[57] **CLAIM**

The ornamental design for a twist top closure, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a twist top closure showing my new design, the same being shown in closed configuration with the upper cap portion positioned adjacent a lower base portion;

FIG. 2 is a top plan view thereof, shown at an enlarged scale;

FIG. 3 is a front elevation view thereof, shown at an enlarged scale, the rear elevation being a mirror image;

FIG. 4 is a right side elevation view thereof, shown at an enlarged scale, the left side elevation being a mirror image;

FIG. 5 is a perspective view thereof with the same being shown in open configuration with the upper cap portion moved to raised position with respect to the lower base portion;

FIG. 6 is a perspective view of an alternate embodiment of the twist top closure shown in FIG. 1;

FIG. 7 is a top plan view thereof, shown at an enlarged scale;

FIG. 8 is a front elevation view thereof, shown at an enlarged scale, the rear elevation being a mirror image;

FIG. 9 is a right side elevation view thereof, shown at an enlarged scale, the left side elevation being a mirror image; and,

FIG. 10 is a perspective view thereof with the same being shown in open configuration with the upper cap portion moved to raised position with respect to the lower base portion.

The broken line showing of the base portion of the twist top closure and of the seal for the dispensing outlet is for illustrative purposes only and forms no part of the claimed design.

The bottom and interior of the twist top closure form no part of the claimed design.
