The ornamental design for a printer and scanner interconnector, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, left side perspective view of a printer and scanner interconnector showing our new design; FIG. 2 is a front elevational view thereof; FIG. 3 is a rear elevational view thereof; FIG. 4 is a left side elevational view thereof; FIG. 5 is a top plan view thereof; and, FIG. 6 is a right side elevational view thereof. A bottom view is not part of our design since the interconnector rests on a table or other surface so that the bottom is not normally seen.
