### [57] CLAIM

We claim the ornamental design for a touch safe fuse module and holder, as shown and described.

### DESCRIPTION

FIG. 1 is a perspective view of a disconnected touch safe fuse module and holder in accordance with one embodiment of the present invention.

FIG. 2 is a perspective view of the fuse module and holder shown in FIG. 1 but showing the touch safe fuse module and holder connected.

FIG. 3 is a side view of the connected touch safe fuse module and holder shown in FIG. 2.

FIG. 4 is a front view of the connected touch safe fuse module and holder shown in FIG. 2.

FIG. 5 is a rear view of the connected touch safe fuse module and holder shown in FIG. 1.

FIG. 6 is a top view of the connected touch safe fuse module and holder shown in FIG. 2; and,

FIG. 7 is a bottom view of the connected touch safe fuse module and holder shown in FIG. 1.

The broken-line disclosure of the rail in the views is for illustrative purposes only and forms no part of the claimed design.
