[57] CLAIM

The ornamental design for a “calculator”, as shown and described.

DESCRIPTION

FIG. 1 is a three dimensional perspective view depicting the

front, top and left side portions of a “calculator” employing Applicant’s new design.

FIG. 2 is a top elevational view of the “calculator” depicted in FIG. 1 employing Applicant’s new design wherein there is depicted the top view of the “calculator”.

FIG. 3 is a right side elevational view of the “calculator” employing Applicant’s new design as depicted in FIG. 1, the left side elevational view being a mirror image of FIG. 3.

FIG. 4 is a front elevational view of the “calculator” depicted in FIG. 1 employing Applicant’s new design.

FIG. 5 is a rear elevational view of the “calculator” depicted in FIG. 1 employing Applicant’s new design.

FIG. 6 is a bottom elevational view of the “calculator” depicted in FIG. 1 employing Applicant’s new design.

FIG. 7 is a bottom elevational view of an alternative embodiment of the “calculator” depicted in FIG. 1 employing Applicant’s new design, wherein only one spring element is depicted as opposed to three spring elements as depicted in FIG. 6, all other views as depicted in FIGS. 1 through 5 as related to this alternative embodiment of applicant’s new design as depicted in FIG. 7, being the same; and,

FIG. 8 is a bottom elevational view of another alternative embodiment of the “calculator” depicted in FIG. 1 employing Applicant’s new design, wherein only two spring elements are depicted as opposed to three spring elements as depicted in FIG. 6, all other views as depicted in FIGS. 1 through 5 as related to this alternative embodiment of applicant’s new design as depicted in FIG. 8, being the same.
