The ornamental design for an apparatus for cutting bakery

## DESCRIPTION

Date of Patent: \*\* Jun. 27, 2000

Des. 427,010

FIG. 1 is a front elevation view of the apparatus for cutting bakery products, particularly bagels, showing our new design;

FIG. 2 is right side elevation view of FIG. 1;

Patent Number:

[11]

[45]

FIG. 3 is a front elevation view of the plunger shown separately for ease of illustration, the rear elevation view is a mirror image thereof;

FIG. 4 is a front elevation view of the present invention with the plunger extended therefrom;

FIG. 5 is a perspective view showing the front and first side and top of the present invention with the bagel catcher in the opened position; front elevation view of the plunger shown separately for ease of illustration, the rear elevation view is a mirror image thereof;

FIG. 6 is a side elevation view of the plunger shown separately for ease of illustration, the opposite side view is a mirror image thereof;

FIG. 7 is a rear elevation view of the present invention;

FIG. 8 is a top plan view of the present invention;

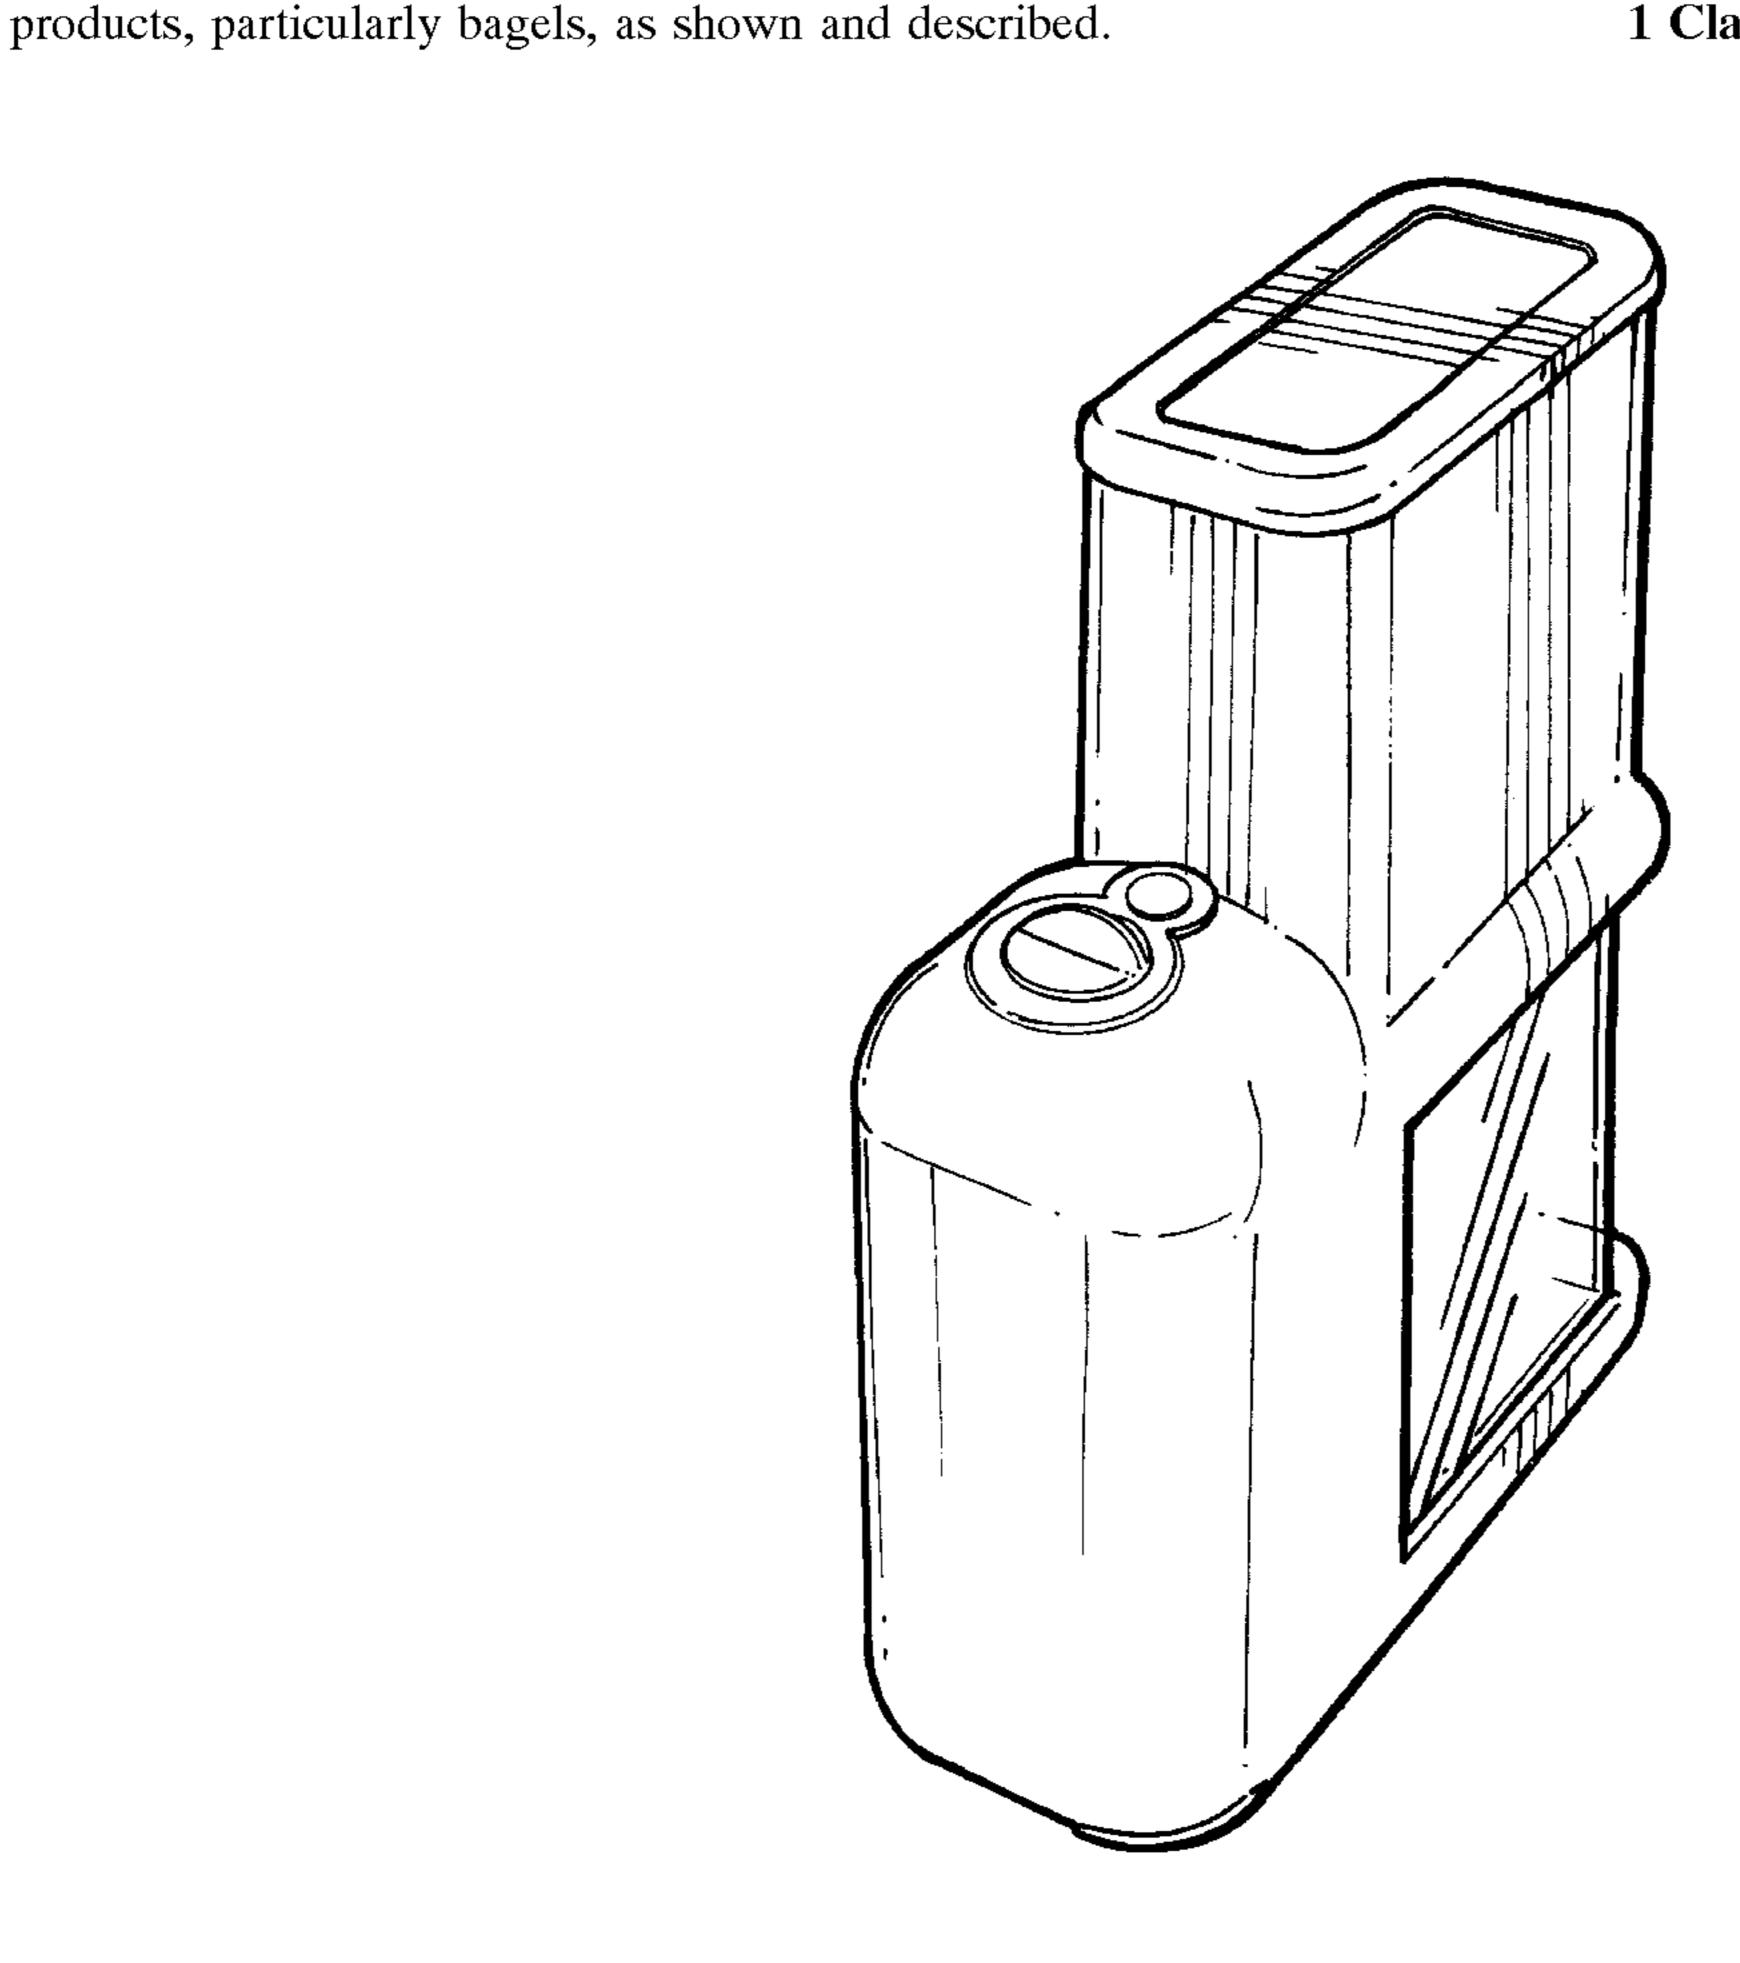

FIG. 9 is an enlarged partial perspective view of the controls and surrounding housing of the present invention;

