## [57] CLAIM

The ornamental design for an equipment console, as shown and described.

## DESCRIPTION

FIG. 1 is a perspective of an equipment console of a first embodiment of the present invention;  
 FIG. 2 is a front elevation of the console of the first embodiment;  
 FIG. 3 is a left side elevation of the console of the first embodiment, the right side elevation being a mirror image of the left side elevation;  
 FIG. 4 is a top plan of the console of the first embodiment;  
 FIG. 5 is a rear elevation of the console of the first embodiment;  
 FIG. 6 is a bottom plan of the console of the first embodiment;  
 FIG. 7 is a front elevation of an equipment console of a second embodiment of the present invention;  
 FIG. 8 is a left side elevation of the console of the second embodiment, the right side elevation being a mirror image of the left side elevation;  
 FIG. 9 is a top plan of the console of the second embodiment;  
 FIG. 10 is a rear elevation of the console of the second embodiment; and,  
 FIG. 11 is a bottom plan of the console of the second embodiment.

The broken lines shown in the drawings indicate environmental structure which forms no part of the design.
