[57] CLAIM

The ornamental design for paper product, as shown and  
described.

DESCRIPTION

FIG. 1 is a top front perspective view of a paper product,  
showing our new ornamental design.

FIG. 2 is a top plan view of the paper product shown in FIG.  
1, the opposite (bottom) side view being a mirror image  
thereof.

FIG. 3 is a frontal elevational view of the paper product  
shown in FIGS. 1 and 2, the opposite (rear) elevational view  
being a mirror image thereof; and,

FIG. 4 is a side elevational view of the paper product shown  
in FIGS. 1, 2 and 3, the opposite side elevational view being  
a mirror image thereof.

It is to be understood that the design pattern shown in FIGS.  
1–4 continues uniformly throughout a length and a width of  
the paper product. The paper product is shown broken away  
to indicate that the paper product has indeterminate width  
and indeterminate length. The broken lines are for illustra-  
tive purposes only and form no part of the claimed design.