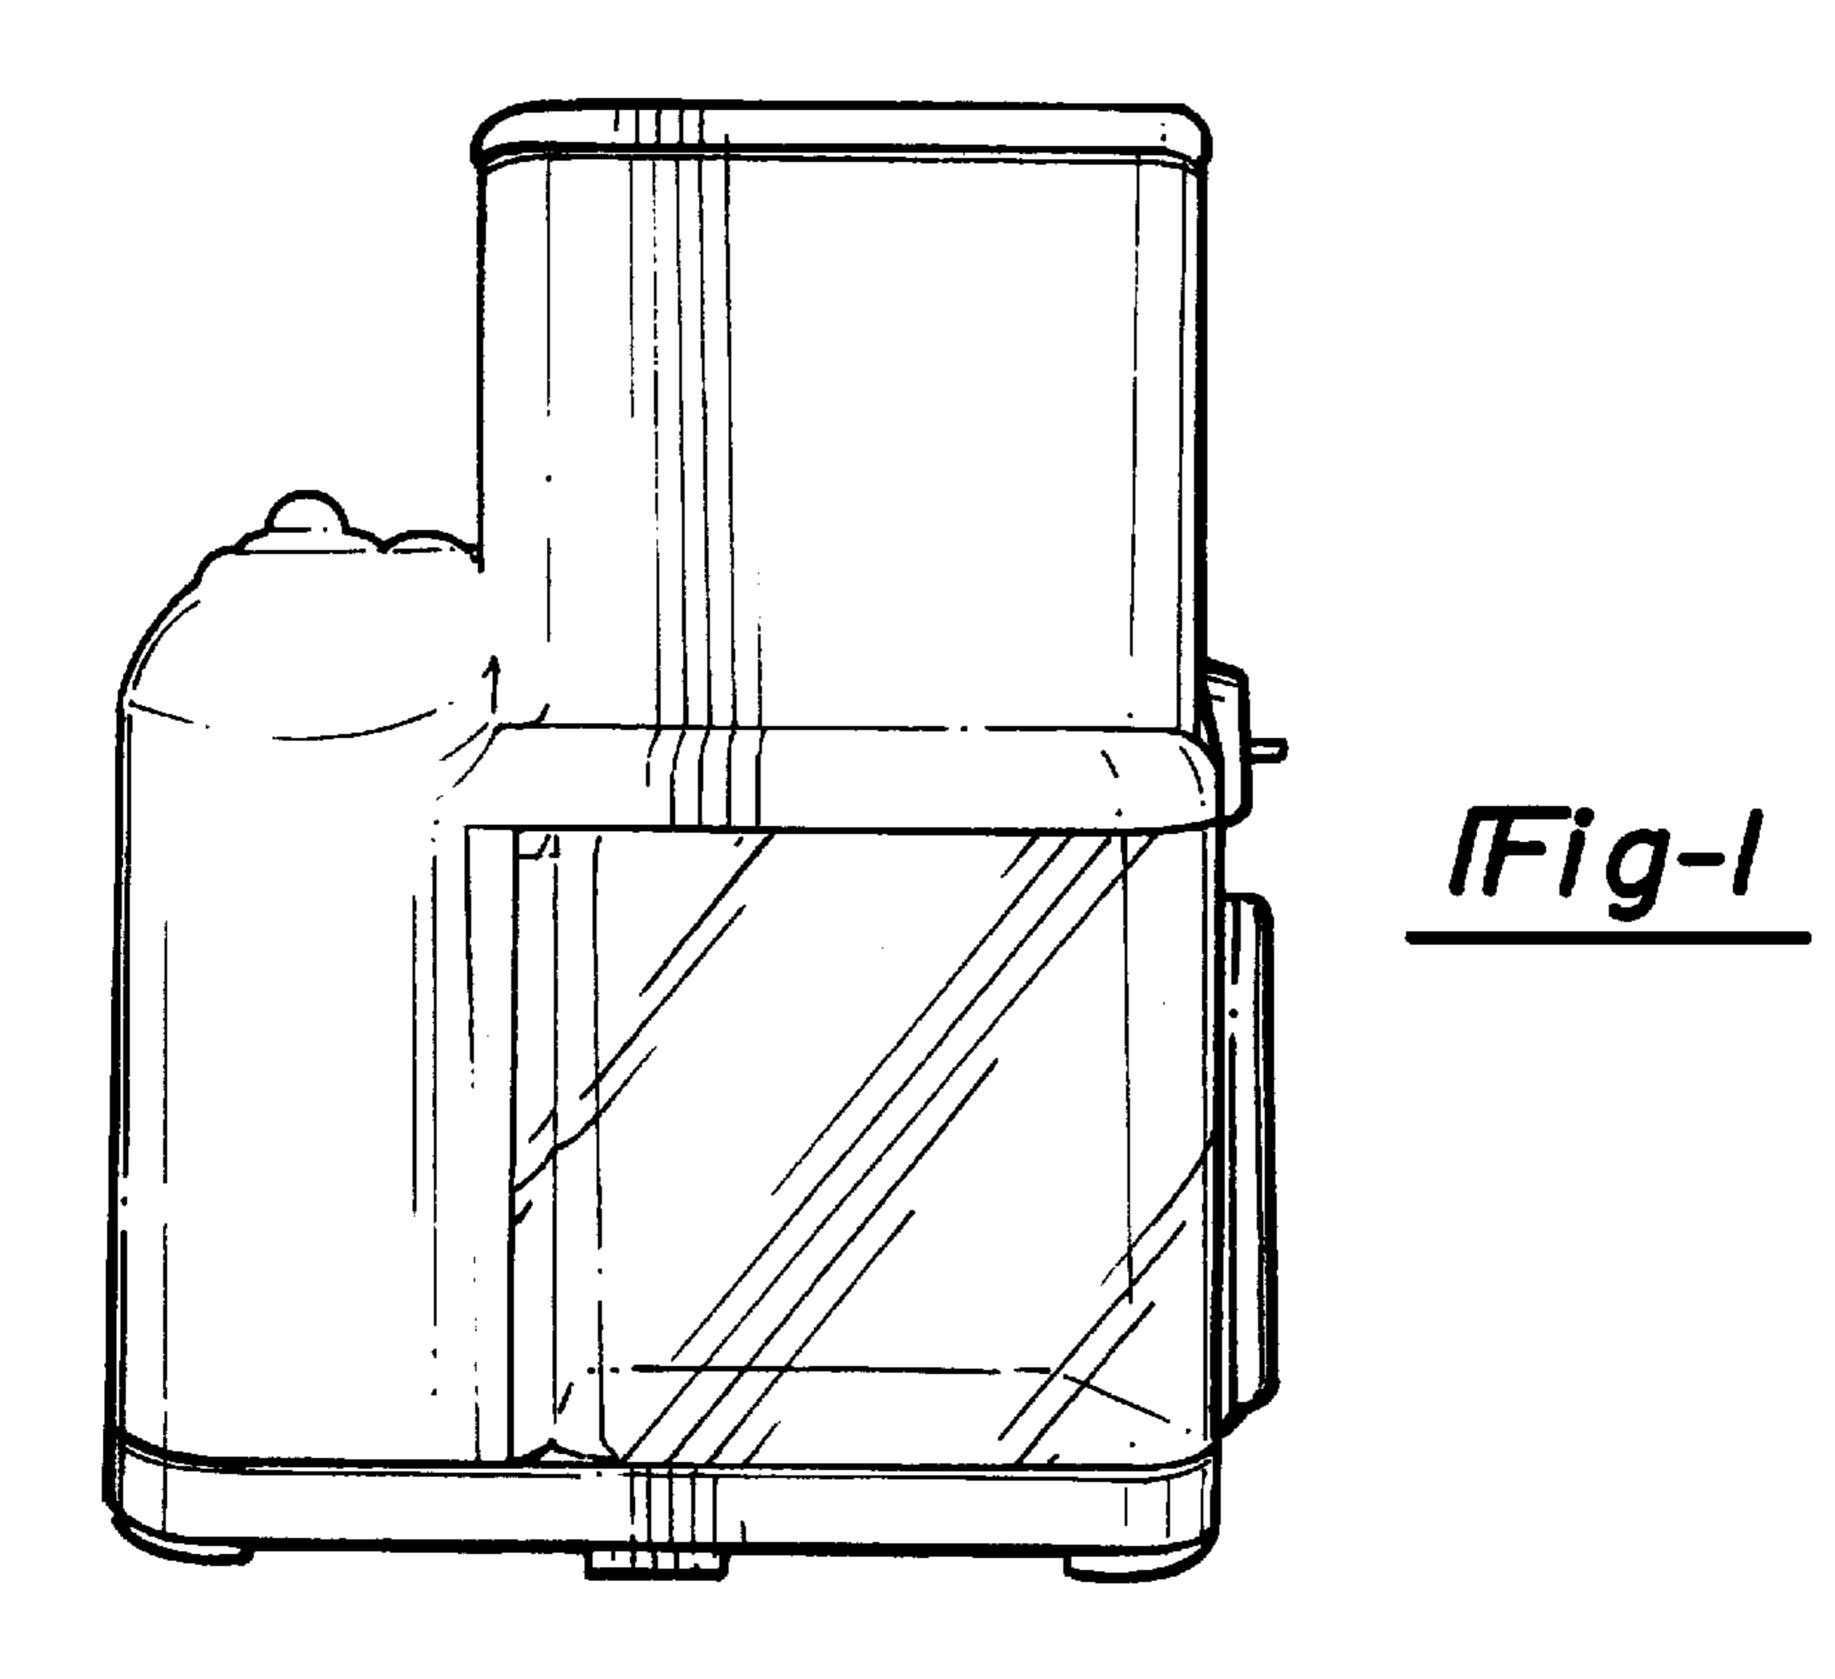

FIG. 10 is a partial top plan view of the present invention, having the plunger removed therefrom;

