[57] **CLAIM**

The ornamental design for a fishing line reeling device, as described and shown.

DESCRIPTION

FIG. 1 is a perspective view of a fishing line reeling device with a hand-held power drill and shaft used for operating the reeling device shown in broken lines;

FIG. 2 is an enlarged front elevational view of the fishing line reeling device of FIG. 1, the rear being a mirror image thereof;

FIG. 3 is a side elevational view of the fishing line reeling device of FIG. 2, the opposite side being a mirror image thereof;

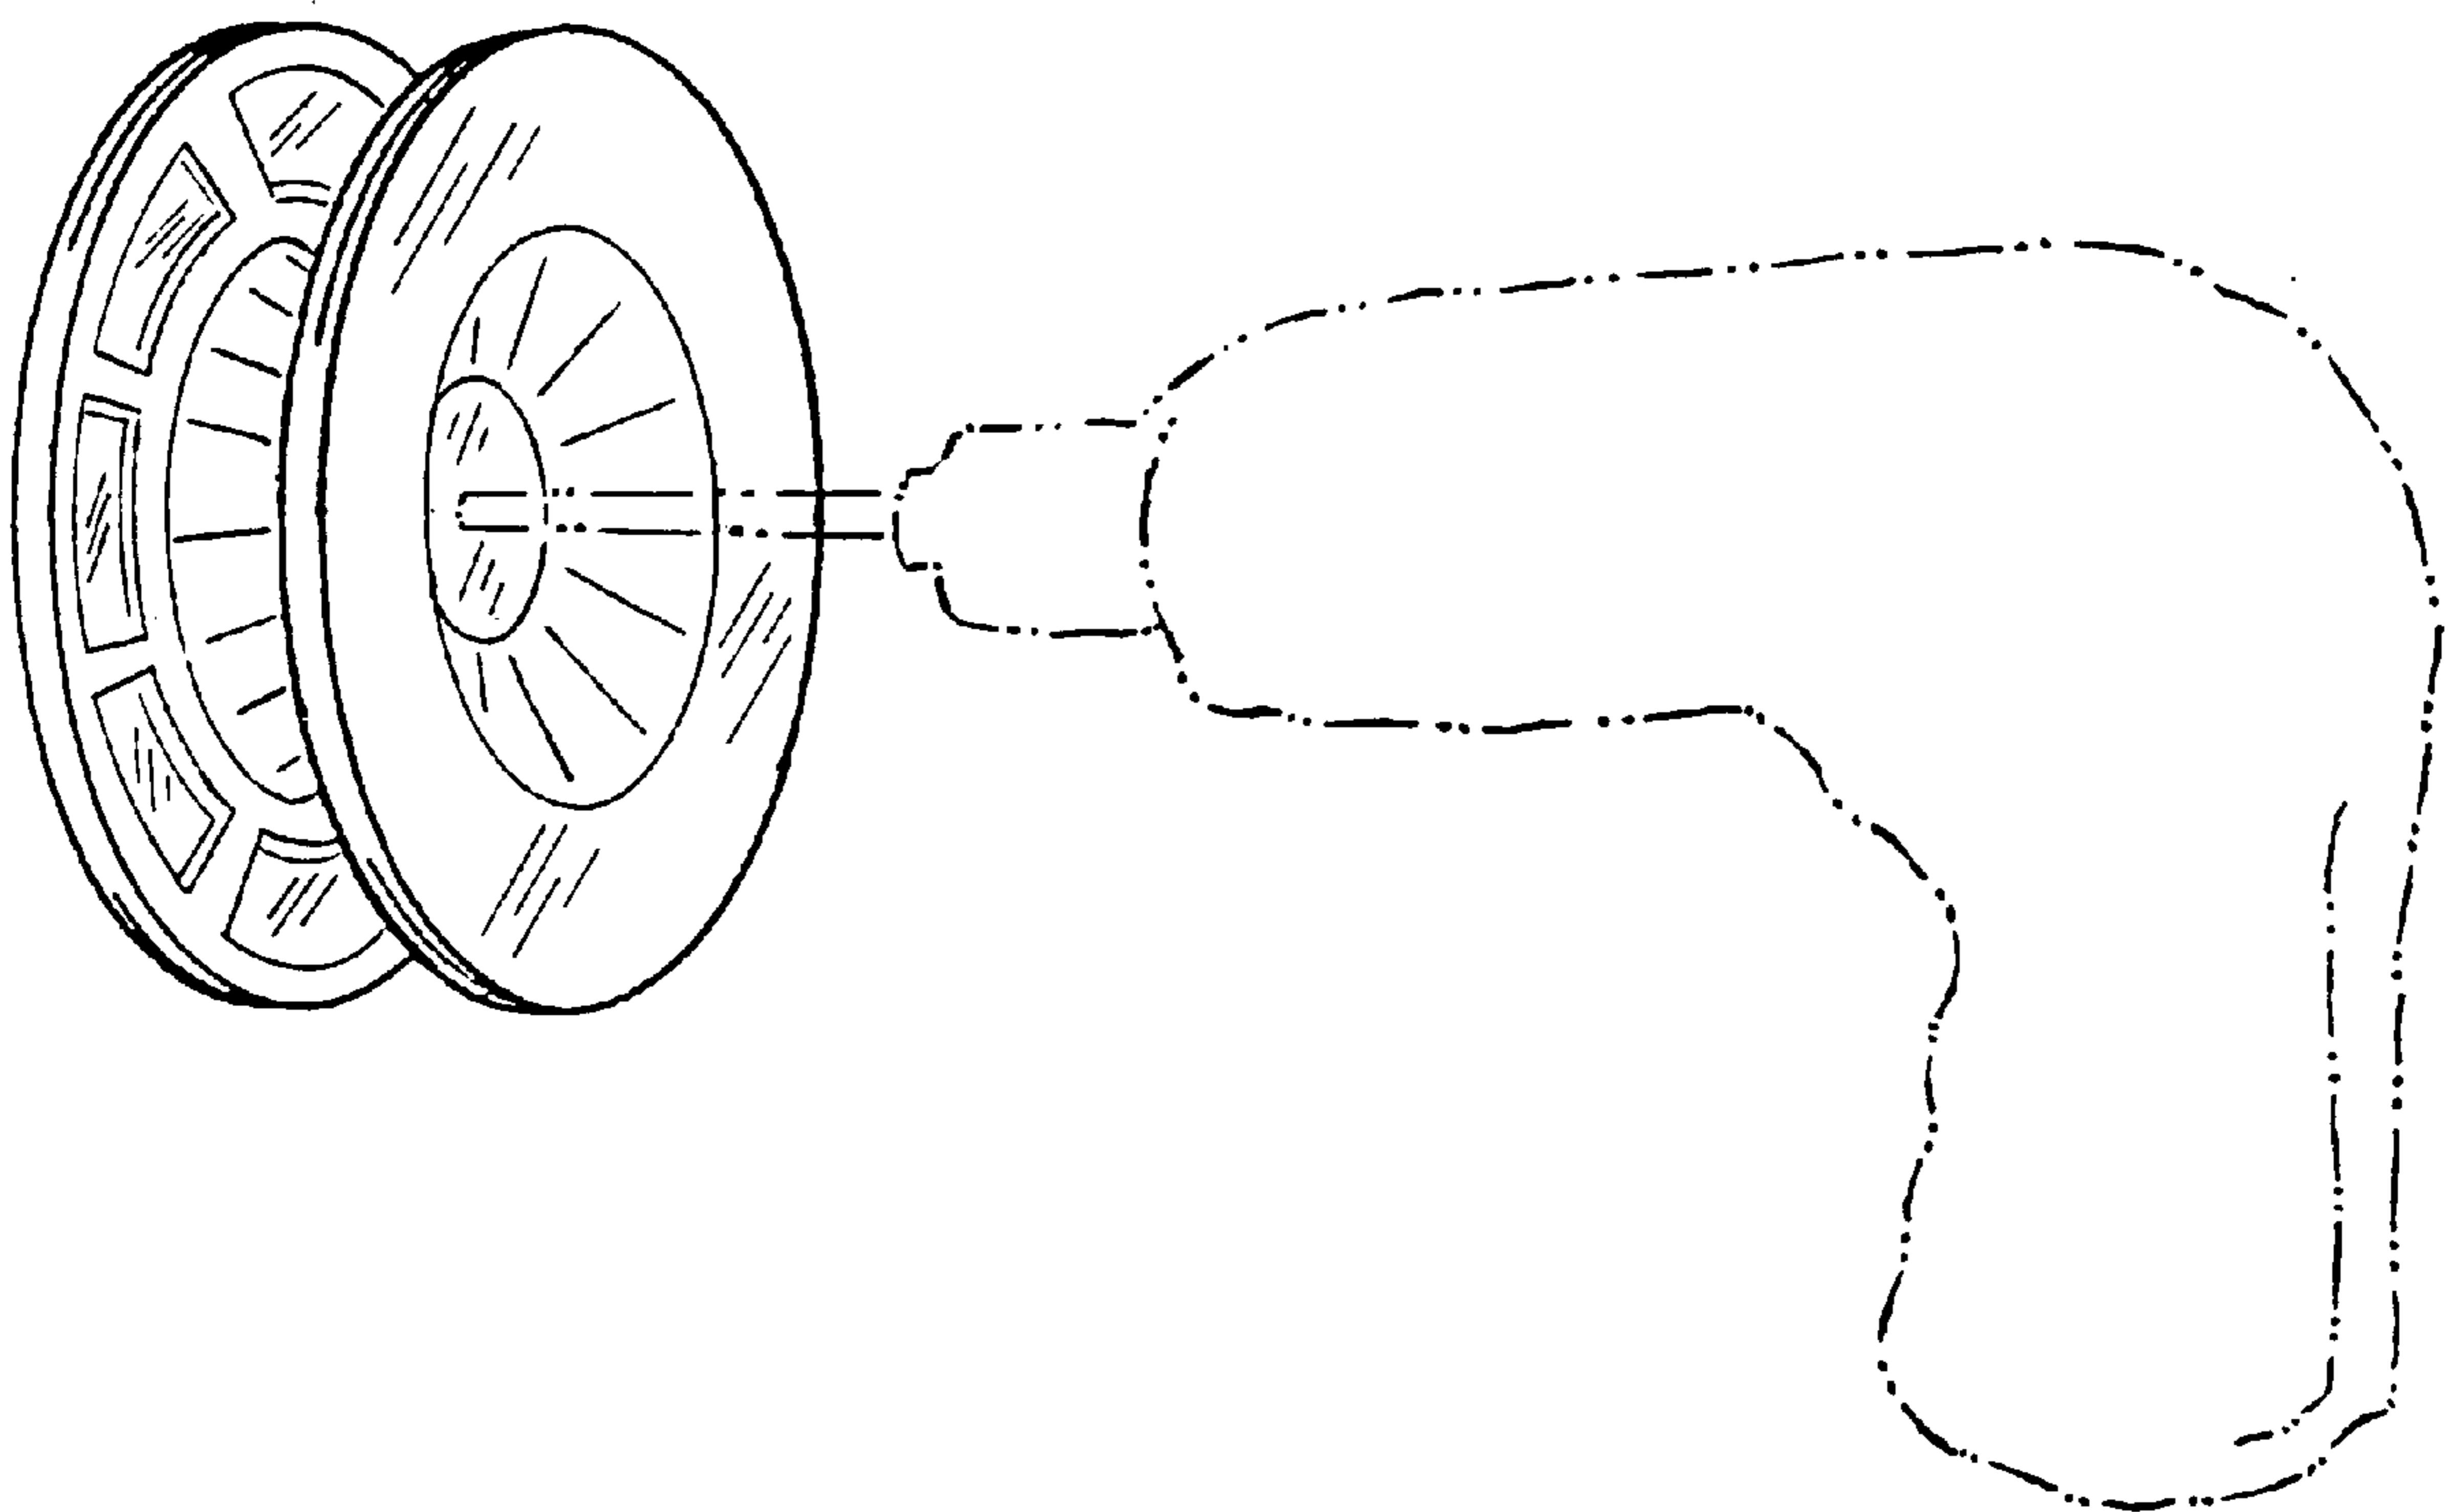

FIG. 4 is a side elevational view of the fishing line reeling device of FIGS. 2 and 3 disassembled and reversed for storage with a securing bolt, washer and nut shown in broken lines;

FIG. 5 is a front elevational view of the inside of one part of the fishing line reeling device of FIG. 4 it being understood that the second part is identical thereto; and,

FIG. 6 is a front elevational view of the outside of the part of FIG. 5 it being understood that the second part is identical thereto.

The articles shown in broken lines are for illustrative purposes only and form no part of the claimed design.
