[57] **CLAIM**

The ornamental design for a utility vehicle, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of a utility vehicle showing our new design;

FIG. 2 is a top plan view of the first embodiment of the utility vehicle;

FIG. 3 is a right side elevational view of the first embodiment of the utility vehicle and it is to be understood that the left side elevational view of the first embodiment would be a mirror image of that shown in FIG. 3;

FIG. 4 is a front elevational view of the first embodiment of the utility vehicle;

FIG. 5 is a rear elevational view of the first embodiment of the utility vehicle; and,

FIG. 6 is a right side elevational view of a second embodiment of a utility vehicle showing our new design and it is to be understood that the left side elevational view of the second embodiment would be a mirror image of that shown in FIG. 6, the second embodiment of our utility vehicle being substantially the same as the first embodiment of our utility vehicle except that the wheel base and the load bed have been slightly shortened. It is also to be understood that the perspective view, the top plan view, the front elevational view, and the rear elevational view of the second embodiment would be substantially the same as that which are shown for the first embodiment except that the wheel base and the frame would be slightly shortened.
