[57] CLAIM

The ornamental design of the portable communication display device, as shown and described.

DESCRIPTION

FIG. 1 is a front right perspective view of a portable communication display device showing the new design. A connector, a latch, and a port are shown in broken line; and, FIG. 2 is a top left perspective view of the portable communication display device. A connector, a latch, and a port are shown in broken line.

The broken line showing a connector, a latch, and a port are for illustration purposes only and form no part of the claimed design.

The portions of the article hidden behind the broken lines or not shown in the drawing or described in the specification form no part of the claimed design.
