[57] **CLAIM**

The ornamental design for a storage chest with multiple compartments, as described and shown.

DESCRIPTION

FIG. 1 is a perspective view showing the storage chest with multiple compartments of our new ornamental design; FIG. 2 is a top plan view thereof; FIG. 3 is a bottom view thereof; FIG. 4 is a front elevational view thereof; FIG. 5 is a rear elevational view thereof; FIG. 6 is a right side elevation thereof, the opposite side elevation being a mirror image thereof; FIG. 7 is a perspective thereof with the handle in a raised configuration with the right top lid in an open configuration, showing an inner tray, the opposite side top lid and inner tray region being identical thereto; FIG. 8 is a front elevation thereof with the right top lid in an open configuration; FIG. 9 is a top plan view with the handle in a raised configuration and with the right top lid and the center top lid in an open configuration; FIG. 10 is a right side elevation thereof with the handle in a raised configuration and with the right top lid and the center top lid in an open configuration; FIG. 11 is a perspective of an alternative embodiment of the storage chest with multiple compartments, having only a left top and right top lid and no center lid; FIG. 12 is a top plan view of the alternative embodiment of the storage chest with multiple compartments of FIG. 11; and, FIG. 13 is a front elevation of the alternative embodiment of the storage chest with multiple compartments of FIG. 11. The bottom, rear and side views of the alternate embodiment of the storage chest with multiple compartments are identical to the corresponding views of the preferred embodiment of the design as disclosed in FIGS. 3, 5 and 6.
