### [57] CLAIM

The ornamental design for housing and bracket portions of an electrical receptacle, as shown and described.

### DESCRIPTION

FIG. 1 is a perspective view of housing and bracket portions of an electrical receptacle showing our new design, with the view showing principally rear, left side and top end features thereof;

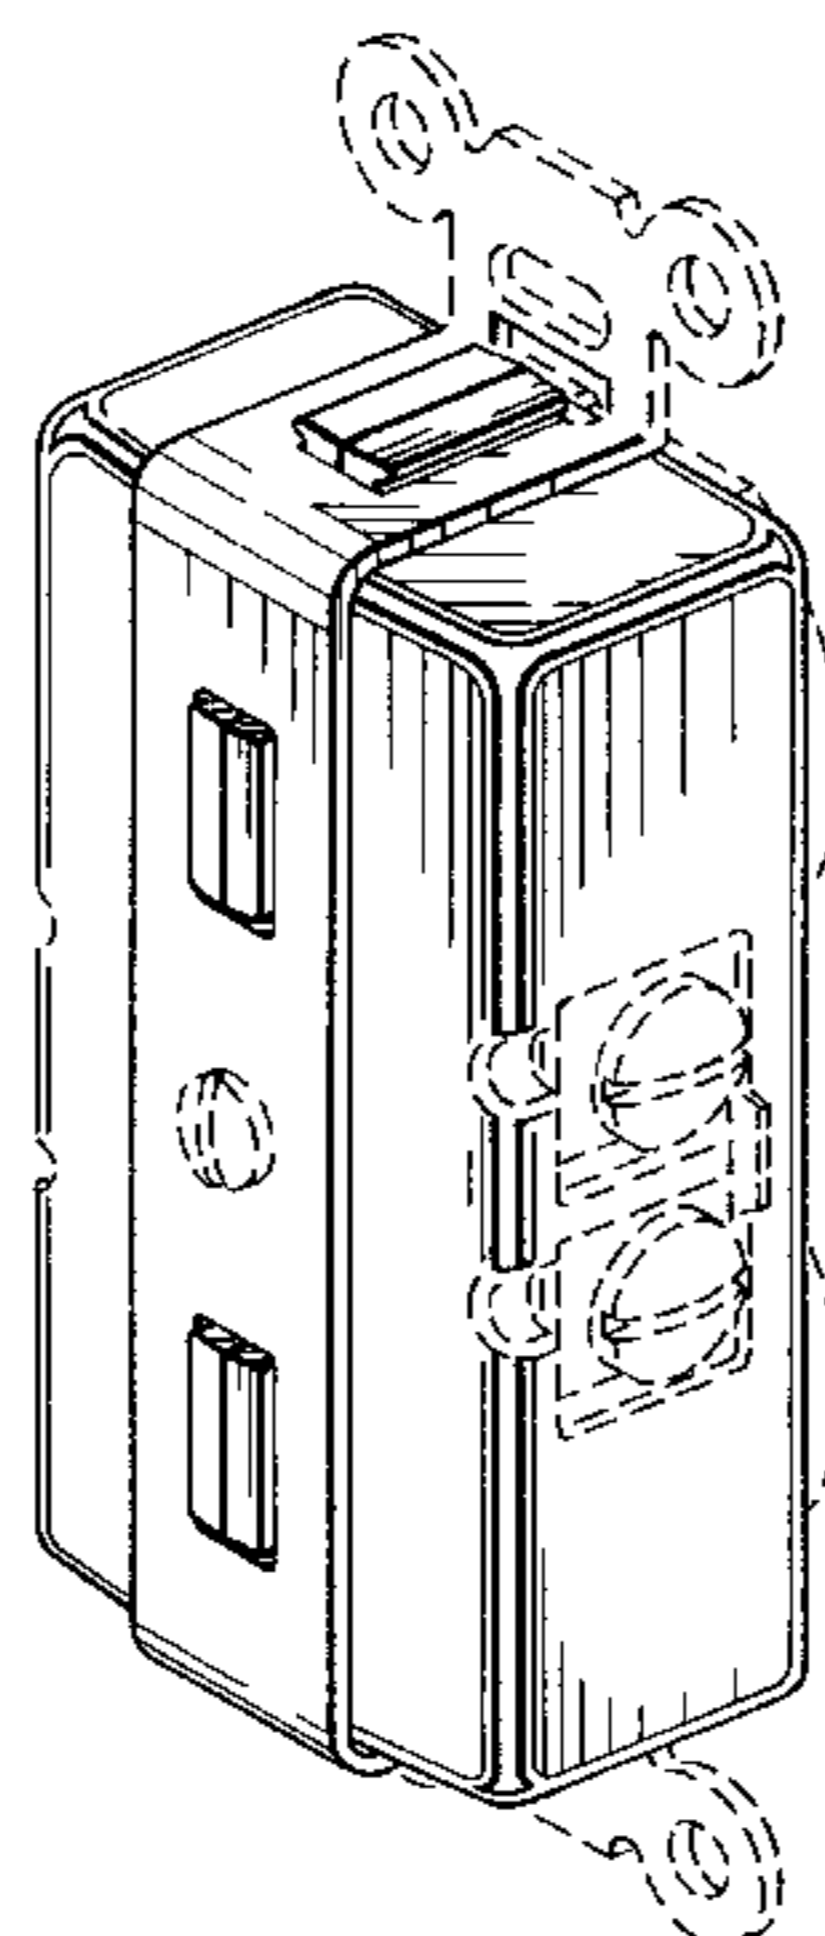

FIG. 2 is a perspective view thereof, with the view showing principally front, left side and bottom end features thereof, it being understood that the left and right sides are substantially mirror images of each other;

FIG. 3 is a top plan view thereof; and,

FIG. 4 is a rear elevational view thereof.

The broken lines showing other typical features of a receptacle are for illustrative purposes only and form no part of the claimed design.
