### [57] CLAIM

The ornamental design for the front part of a pair of jaws for pliers, as shown and described.

### DESCRIPTION

FIG. 1 is an isometric view from the upper right front of the front part of a pair of jaws for pliers, showing my new design, in a closed position, wherein the broken line illustrations of the rearward portions of the jaws and of a pivot joint are included for illustrative purposes and form no part of the claimed design;

FIG. 2 is an isometric view from the upper right front of the front part of a pair of jaws for pliers shown in FIG. 1, in an opened position, wherein the broken line illustrations of the rear portions of the jaws and of a pivot joint are included for illustrative purposes and form no part of the claimed design; FIG. 3 is a right side elevational view of the front part of a pair of jaws for pliers shown in FIG. 1 except for omission of the broken line illustration of the pivot joint, the left side elevational view thereof being a mirror image thereof;

FIG. 4 is a top plan view thereof, the bottom plan view thereof being a mirror image thereof;

FIG. 5 is a rear end elevational view thereof;

FIG. 6 is a front end elevational view thereof;

FIG. 7 is a isometric view thereof similar to FIG. 1 except for omission of the broken line illustration of the pivot joint, wherein the broken line illustration of the rearward portions of the jaws is included for illustrative purposes and forms no part of the design; and,

FIG. 8 is a isometric view similar thereof to FIG. 2, except for the omission of the broken line illustration of the pivot joint, wherein the broken line illustration of the rearward portions of the jaws is included for illustrative purposes and forms no part of the design.

**CERTIFICATE OF CORRECTION**

PATENT NO. : Des 427,496  
DATED : July 4, 2000  
INVENTOR(S) : Berg

Page 1 of 3

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Please substitute the following for the descriptions of FIGS. 3, 4, 5, 6, 7, and 8 as printed in the patent:

-- FIG. 3 is a right side elevational view of the front part of a pair of jaws for pliers shown in FIG. 1, except for omission of the broken line illustration of the pivot joint;  
FIG. 4 is a top plan view thereof;  
FIG. 5 is a rear end elevational view thereof;  
FIG. 6 is a front end elevational view thereof;

FIG. 7 is a bottom plan view thereof;  
FIG. 8 is a left side elevational view thereof;  
FIG. 9 is an isometric view thereof similar to FIG. 1 except for omission of the broken line illustration of the rearward portions of the jaws is included for illustrative purposes and forms no part of the design; and  
FIG. 10 is an isometric view thereof similar to FIG. 2, except for the omission of the broken line illustration of the pivot joint, wherein the broken line illustration of the rearward portions of the jaws is included for illustrative purposes and forms no part of the design. --
