[57] CLAIM

\*] Term: 14 Years

The ornamental design for an electrical wiring pliers, as shown and described.

#### **DESCRIPTION**

FIG. 1 is a front view of the invention, it being understood that the rear view is a mirror image thereof with the sole difference being the shape of the pivot pin head which is hexagonal in shape instead of the rounded shape as shown in the front view.

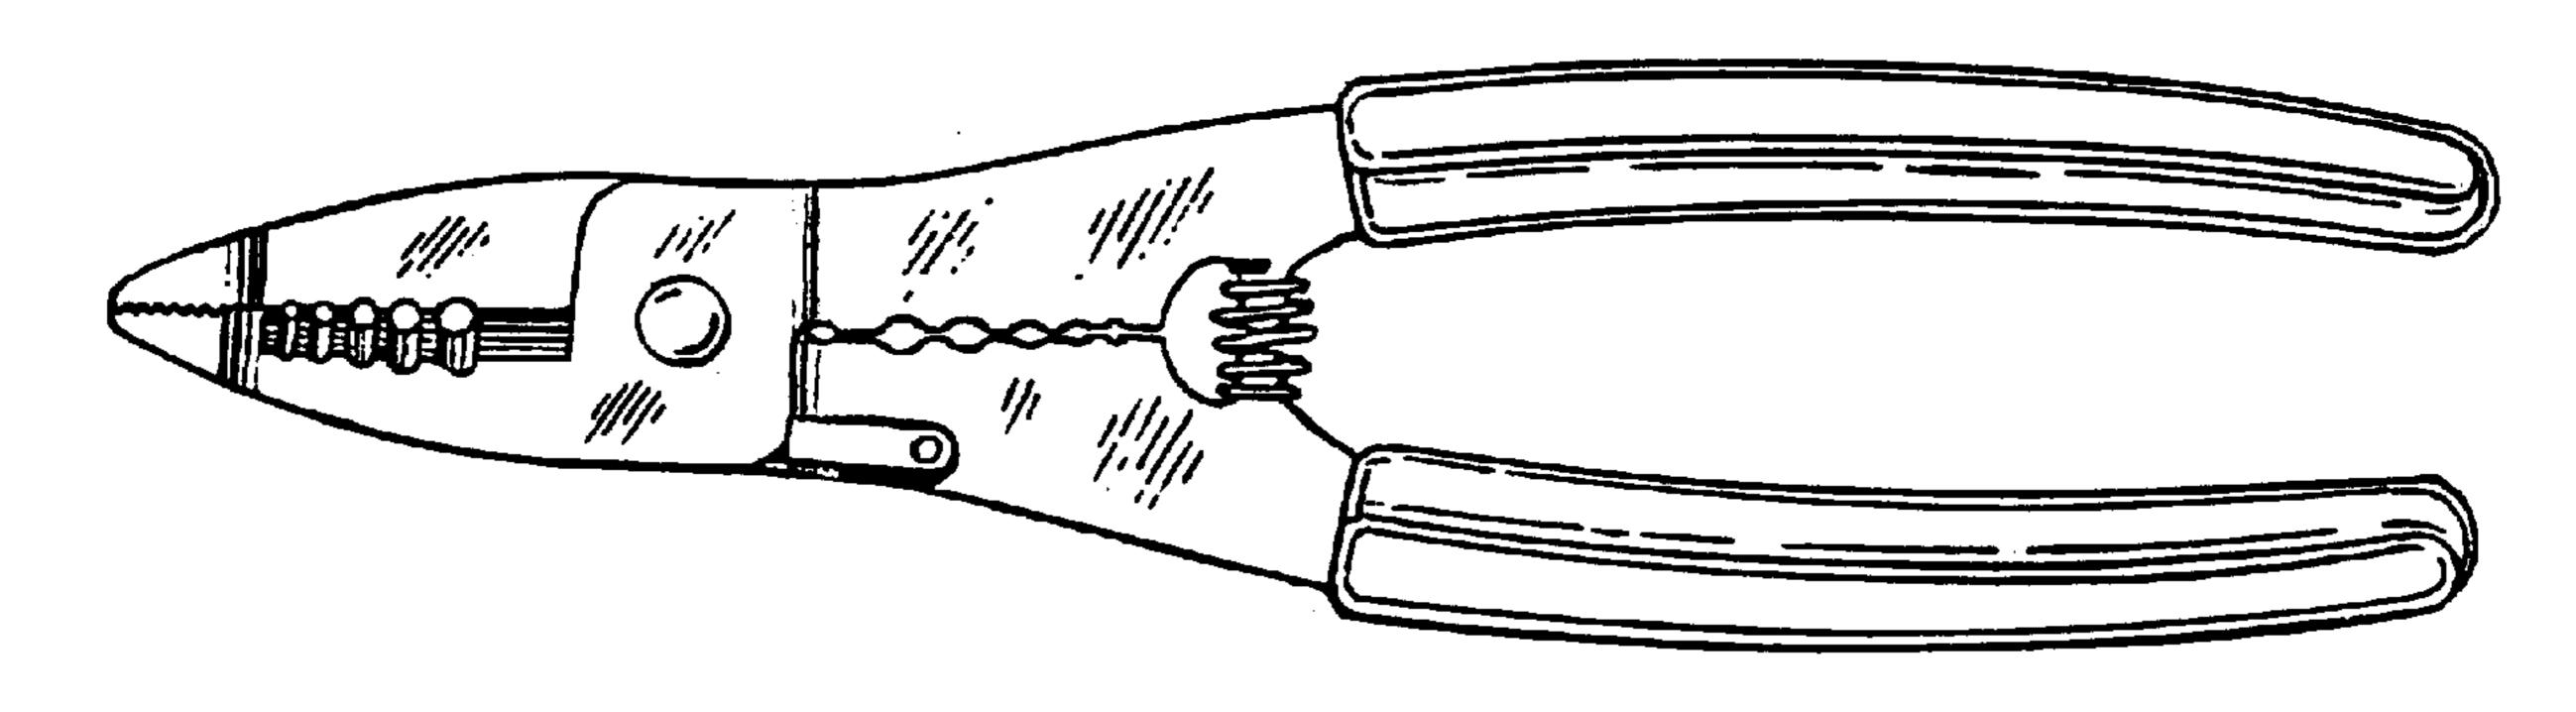

FIG. 2 is a front view of a second embodiment of the invention, the sole difference being in the crimping means area.

FIG. 3 is a front view of a third embodiment of the invention, the sole difference being in the crimping means area.

FIG. 4 is a top view of the embodiments shown in FIGS. 1, 2, and 3, it being understood that the bottom is a mirror image; and,

FIG. 5 is a left end view of the embodiments shown in FIGS. 1, 2, and 3.
