[57] **CLAIM**

The ornamental design for a foldable toothbrush, as shown
and described.

DESCRIPTION

FIG. 1 is a perspective view of a foldable toothbrush
showing our new design in an open condition, with the
bristle head of the brush portion shown by broken lines, the
bristle head being shown as environmental only and not
forming a part of this portion of the design.

FIG. 2 is a side elevational view of a foldable toothbrush
showing our new design in the open condition, the opposite
side elevational view being a mirror image thereof.

FIG. 3 is a bottom plan view of a foldable toothbrush
showing our new design in the open condition.

FIG. 4 is a top plan view of a foldable toothbrush showing
our new design in the open condition.

FIG. 5 is a front elevational view of a foldable toothbrush
showing our new design in the open condition.

FIG. 6 is a rear elevational view of a foldable toothbrush
showing our new design in the open condition.

FIG. 7 is a perspective view of a foldable toothbrush
showing our new design in a closed condition, with the
brush portion folded within the handle portion.

FIG. 8 is a side elevational view of a foldable toothbrush
showing our new design in the closed condition, the opposite
side elevational view being a mirror image thereof.

FIG. 9 is a top plan view of a foldable toothbrush showing
our new design in the closed condition.

FIG. 10 is a bottom plan view of a foldable toothbrush
showing our new design in the closed condition.

FIG. 11 is a front elevational view of a foldable toothbrush
showing our new design in the closed condition.

FIG. 12 is a rear elevational view of a foldable toothbrush
showing our new design in the closed condition; and,

FIG. 13 is a bottom plan view of a foldable toothbrush
showing our new design in an open condition, having like
features of the bottom plan view of the foldable toothbrush
shown in FIG. 3, with the broken line circles being for
illustrative purposes only and forming no part of the claimed
design.
