has indeterminate length and width; and, FIG. 2 is an enlarged fragmentary sectional view taken along line 2—2 in FIG. 1.
