[57] CLAIM

The ornamental design for a bottle cabinet, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a bottle cabinet showing my new design;

FIG. 2 is a rear perspective view thereof;

FIG. 3 is a right side elevational view thereof;

FIG. 4 is a left side elevational view thereof; and,

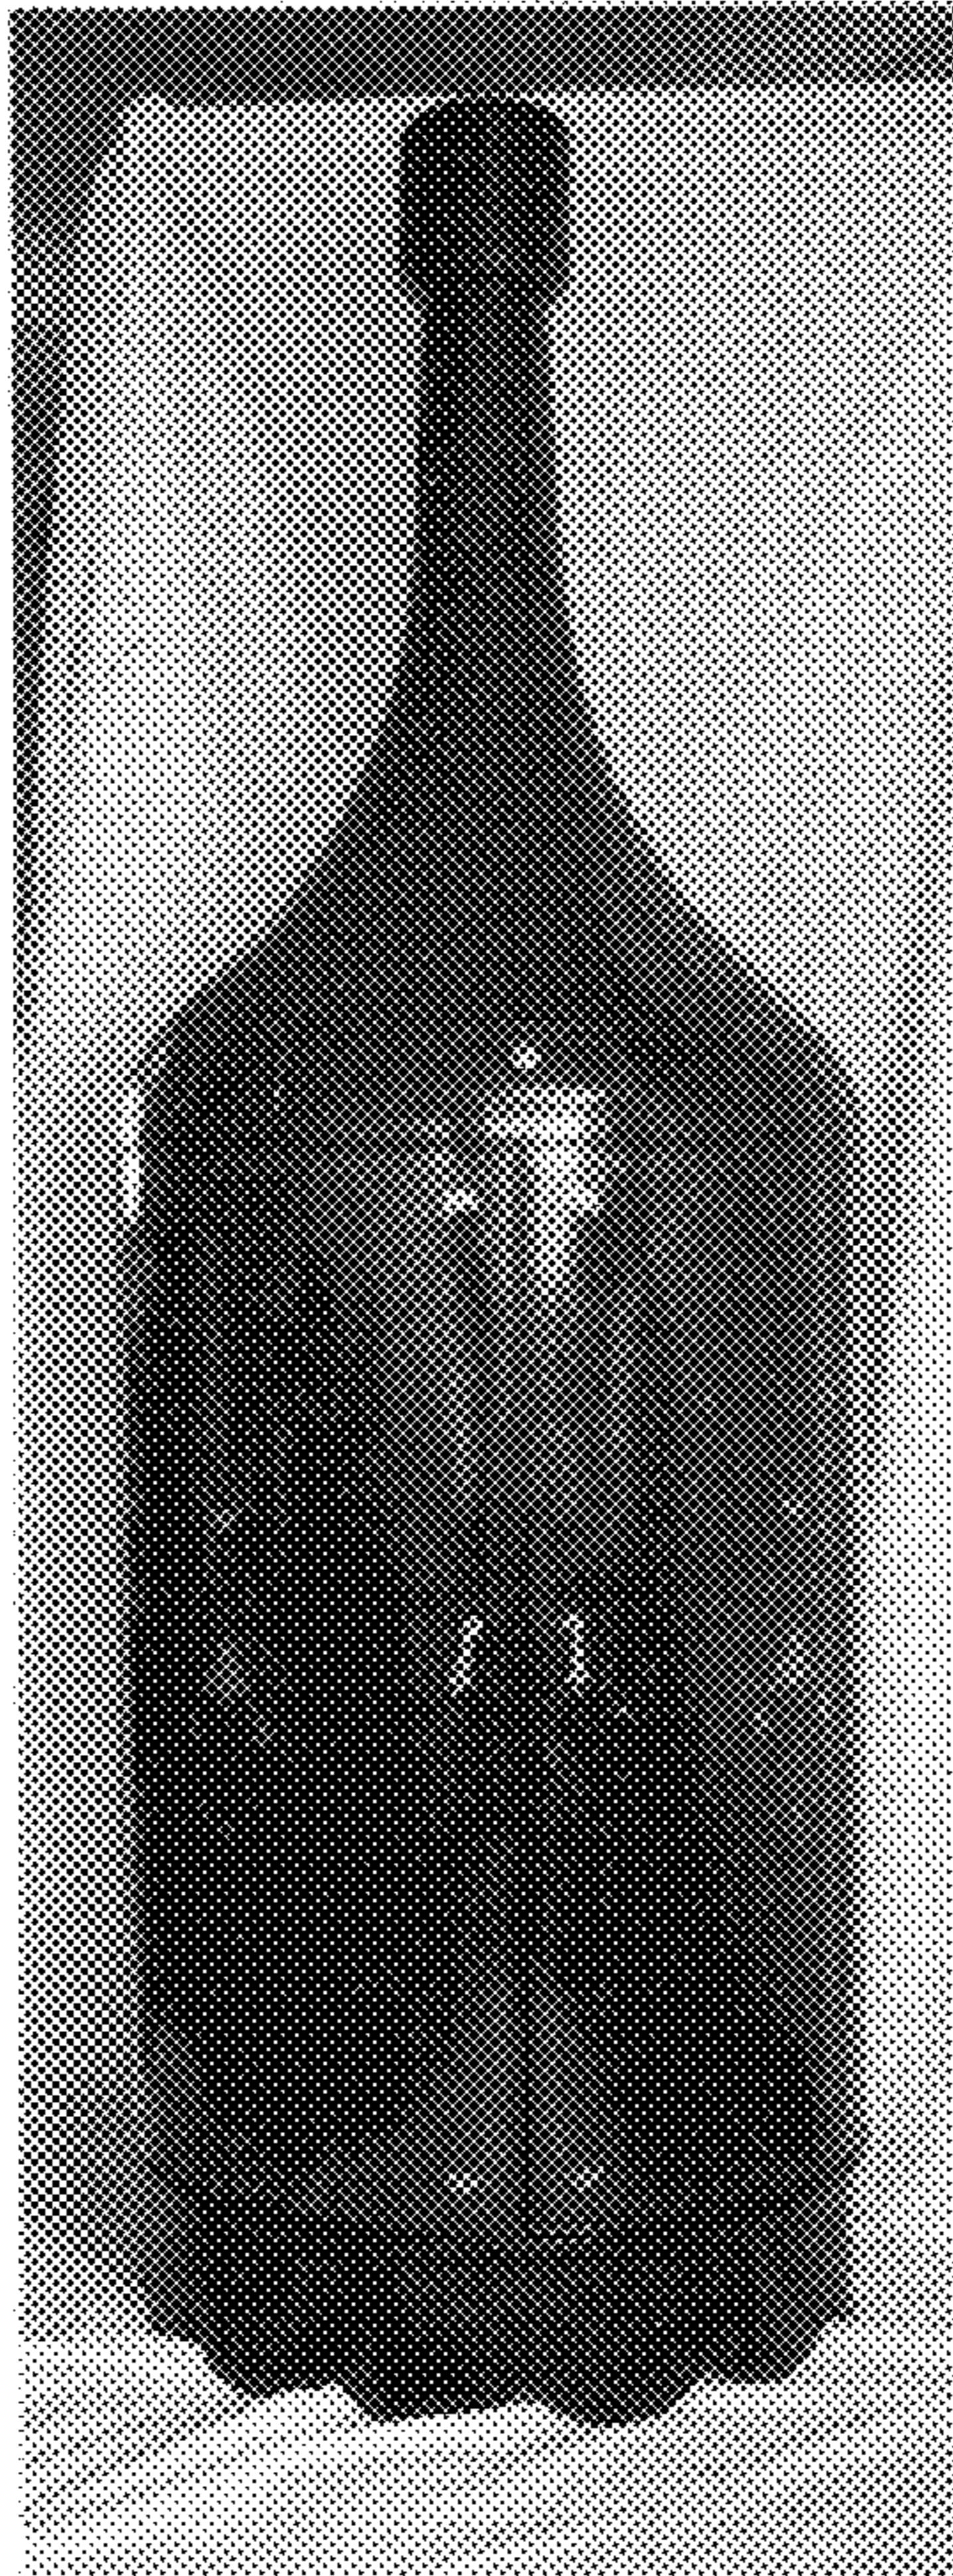

FIG. 5 is a top plan view thereof.

The nature and intended use of the article in which the design is embodied is for a cabinet.

The broken lines immediately adjacent the neck area represents the bounds of the design but form no part thereof; all other broken lines form no part of the claimed design.

The bottom view is not shown since it adds nothing to the claimed design.
