[57] **CLAIM**

The ornamental design for a pediatric catheter connector, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a pediatric catheter embodying my design;

FIG. 2 is a right side elevational view thereof, the left side being a mirror image thereof;

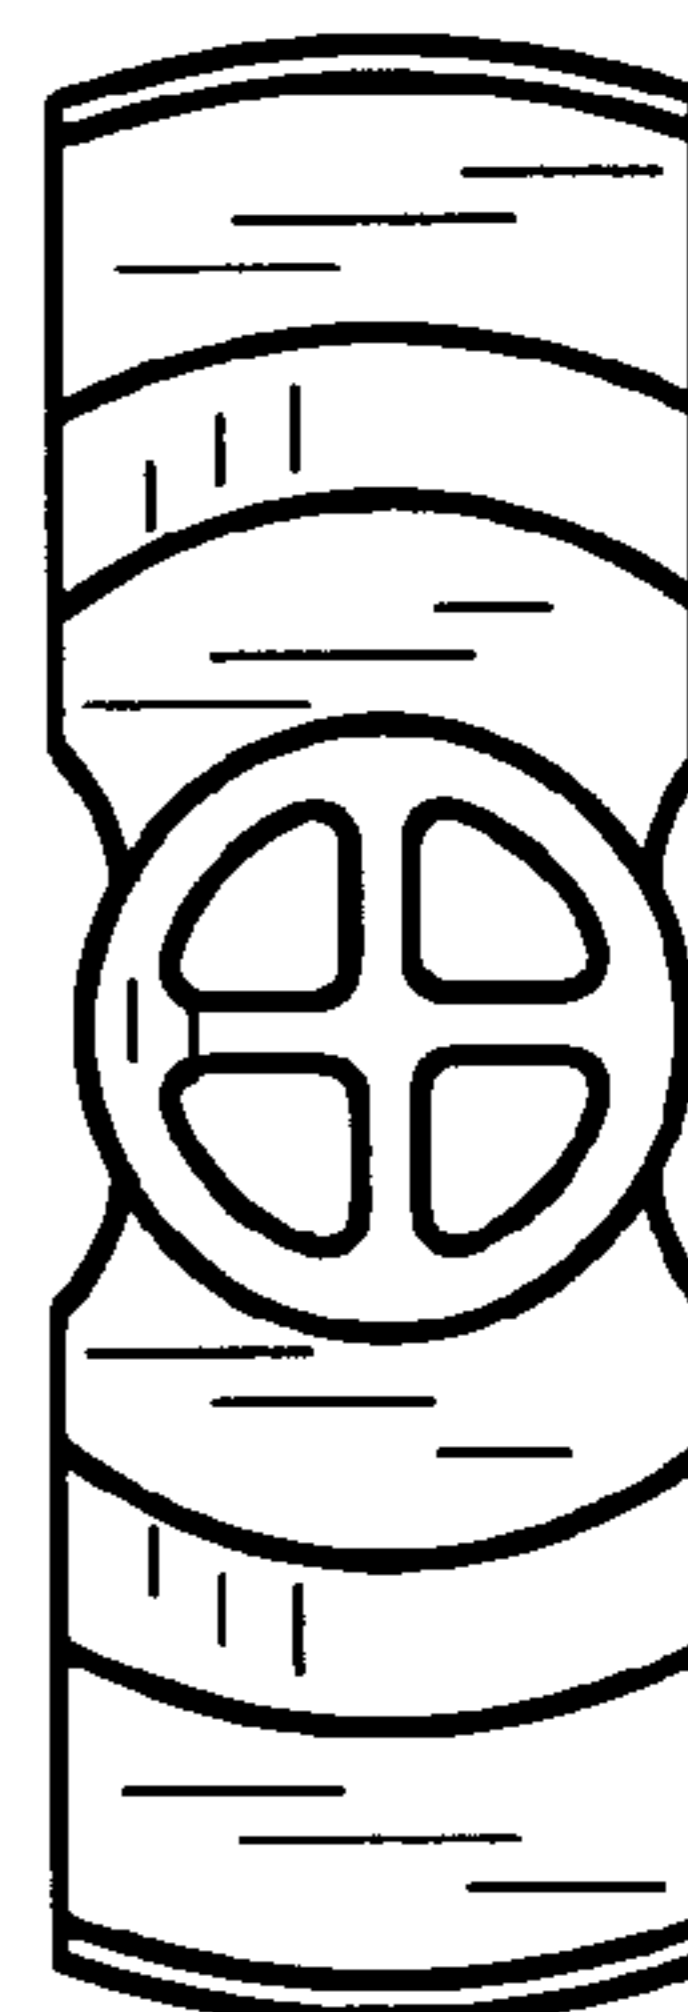

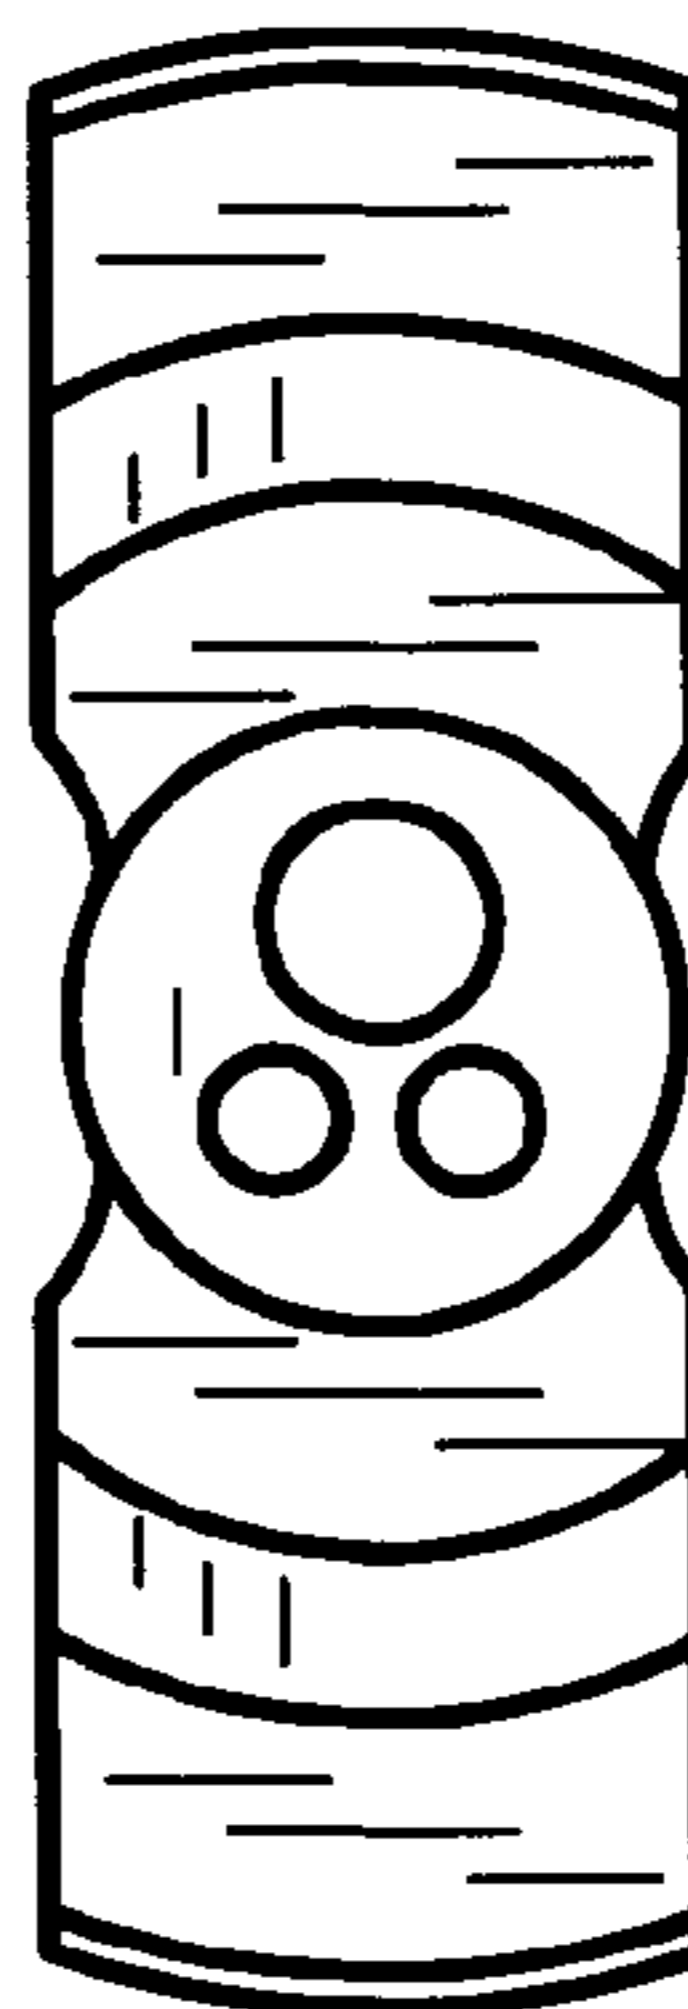

