### [57] CLAIM

The ornamental design for a needle reinsertion device for use with medical syringes, as shown and described.

### DESCRIPTION

FIG. 1 is a perspective view of a needle reinsertion device for use with medical syringes, embodying our new design, the broken line showing is for illustrative purposes only and forms no part of the claimed design.

FIG. 2 is a front side elevational view thereof, which is identical to the rear, left and right side elevational views thereof.

FIG. 3 is a top plan view thereof; and, FIG. 4 is a bottom plan view thereof.
