[57] CLAIM

The ornamental design for a surface configuration of a side mirror for a vehicle, as shown and described.

DESCRIPTION

Date of Patent: ** Aug. 22, 2000

This application is related to the co-pending Application Ser. No. 29/111,146, of the inventor, filed on even date herewith and entitled "Surface Configuration of a Vehicle".

FIG. 1 is a front perspective view of a first embodiment of a surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 2 is a rear perspective view of the first embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 3 is a rear view of the first embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 4 is a front view of the first embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 5 is a side view of the first embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 6 is a front perspective view of a second embodiment of a surface configuration of a side mirror for a vehicle according to my novel design;

FIG. 7 is a rear perspective view of the second embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

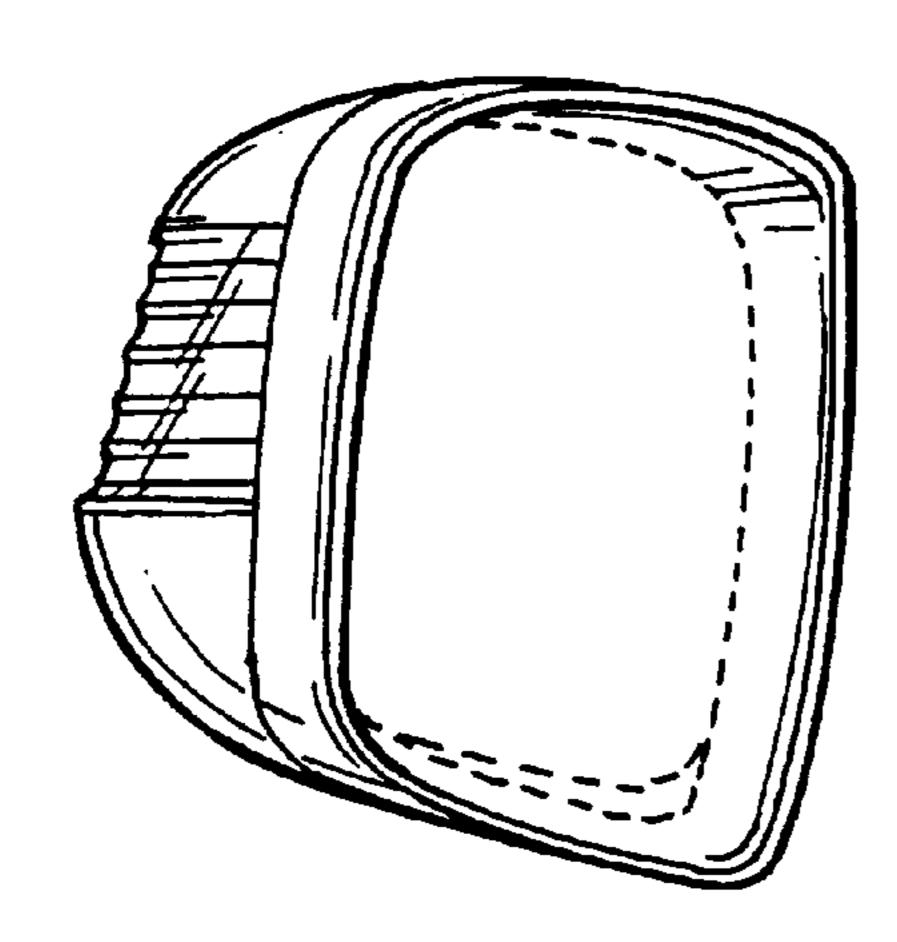

FIG. 8 is a rear view of the second embodiment of the surface configuration of a side mirror for a vehicle according to my novel design;