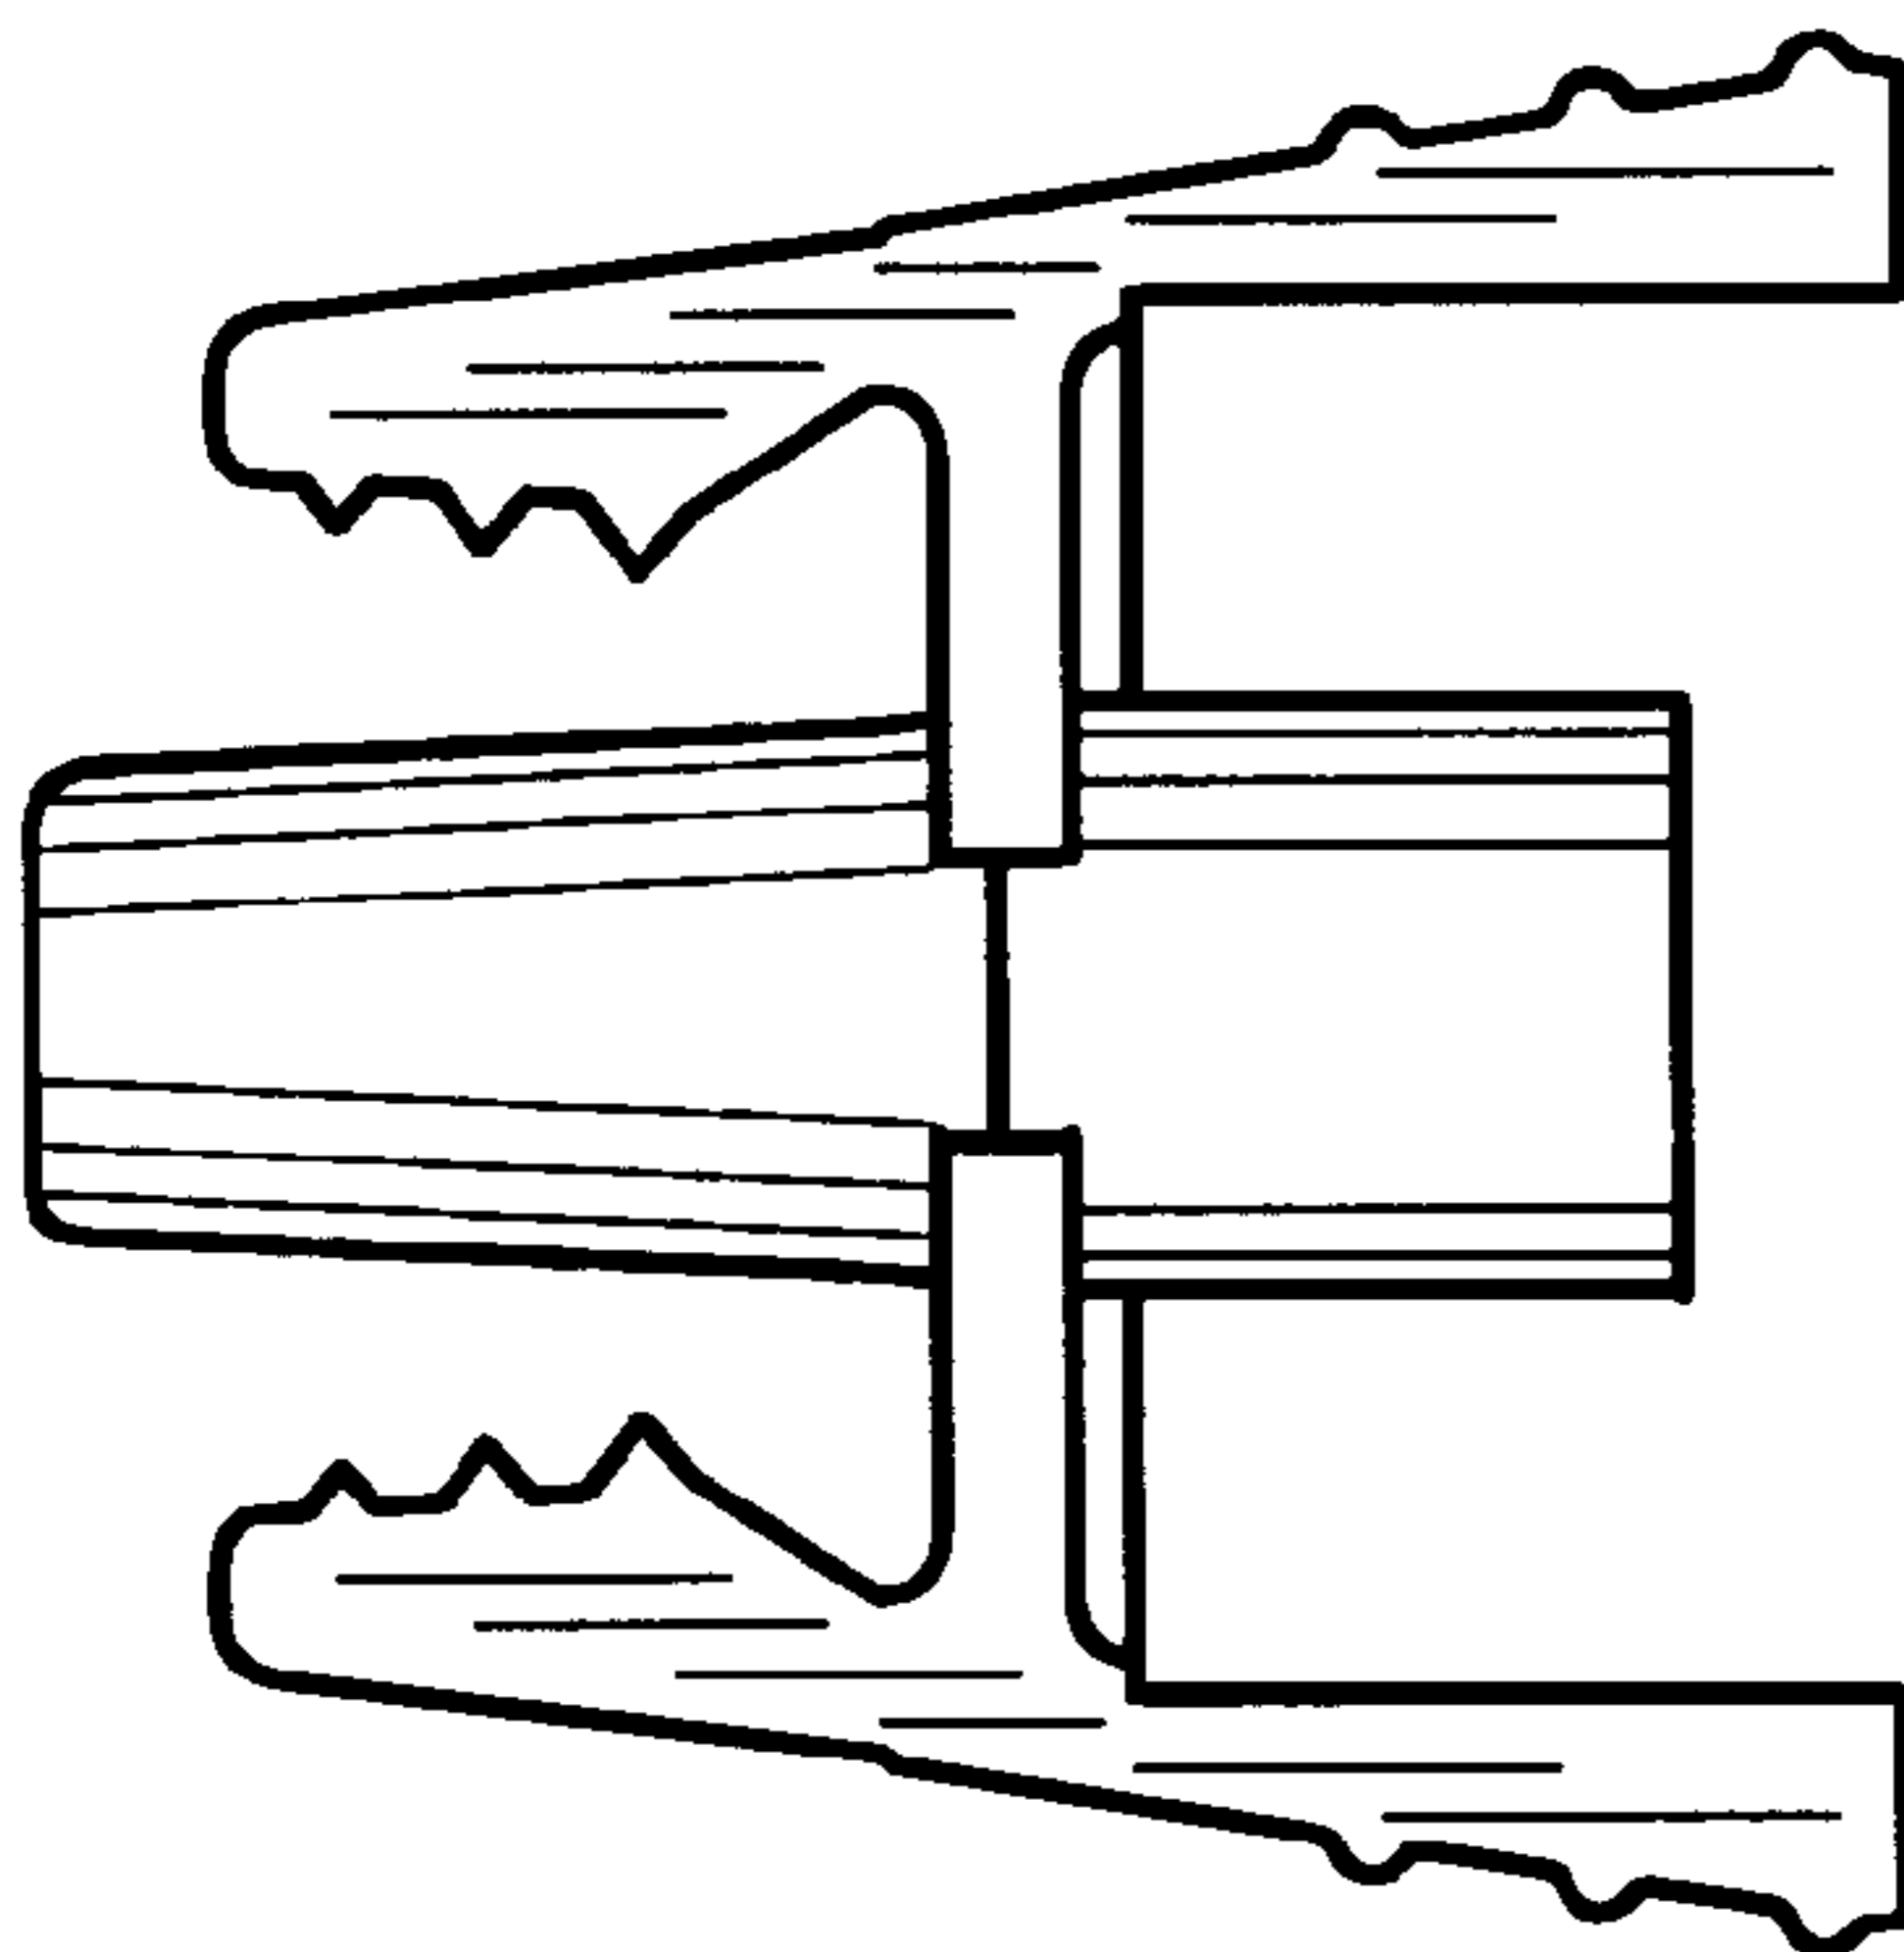

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a rear elevational view of a second embodiment of a pediatric catheter connector embodying my design, having three tubing openings. All other views being identical to FIGS. 1, 2, 3 and 5;

FIG. 5 is a top plan view of FIG. 1; and,

FIG. 6 is a rear elevational view of a third embodiment of a pediatric catheter connector embodying my design, having four tubing openings. All other views being identical to FIGS. 1, 2, 3 and 5.
