[57] **CLAIM**

The ornamental design for an envelope flap with hanger, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevation view of a preferred embodiment of an envelope flap of the present invention extending from an environment of an envelope, the back elevation view of the envelope flap being a mirror image thereof;

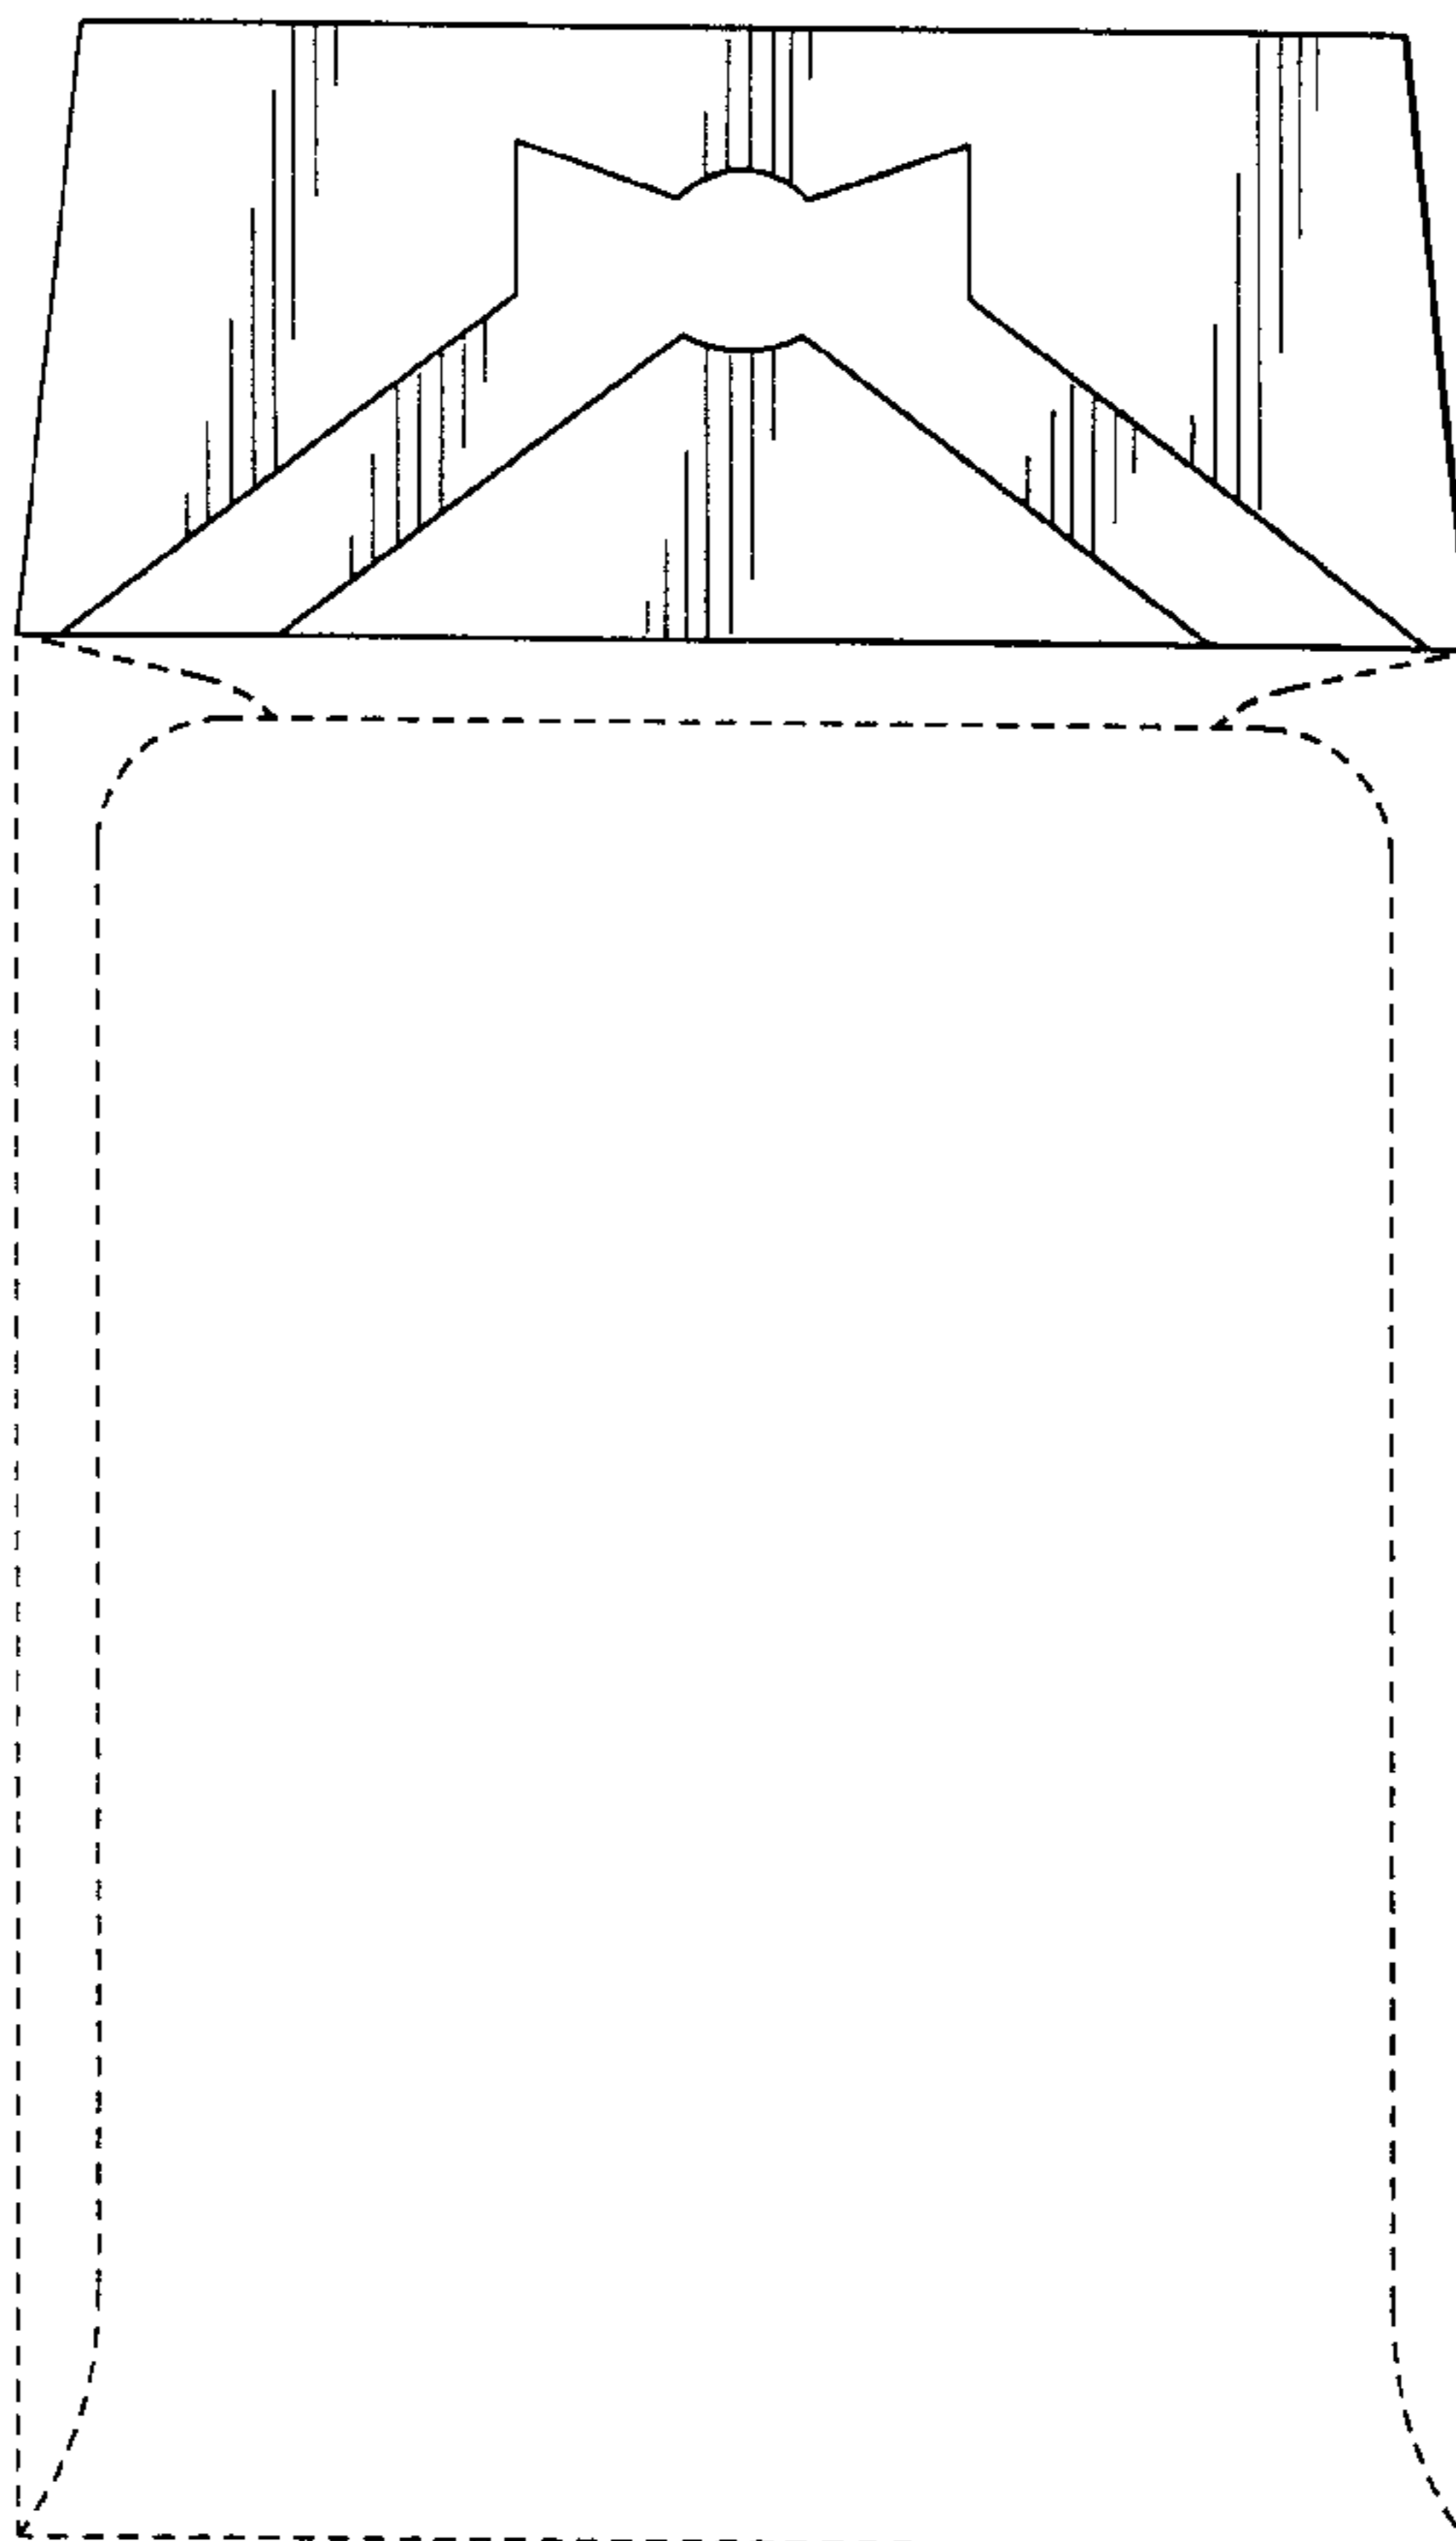

FIG. 2 is a top plan view of the envelope flap of FIG. 1;

FIG. 3 is a right side elevation view of the envelope flap of FIG. 1, the left side elevation view of the envelope flap being a mirror image thereof;

FIG. 4 is a front elevation view of the envelope flap of FIG. 1 wherein a portion of the envelope flap is folded back against the environment of the envelope and a hanger portion is extending from the environment of the envelope; FIG. 5 is a top plan view of the envelope flap of FIG. 4; and, FIG. 6 is a right side elevation view of the envelope flap of FIG. 4, the left side elevation view being a mirror image thereof.

The broken lines of FIGS. 1-4 and FIG. 6 represent the environment of an envelope to which the envelope flap of the present invention may be coupled. The envelope does not form a part of the invention.