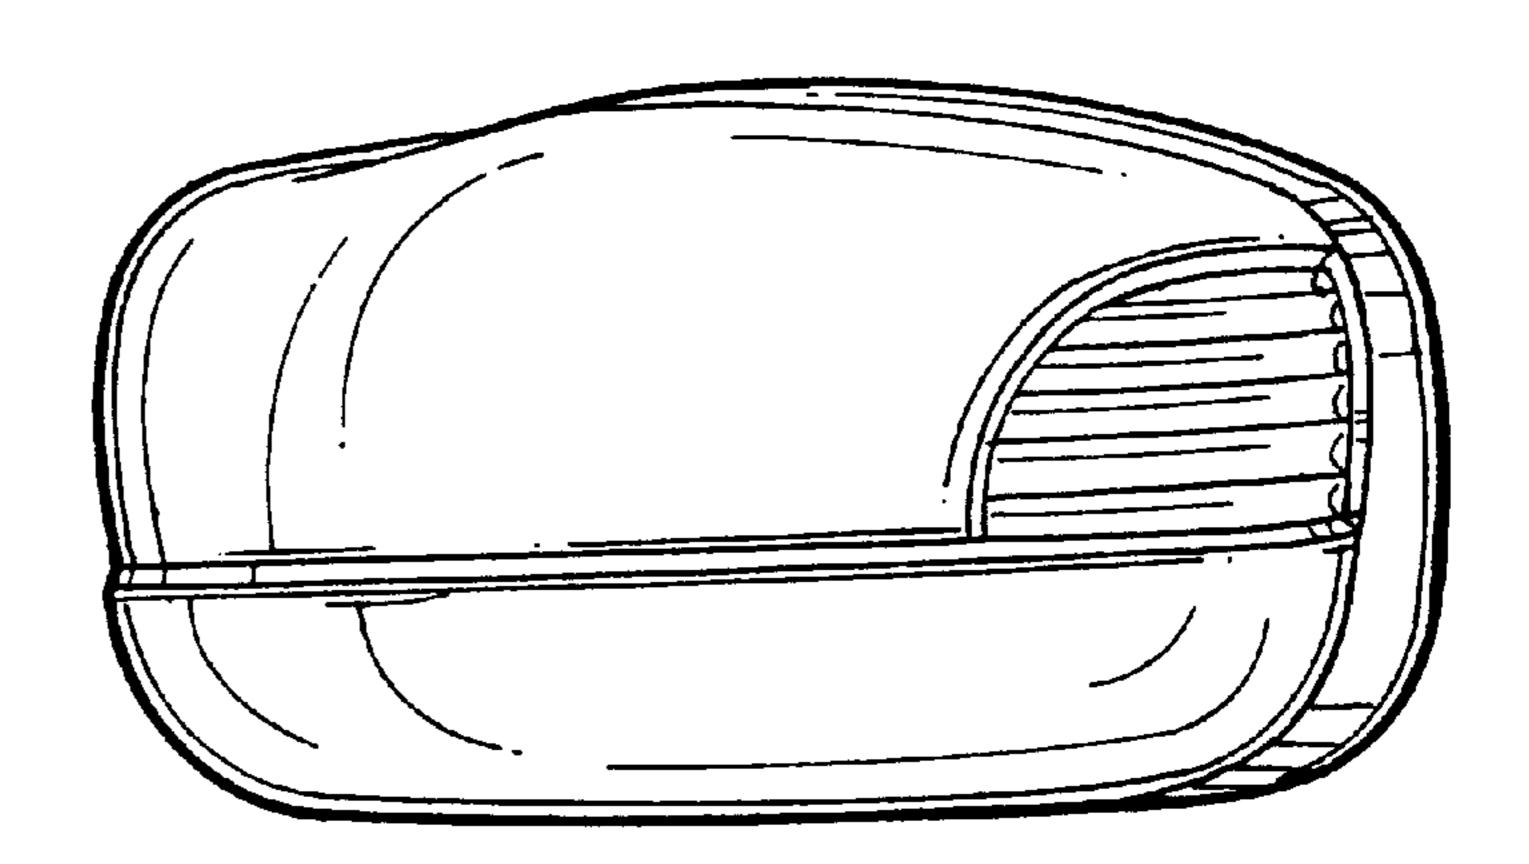

FIG. 9 is a front view of the second embodiment of the surface configuration of a side mirror for a vehicle according to my novel design; and,

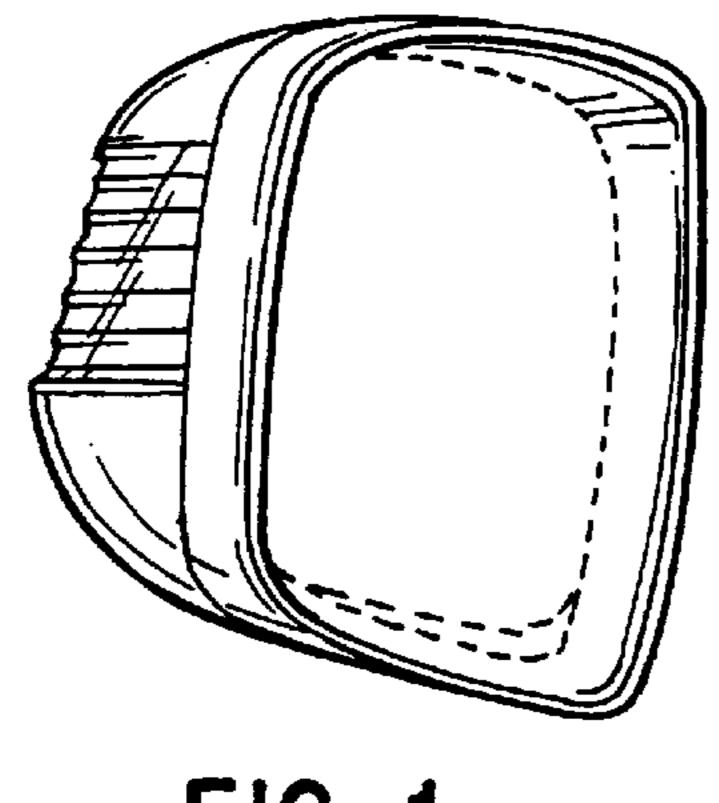

FIG. 10 is a side view of the second embodiment of the surface configuration of a side mirror for a vehicle according to my novel design.

The dash lines included depict environment and are not part of the claimed design.