FIG. 11 is a perspective view showing the front, a second side, and top of the present invention; and,

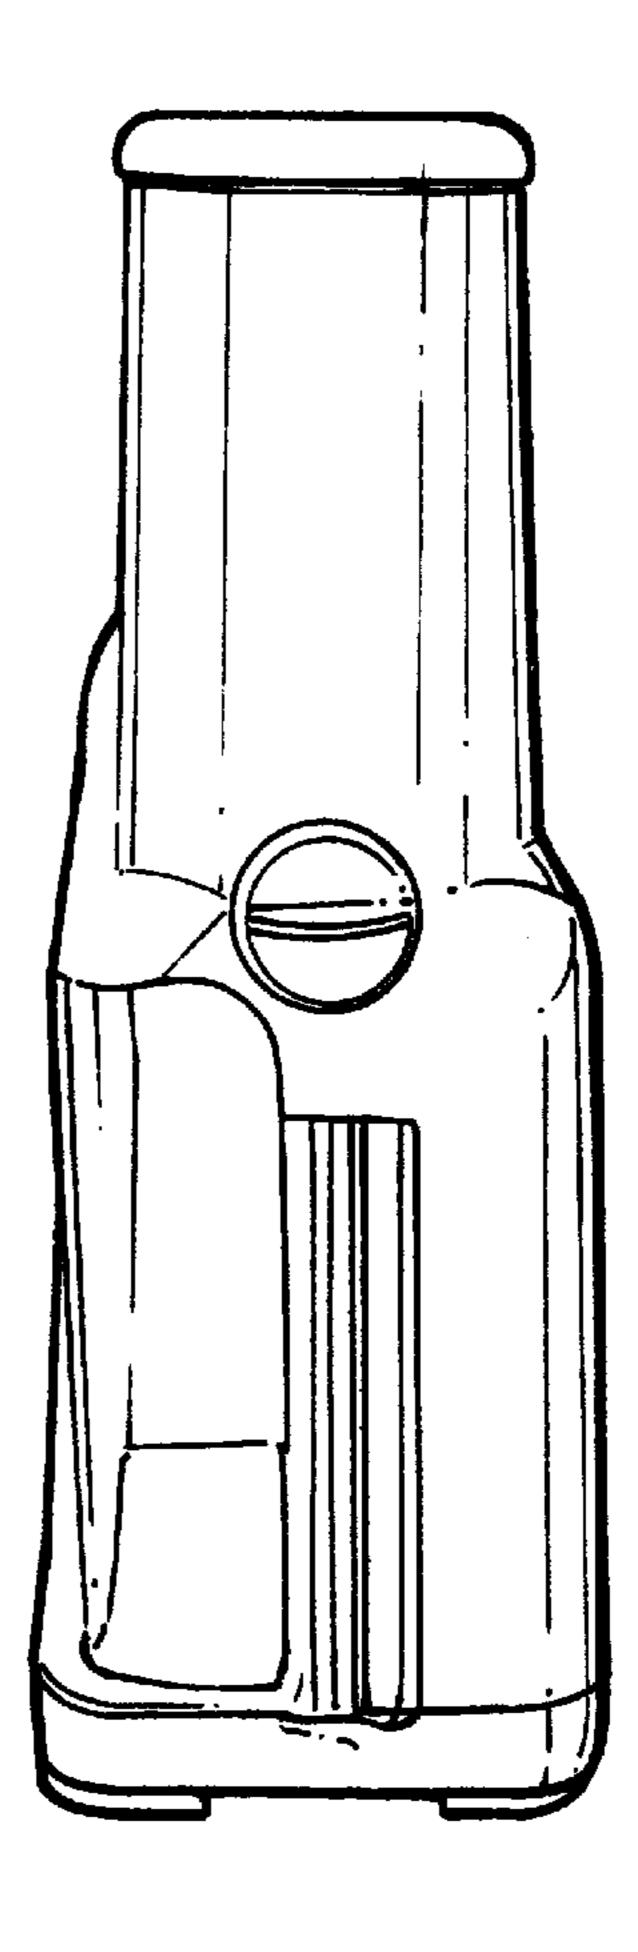

FIG. 12 is a perspective view of the present invention showing the second side and top of the present invention.
