DESCRIPTION

The sole FIGURE is a top plan view of a multiply tissue showing our new design, the bottom plan view being a mirror image thereof. The broken lines in the drawing indicate that the tissue has indeterminate length and width, and represent the boundaries of one repeat unit of the claimed design, which repeats uniformly throughout the length and width of the tissue. The broken lines form no part of the claimed design.

The surfaces or portions of the article not shown in the drawing or described in the specification form no part of the claimed design.
