[57]	CLAIM

The design of a display panel, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of the first embodiment of a display panel of the design according to the invention;

FIG. 2 is a top plan view of the display panel of FIG. 1 (a back cover, which does not form part of the invention, is shown in phantom);

FIG. 3 is a bottom plan view of the display panel of FIG. 1 (a back cover, which does not form part of the invention, is shown in phantom);

FIG. 4 is a left side elevational view of the display panel of FIG. 1 (a back cover, which does not form part of the invention, is shown in phantom);

FIG. 5 is a right side elevational view of the display panel of FIG. 1 (a back cover, which does not form part of the invention, is shown in phantom); and,

FIG. 6 is an isometric projection of the display panel of FIG. 1 (a back cover, which does not form part of the invention, is shown in phantom).

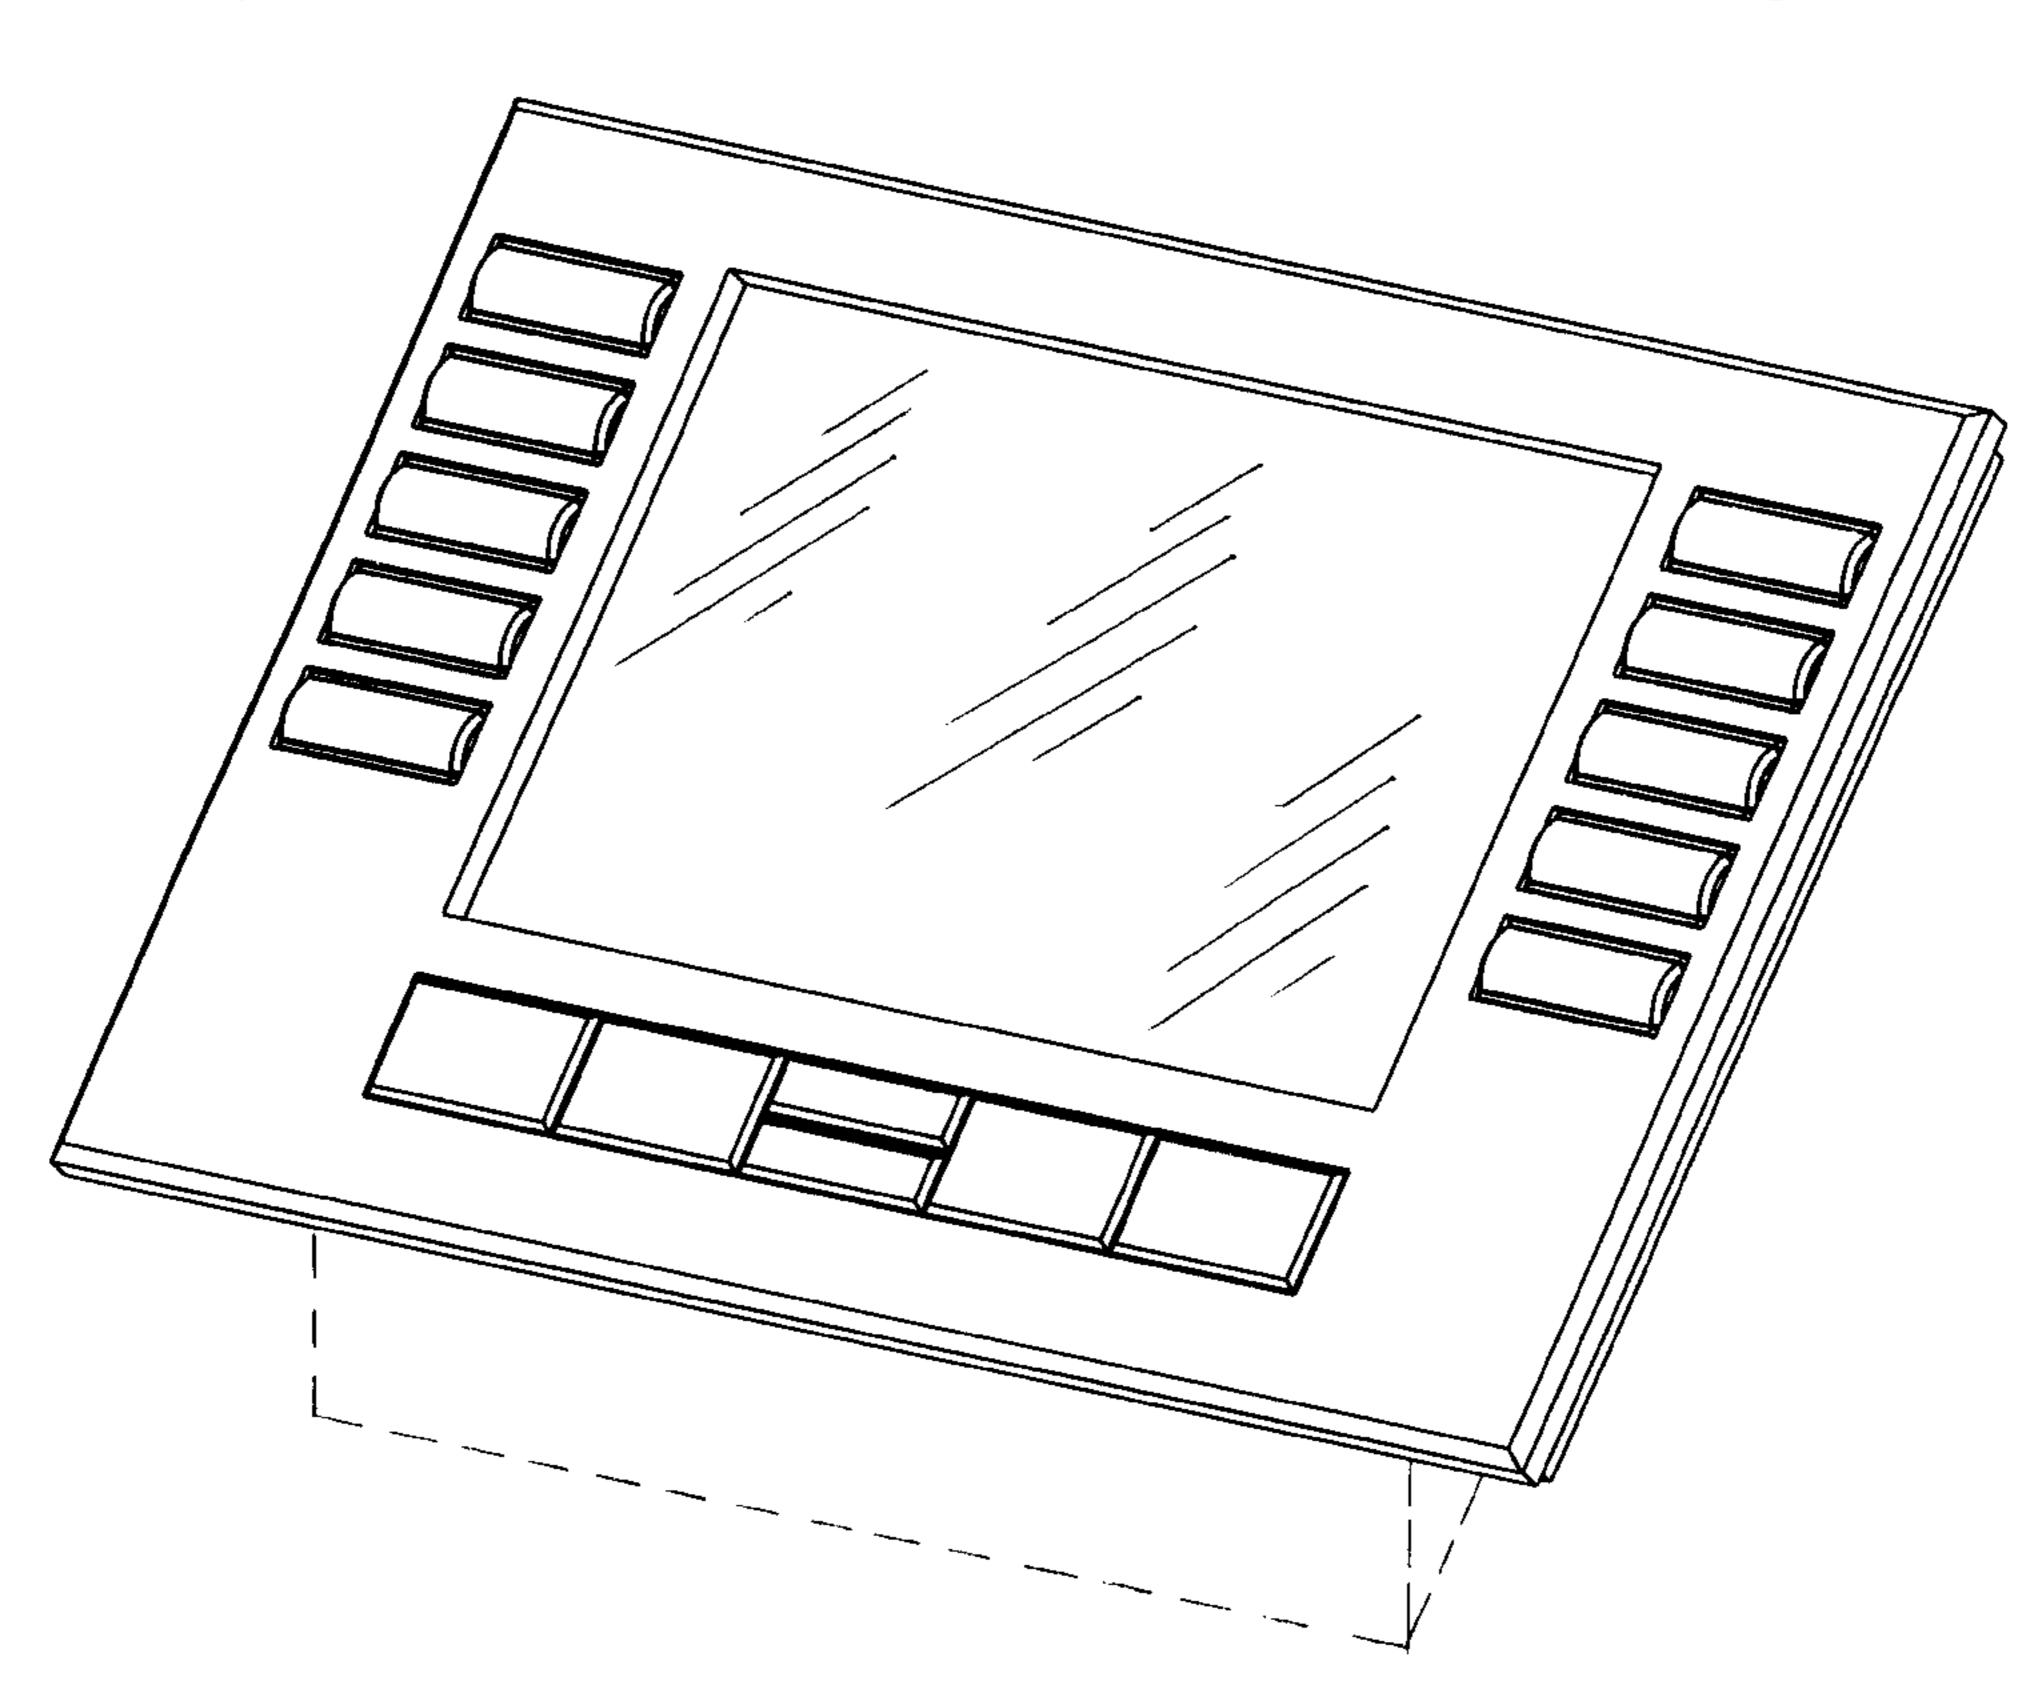

The rear view of the foregoing embodiment includes no ornamentality and, therefore, has been omitted from the drawings.
