[57] **CLAIM**

The ornamental design for a combined container and child-resistant closure, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevation view of the present invention with the closure attached, which view is identical to a rear elevation view.

FIG. 2 is a left side elevation view with the closure attached, which view is identical to a right side elevation view.

FIG. 3 is a top plan view with the closure attached.

FIG. 4 is a perspective view with the closure removed.

FIG. 5 is a front elevation of the container shown with the closure removed, the rear elevation is the same except for the continuous screw threading on the neck.

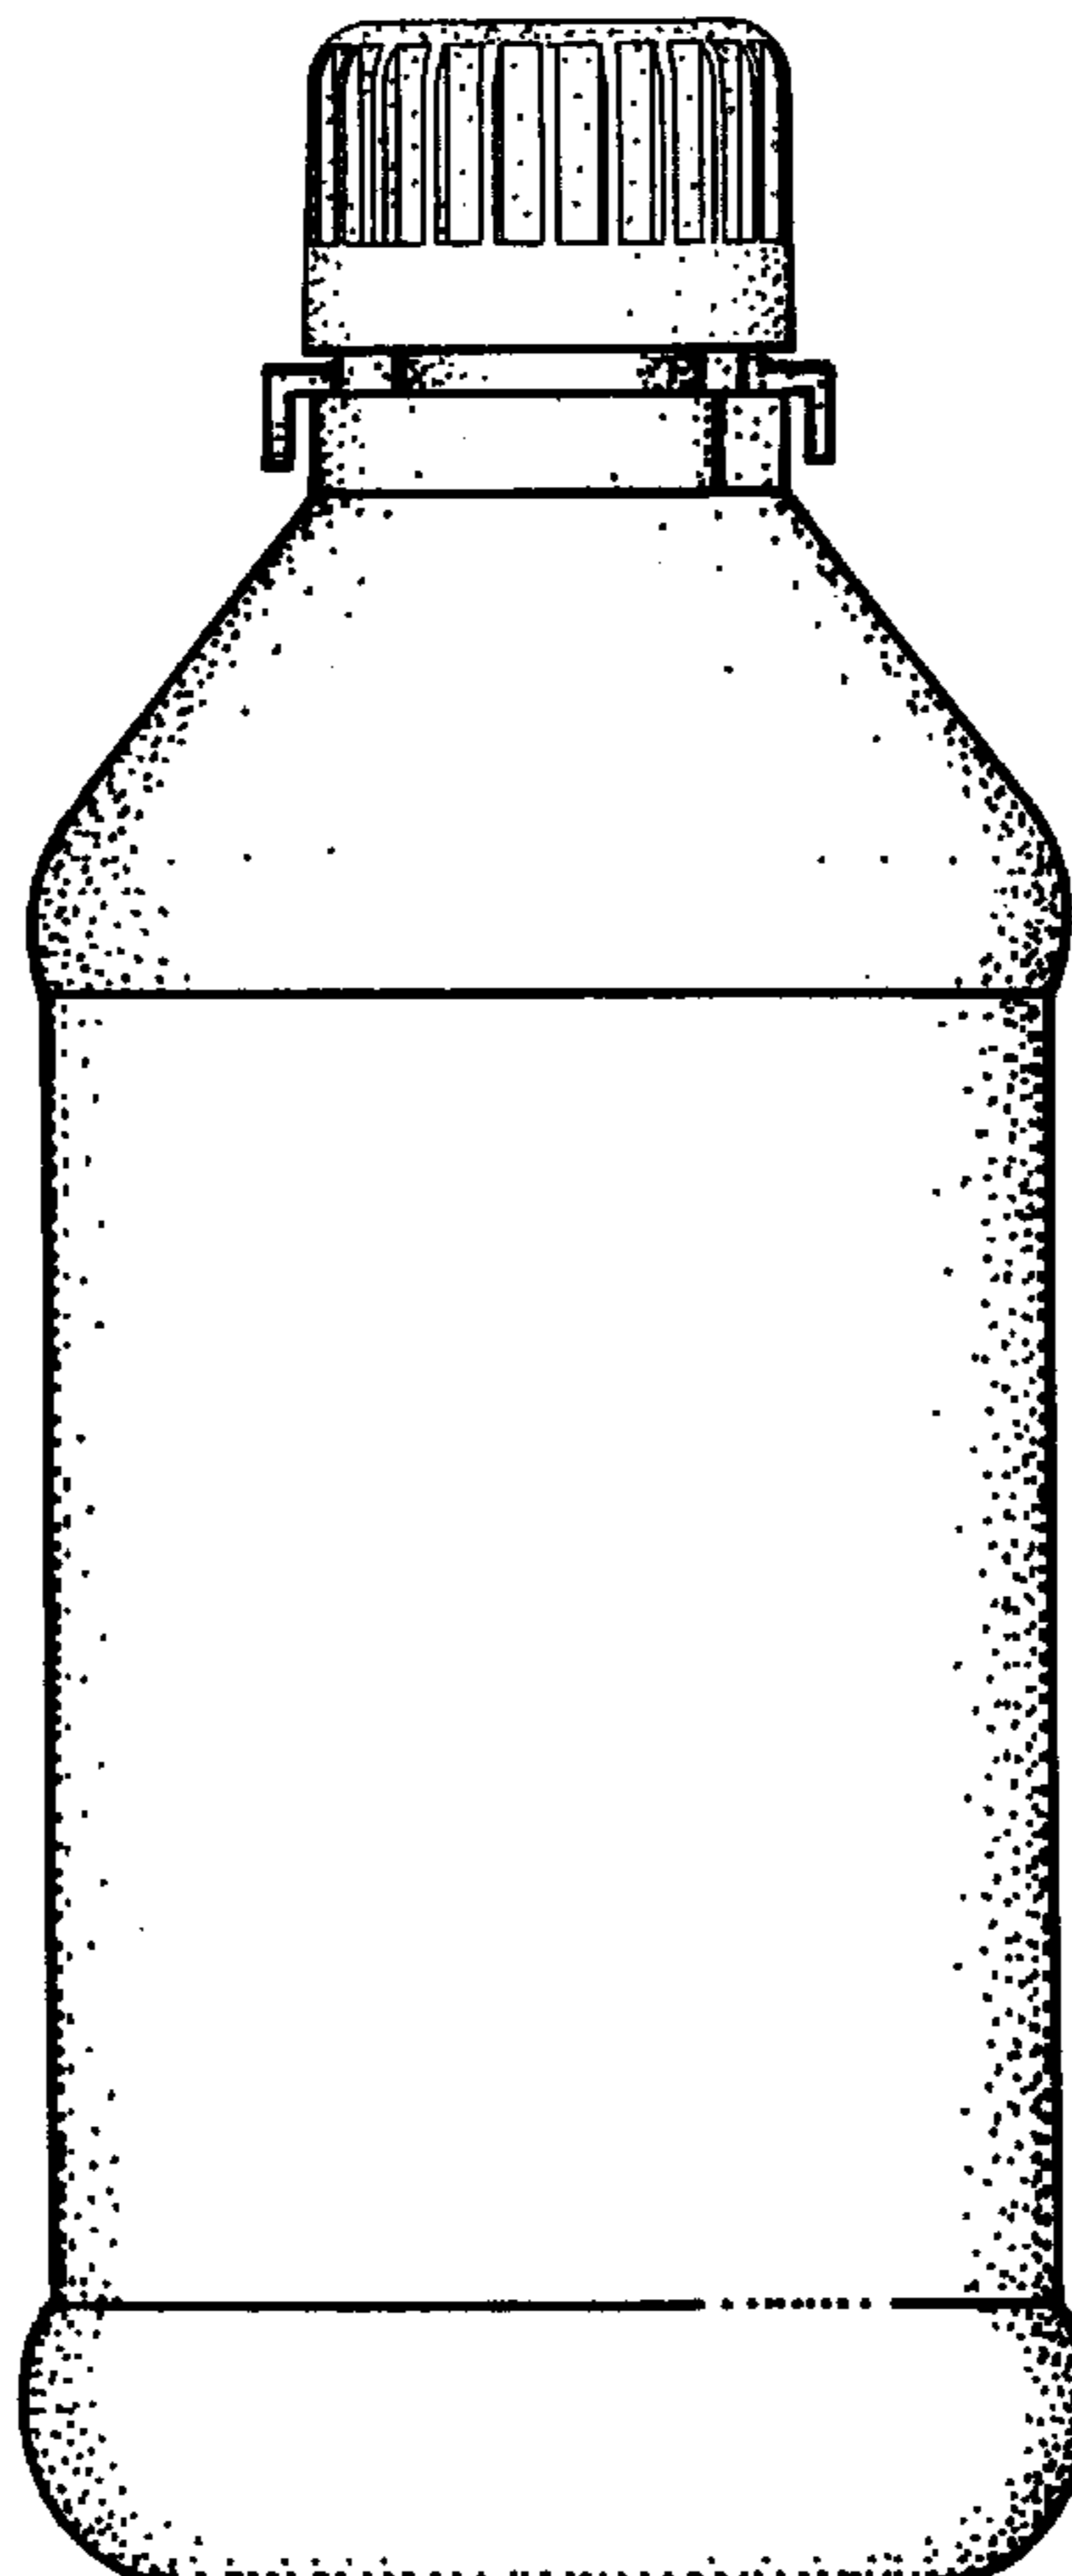

FIG. 6 is a left side elevation of the container shown with the closure removed, the right side elevation is the same except for the continuous screw threading on the neck; and,

FIG. 7 is a top plan view with the closure removed.

The bottom of the container does not form part of the claimed design.

The container is shown separately in FIGS. 4, 5, 6 and 7 for clarity of illustration.
