# United States Patent [19] Boyce

[11] **Patent Number: Des. 428,264**  
[45] **Date of Patent: \*\* Jul. 18, 2000**

[54] **REPEATING PATTERN FOR AN EMBOSSED PAPER PRODUCT**

[75] Inventor: **John Boyce**, Green Bay, Wis.

[73] Assignee: **Fort James Corporation**, Deerfield, Ill.

[\*\*] Term: **14 Years**

[21] Appl. No.: **29/098,580**

[22] Filed: **Dec. 31, 1998**

[57] **CLAIM**

I claim the ornamental design for a repeating pattern for an embossed paper product, as shown and described.

### DESCRIPTION

The sole FIGURE is a top plan view of my new design for a repeating pattern for an embossed paper product. The product to which the pattern is applied can be a single or multi-ply product and is preferably a tissue or towel product having no substantial thickness. The pattern can be printed, embossed, or depressions. The broken boundary line in the FIGURE represents the embossed paper product to which the pattern is applied, as well as boundaries of the claimed design, which repeats uniformly throughout the length and width of the paper product. The broken boundary line indicates that the design has indeterminate length and width. The broken boundary line does not represent a part of the claimed design.
