[57] CLAIM

I claim the ornamental design for safety reflector, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a first embodiment of the safety reflector of the present invention.

FIG. 2 is a left side elevational view of the safety reflector of FIG. 1, the right side elevational view of FIG. 1 being a mirror image of the view of FIG. 2.

FIG. 3 is a rear elevational view of the safety reflector of FIG. 1.

FIG. 4 is a cross sectional view taken substantially through lines 4—4 of FIG. 3.

FIG. 5 is a rear elevational view of a second embodiment of the safety reflector of the present invention, the front elevational view thereof being identical to the view shown in FIG. 1.

FIG. 6 is a right side elevational view of the embodiment of FIG. 5, the left side elevational view of FIG. 5 being a mirror image of the view of FIG. 6.

FIG. 7 is a rear elevational view of a third embodiment of the safety reflector of the present invention, the front elevational view thereof being identical to the view of FIG. 1.

FIG. 8 is a right side elevational view of the embodiment of FIG. 7, the left side elevational view of the embodiment of FIG. 7 being a mirror image of the view of FIG. 8.

FIG. 9 is a rear elevational view of a fourth embodiment of the safety reflector of the present invention, the front elevational view thereof being identical to the view of FIG. 1; and,

FIG. 10 is a right side elevational view of the embodiment of FIG. 9, the left side elevational view of the embodiment of FIG. 9 being a mirror image of the view of FIG. 10.
